

## 2018 Shop Collection Horizontal Blinds Colors and Options

Fauxwood Custom Horizontal Blinds 1", 2" & 2.5" Proudly Assembled in the U.S.A. 

FR Certificate available on request

**Craftsmanship At Its Finest:**

[S](#)

Fauxwood horizontal blinds are distinguished by quality craftsmanship and durability. These products are produced with the highest quality metal and polycarbonate components. Additionally, Fauxwood horizontal blinds are built on a roll-formed, heavy-duty steel headrail, which further increases the strength and stability of the product. The operating components are secured inside the headrail by means of snap-in fittings. The cord lock incorporates a stainless steel wear guard and has a crash-resistant safety feature that locks the blind automatically once the lift cords are released. To provide smooth operation and tight slat closure, the cord tilter utilizes a steel gear housing, while the wand tilter option incorporates heavy duty components ensuring longevity.

### **Features & Benefits of Fauxwood Blinds:**

- Affordable Style
- Variety of Smooth, Textured & RealGrain Finishes
- Easy to Clean
- Durable
- Moisture Resistant
- Will Not Wrap, Crack or Delaminate
