OVERVIEW & BENEFITS

Why Briza™?

The slim design of the quiet, yet powerful motor and the position on the track allows the motor to tuck seamlessly behind your drapery panel so you'll never have to sacrifice your style or comfort. For safety measures, you're able to move the draperies with a gentle tug, allowing for operation when a remote is not present or if a guest is unaware of the motorization feature. This safety feature also allows the disengagement of the motor from the carriers in case of a power outage so draperies may be opened in the event of an emergency. Briza™ Motorization is available on our most popular traversing tracks, Estate and Architrac® Series 94001 and in drapery header styles Ripplefold™ and pleated for a variety of styling options. This is comfortable living at its finest.

For Briza™ Motorization brochure, programming instructions and installation instructions, please visit the drapery hardware resource library at kirsch.com.

Benefits & Features

Briza™ Motorization

- Motor mounts to the back of the track which allows a seamless look between motorized and cord or baton traverse rods
- Drapery fabrication does not need to change between cord or baton controlled draperies and motorized draperies; No additional returns or any special instructions
- Limits are set automatically after installation
- Remote control is radio frequency and easily pairs with the motor
- Tug feature; when drapery is pulled the motor will traverse the drapery
- New Neo Smart Controller allows for easy integration with third party home systems
- New Somfy® Motor head adapter allows you to connect a Somfy® motor to your Estate™ Traverse Rod or Architrac® Series 94001 Rod
- Architrac® Series 94001 Rods with Briza™ cannot be bent or curved

Frequently Asked Questions

What is the weight capacity?

100 lbs Be sure to not exceed this capacity to ensure your motor operates optimally.

Can you double the weight capacity by using two motors?

No Only use one motor per rod.

Does Briza™ offer limit setting?

Yes The motor automatically sets its limits.

Does Briza™ offer touch control?

Yes The tug feature allows you to pull on the drapery and the motor will automatically open or close your draperies.

How long is the power cord?

9 ft The durable, non-extendable power cord is extra long for out of reach places. And extra can be rolled and secured for a tidy look.

Is there a wall switch?

Yes The remote control comes with a base that can be mounted to the wall for the remote to slide into.

Is Briza™ compatible with smart home systems?

Yes Briza™ easily connects to your existing smart home system using the Neo Smart Controller.

Does Briza™ offer a warranty?

Yes See the Kirsch Warranty document for more information.

1 3/8" ESTATE™ WITH BRIZA™

Small but Mighty

The 1 3/8 inch Estate™ rods are our newest decorative traversing drapery rods. Available in our Wood Trends™, Designer Metals™ and Buckingham® collections, this new smaller size is perfect for smaller spaces while still providing high performing function. The rod may be smaller, but the style is still bold. You can pair any of the 1 3/8 inch finials to complete your design so you never have to sacrifice your brilliant style for performance.

Kirsch® is proud to extend a 10 year warranty on all Kirsch® Drapery Hardware products manufactured after July 1, 2018 using all Kirsch® components. This is part of our commitment to providing the highest quality products, which has been our continued tradition since 1907.

COVERED

by a 10 year warranty

- Kirsch® Drapery Hardware products are covered for defects in materials, workmanship or failure to operate for 10 years from the date of purchase (unless shorter periods are provided below), provided that the original retail purchaser continues to own the product.
- All internal mechanisms.
- Components, brackets and operational cords.
- Operational cords for a full 7 years from the date of purchase.
- Repairs and/or replacements will be made with like or similar parts or products. Style, color or components may vary depending on original purchase date.
- Kirsch® motorization components are covered for 5 years from the date of purchase.

NOT COVERED

by a 10 year warranty

- Any conditions caused by normal wear and tear.
- Abuse, accidents, misuse or alterations to the product.
- Exposure to the elements (sun damage, wind, water/moisture, salt air) and discoloration or fading over time.
- Normal maintenance associated with motors and related accessories including, but not limited to, recharging and replacement of batteries.
- Failure to follow our instructions with respect to measurement, proper installation, cleaning or maintenance.
- Shipping charges, cost of removal and reinstallation.

Kirsch® (or its licensed fabricators/distributor) will repair or replace the product or components found to be defective.

TO OBTAIN WARRANTY SERVICE

- Contact your original dealer (place of purchase) for warranty assistance.
- Contact Kirsch® at (800) 252-2512 for technical support, certain parts free of charge, for assistance in obtaining warranty service or for further explanation of our warranty.

NOTE: In no event shall Kirsch® or its licensed fabricators/distributor be liable or responsible for incidental or consequential damages or for any other indirect damage, loss, cost or expense. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above exclusion or limitation may not apply to you. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.

Different warranty periods and terms apply for commercial products and applications.
