Wood Characteristics

The wood used to manufacture our wood cornices and valances has many natural characteristics that make it truly unique. Natural variations in color and grain are inherent in the beauty of wood. These variations are within established industry guidelines and should be expected. When two or more pieces of wood are spliced together to create wider valances or cornices, there may be variations in the dye lot and grain between the sections. In addition, cornices and valances may stain slightly darker or lighter than the samples shown in the sample books and selectors.

The following are all natural characteristics of wood:

- Grain—The direction, size, and appearance of wood fibers vary greatly depending on where the wood is cut from within the tree
- Tiger Striping—Occurs when a tree develops wavy grain, due to genetics, soil content, or other natural scenarios
- Burl—Formed from an irregular growth on the outer edge of the tree
- Bird's Eye—Small area on the surface of the board where fibers are contorted to form circular figures that resemble birds' eyes
- Pin Knots—Vary in size, shape, structure, and color
- Mineral Marks—Dark or discolored areas caused by minerals which the tree extracts from the water or soil; can be either a streak or a stain, usually blackish blue
- Shaker/Rustic—Material contains markings that are more extreme than in standard products; the number and degree of marking will vary throughout the blind

Please be assured that these markings in no way affect the durability or the structural integrity of the blind.

Features

Wood Cornices

- Crafted from premium North American hardwood
- Fine furniture-quality finish
- L-brackets are included for easy installation
- Cornices are available in all paints and stains to coordinate with Signature Series Wood Blinds, as well as unfinished or custom color
- Keystones are included with spliced cornices and are available as a surcharge option for cornices that do not require a splice

Wood Valances

- Crafted from premium North American hardwood
- Fine furniture-quality finish
- Includes mounting hardware for specified product use
- Valances are available in all paints and stains to coordinate with Signature Series Wood Blinds, as well as unfinished or custom color
- Keystones are included with spliced valances and are available as a surcharge option for valances that do not require a splice

Composite and Faux Wood Valances

- Composite and faux wood options are ideal for a finishing look in a high humidity room
- Includes mounting hardware for specified product use

Palladian Window Shelf

- Crafted from premium North American hardwood
- Fine furniture-quality finish
- Available in all paints and stains to coordinate with Signature Series Wood Blinds, as well as unfinished or custom color
- Create a mounting surface for unique or difficult installations
- Available in depths from 4" to as narrow as 2"
- Mounting hardware included

Size Considerations

Cornices and Valances

Type of Valance or Cornice	Minimum Width		Maximum Width without Splicing		Maximum Width with Splicing	
	Inside Mount (inches)	Outside Mount (inches)	Inside Mount No Returns (inches)	Outside Mount or Inside Mount with Returns (inches)	Inside Mount (inches)	Outside Mount (inches)
2½" Standard Coastal Wood Valance†	8¼	8	100¼	98¾	300¼	298¾
3" Standard Wood Valance	8¼	8	100¼	98¾	300¼	298¾
3½" Flat Wood Valance	8¼	8	100¼	98¾	300¼	298¾
3½" Stately Wood Valance	8¼	8	100¼	98¾	300¼	298¾
4½" Eleganza Wood Valance/Cornice^	8¼	8	100¼	98¾	300¼	298¾
3" Standard Composite or Faux Wood Valance†	8¼	8	106¾	105¾	300	298¾
3½" Stately Composite or Faux Wood Valance†	8¼	8	106¾	105¾	300	298¾
5½" Imperial Wood Cornice^	8¼	8	94	92½	366	366

5½" Grand Wood Cornice^	8¼	8	94	91¾	366	366
7½" Grand Wood Cornice^	8¼	8	94	90	366	366

^Inside mount wood cornices that require a keystone cannot be mounted flush to the top of the window casing. There will be approximately a ¼" gap at the top and the installation brackets may be visible with this application.

†Keystones not available on authentic hardwood, coastal wood, distressed wood, in sandblast finish, composite, or faux wood valances.

NOTE: Cornices and valances wider than the widths shown in the chart above will be manufactured in multiple sections. The sections must be assembled during installation. Customer may request specific locations for the splices as long as it does not exceed our maximum single piece size. All requests for additional cornice or wood valance splices require a keystone. The keystone surcharge applies to each additional splice.

These formulas are used to calculate BACKSIDE valance measurements by product type.

Product Type	Mount Type	Formula	
		No returns	With returns
All Except: • Woven Wood Drapes • Sheer Verticals • iD Fabric Roman Shades • Other Applications	Inside mount	OW - 1/16"	OW + 1/4"
	Outside mount	OW + 1/2"	OW + 3/4"
Woven Wood Drapes	Inside mount	OW - 1/16"	OW + 1/2"
	Outside mount	No returns OW + 1/2"	With returns OW + 1"
Sheer Verticals	Inside mount	No returns OW - 1/16"	With returns Ordered width
	Outside mount	No returns OW + 1/4"	With returns OW + 1/2"
iD Fabric Roman Shades	Inside mount	No returns OW - 1/16"	With returns OW + 3 1/2"
	Outside mount	No returns OW + 1/4"	With returns OW + 4"
Other Applications	Inside mount	No returns Ordered width	With returns Ordered width
	Outside mount	No returns Ordered width	With returns Ordered width

These formulas are used to calculate BACKSIDE cornice measurements by product type.

Product Type	Mount Type	Formula	
		No returns	With returns
All Except: • Woven Wood Drapes • Sheer Verticals • iD Fabric Roman Shades • Other Applications	Inside mount	OW - 1/16"	OW + 3/4"
	Outside mount	OW - 1/16"	OW + 1"
Woven Wood Drapes	Inside mount	OW - 1/16"	OW + 1"
	Outside mount	No returns OW - 1/16"	With returns OW + 1"
Sheer Verticals	Inside mount	No returns OW - 1/16"	With returns OW + 1/2"
	Outside mount	No returns OW - 1/16"	With returns OW + 2"
iD Fabric Roman Shades	Inside mount	No returns OW - 1/16"	With returns Ordered width
	Outside mount	No returns Ordered width	With returns Ordered width

If the product option of other is selected during entry, the backside cornice/valance measurement will be the exact width entered. There will be no additions or deductions taken. Cornice or valance return size must be specified. Soft drapery falls within the 'other applications' category.

Palladian Window Shelf

	Minimum Width Inside Mount Only (inches)	Maximum Width Inside Mount Only (inches)	Minimum Depth (inches)	Maximum Depth (inches)
Palladian Window Shelf	7	96	2	4

NOTE: Inside mount application only. The finished shelf will be ordered width less 1/16". The shelf is designed for end mounting, no center supports are available. End mounting brackets must be mounted to a flat vertical surface. If installation is inside an arch, the top of the palladian shelf must be mounted at or below the start of the arch curve. Shelf can be installed in a vertical application to divide a large window. Depending on the width of the window opening and the weight of the blind or shade, deflection up to 1/2" may occur.

Options

Wood Cornices

- Crafted from premium North American hardwood
- Fine furniture-quality finish
- Installation hardware is included for easy installation
- Cornices available in all paints and stains to coordinate with Signature Series Wood Blinds, as well as unfinished or with custom color
- Inside mount has straight cut ends, no returns, no dust cover
- Outside mount has mitered corners, returns, and a dust cover* to conceal the top of the blind
- Custom returns may be ordered for outside mount up to 8"; minimum return is 1/2"
- Cornices not available on bay or corner windows
- Single side return available; opposite end will be straight cut

*Dust cover is unfinished and will not match selected color.

NOTE: Wood cornice will be shipped separate from blinds. Manufacturer recommends installing blind and cornice at the same time.

Options

Decorative Keystones

- Decorative keystones are required on wood cornices and valances that require splicing
- The keystones will be equally spaced unless special splice locations are requested at time of order
- Keystones can be requested on wood cornices without a splice at time of order
 - Minimum width with a keystone: 12"
 - Maximum number of keystones: 3
- Keystones will be stained or painted to match the valance or cornice ordered as standard; optional different color selection available
- Keystones not available on authentic hardwood, coastal wood, distressed wood, in sandblast finish, composite, or faux wood valances
- All inside mount applications will have a slight light gap at the top of the cornice or valance when installed with a keystone
- Keystones cannot be added to existing valances or eleganza cornices because the keystones require splicing at the time of order

3 ¹ / ₂ " Stately Composite or Faux Wood Valance	All	3 ³ / ₈	4 ¹ / ₄

*Faux wood and composite valances not recommended due to valance heights.

NOTE: Minimum return width is 1/2"; maximum return width is 8". Valance returns 1/2" to 4 5/8" will be glued, 4 11/16" and greater cannot be glued.

Valances only available on bay or corner windows if bay or corner application is available on entire product line selected. See cost and product reference guide of product selected for measuring instructions. If the valance is to be used alone (no product selected), the return width must be specified at the time of the order.

General Information

How to Measure for Valance Returns

Window depths vary considerably depending on the age and style of the window.

Always measure the window depth, regardless of the type of window treatment the client is considering. Knowing the depth when the order is placed can help prevent costly errors.

Use the information in your cost and product reference guide for wood, composite, and faux wood to calculate the needed return length (see previous pages).

To calculate the return width, use this formula:

[standard return width] minus [client window depth] =
special return width to order for inside mount blind

REMEMBER:

- Smallest return width is ½" (inside measurement)
- Returns up to 4⅝" (inside measurement) will be glued
- The width of a return and the width of a valance are measured on the inside (back side) of the valance, not the outside (face) of the valance (see diagram at right)
- Standard return size for 2⅞" blinds—subtract ⅜" prior to determining special return width
- Standard return size for 2½" blinds—subtract ⅜" prior to determining special return width

A: Inside Measurement
B: Outside Measurement

General Information

How to Measure and Order Cornices and Valances

Wood cornices and valances are optional with your custom order or as a stand-alone order.

NOTE: Cornices and valances with returns are measured and cut from the **INSIDE** of the miter to ensure the most accurate fit when installed over the headrail or window frame.

Outside Mount

- Cornices and valances are supplied with returns sized to cover the end of the blinds back to the mounting surface
- Custom returns may be ordered up to 8"; minimum return is $\frac{1}{2}$ "
- Cornices include a dust cover to conceal the top of the blind

Inside Mount

- Cornices and valances are supplied without returns and look best when the blinds and valance or cornice can be completely recessed
- Ends of the valance and cornice are straight-cut
- Cornices do NOT have a dust cover and returns are NOT available
- Returns for inside mount valances must be specified; if valance is a replacement, specify $\frac{1}{2}$ " return for cord tilt or motorized tilt and $\frac{3}{4}$ " for wand tilt or slat sizes greater than 2"

Additional Ordering Information

- Please state at the time of order if the valance or cornice return measurements are for the **EXACT** size required so that no additions or deductions are made
- Cornices and valances will be shipped separately from blind
- Manufacturer recommends installing blind and valance/cornice at the same time

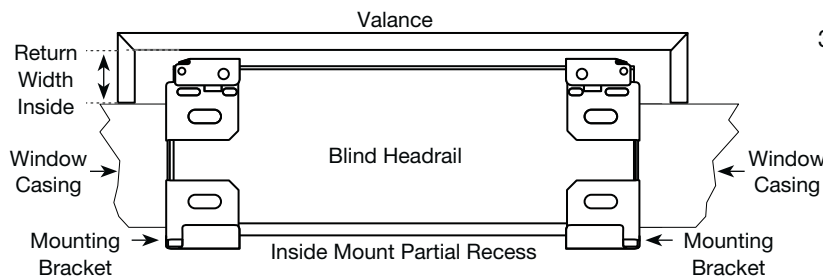

Side View—Cornice

1. Full recess is from front of cornice to wall.
2. Return width is from miter to wall.

Side View—Valance

1. Full recess is from front of valance to wall.
2. Return width is from miter to wall.
3. Partial recess—subtract actual window recess from return width to arrive at exact return width.

General Information

How to Measure a Special Splice Location

A keystone is supplied for valance and cornice widths that require a splice. Keystone will be equally spaced unless a special splice location is requested at time of order. The placement of the splice will be calculated by the factory using an INSIDE measurement from the mitered corner to the location specified on the order.

Each splice location should be recorded starting from the LEFT BACKSIDE corner.

EXAMPLE: Overall valance width = 80" backside measurement
First splice from left = 30" backside measurement
Second splice from left = 50" backside measurement

See size considerations for cornice and valance manufacturing formulas to determine exact back width size your cornice or valance will be prior to selecting splice locations.

For keystone pricing, see pricing pages.

NOTE: All measurements need to be from backside.

Custom Color

Signature Series offers the unique option of custom color in either paint or stain. Use the following guidelines when placing your order.

With your order, please send a color chip (at least a 2" square sample) with the color name on the sample. A sample of the color can be requested before blinds are manufactured for your approval. An approval color sample will be automatically sent on orders for six or more blinds. A customer may waive their sample if they do not wish to receive one. Samples usually add approximately two (2) weeks to the lead time of an order. If a color sample is not requested, the sample you provided will be used to manufacture the wood blinds. If the color chip is to be returned to you, please note this on your order.

Please send all color chips to:

Springs Window Fashions, LLC
ATTN: Budget Blinds Custom Color
8467 Rt. 405 South | PO Box 500
Montgomery, PA 17752

NOTE: Due to the nature of the custom color process, manufacturing requires an extended lead time. The four-day manufacturing process does not apply. Lead-times vary depending on sizes and quantities ordered.

General Information

Mounting Brackets

Universal Cornice Mounting Bracket

- L-brackets
- Standard when ordered with
 - Any inside mount cornice
 - Outside mount cornice with returns greater than 1 $\frac{3}{4}$ "

L-Bracket

Short Return Cornice Mounting Bracket

- Bracket and hanger
- Standard when ordered with
 - Outside mount cornice with return width $\frac{1}{2}$ " to 1 $\frac{3}{4}$ "

Hanger

Bracket

Universal Valance Mounting Bracket

- Standard when ordered for any of the following products
 - Cellular, pleated, soft, iD fabric Roman, classic Roman, solar, and roller shades
 - Cellular shade vertical application
 - Dual shades
 - Sliding panels
 - Sheer vertical blinds
 - Vertical blinds
 - Woven wood shades or drapes
 - Other or alone

Valance Slide

Horizontal Valance Mounting Bracket

- Clip and slide brackets
- Projection width depends on slat size and control type selected
- Standard when ordered for any of the following products
 - 2" aluminum horizontal blinds
 - 2" and 2 $\frac{1}{2}$ " faux wood blinds
 - 2" vinyl horizontal blinds
 - 1", 2", and 2 $\frac{3}{8}$ " wood blinds

Valance Slide

Short Valance Clip
(Available with 1", 2" cord tilt, or motorized tilt)

Long Valance Clip
(Available with wand tilt or slat sizes greater than 2")

General Information

Warranty

BUDGET BLINDS EXCLUSIVE FIVE-YEAR “NO QUESTIONS ASKED” LIMITED WARRANTY AND LIMITED LIFETIME WARRANTY PROGRAM

This limited warranty program is available to consumers who purchase Signature Series by Budget Blinds products, other than Shutters and Exterior Solar shades, through participating Budget Blinds retail franchises after November 14, 2005.

FIVE-YEAR “NO QUESTIONS ASKED” LIMITED WARRANTY

OUR OBLIGATION TO YOU:

If, FOR ANY REASON, within five years from the date of purchase, your product should be damaged or become inoperable after the point of installation, the manufacturer will provide a “no questions asked,” ONE-TIME repair or replacement (at our discretion), free of charge. If your product is replaced, the replacement will be of the same product in the same size and color. If color is no longer available, replacement will be of closest equivalent color. This warranty is provided to the original purchaser only and for the original window opening only. Applies only to products made or assembled exclusively from the manufacturer’s materials and components.

LIMITED LIFETIME WARRANTY

OUR OBLIGATION TO YOU:

The manufacturer warrants your Signature Series product by Budget Blinds will be free from original defects in materials or workmanship for as long as the original purchaser owns the product. Under the Limited Lifetime Warranty, the obligations of the manufacturer are limited to the repair or replacement of parts or product found to be defective. The manufacturer is not responsible for shipping costs or labor costs for measuring and taking the shade down or reinstalling the product. If repairs are made under this warranty, the repairs will be made with like or similar parts.

Motorization components and accessories have a five-year limited warranty, excluding batteries.

This warranty does not cover materials or components not sourced by the manufacturer, or conditions or damages caused by accidents, alterations, misuse or failure to follow instructions for measurement, installation, cleaning

or maintenance. In addition, normal wear and tear are not covered by the Limited Lifetime Warranty.

All materials can lose original color intensity or discolor after long exposure to the sun. When left for extended periods in direct sunlight, some materials may yellow or crack. Some materials may warp in high humidity areas. All cords will eventually wear out. The manufacturer considers these normal wear and tear not covered by this warranty.

TO RECEIVE WARRANTY SERVICE, PLEASE:

1. Contact our Customer Service department at 1-877-675-0089 and advise them of the nature of the issue. Customer Service will provide you with information as to how to proceed.
2. Please remember, product returned for warranty claims must be accompanied by the original sales receipt, as well as written details regarding the nature of the problem, location of the product, etc.
3. If your product is returned, please retain a copy of the shipping information for your records.

THIS LIMITED WARRANTY DOES NOT COVER, AND IS INTENDED TO EXCLUDE, ANY AND ALL LIABILITY ON THE PART OF THE MANUFACTURER, WHETHER UNDER THIS LIMITED WARRANTY OR UNDER ANY WARRANTY IMPLIED BY LAW FOR ANY INDIRECT OR CONSEQUENTIAL DAMAGES FOR BREACH HEREOF OR THEREOF, EXCEPT AS EXPRESSLY PROVIDED ABOVE. THE COMPANY HEREBY DISCLAIMS ALL WARRANTIES, EXPRESS OR IMPLIED, TO THE EXTENT PERMITTED UNDER APPLICABLE LAW. ANY IMPLIED WARRANTIES THAT CANNOT BE DISCLAIMED ARE LIMITED IN DURATION TO FIVE YEARS TO THE EXTENT PERMITTED UNDER APPLICABLE LAW.

NOTE: Some states do not allow the exclusion or limitation of incidental or consequential damages, so the foregoing limitation or exclusion regarding such damages may not apply to you. Also, this Limited Warranty gives specific legal rights, and you may also have other rights which vary from state to state. No person is authorized to extend or alter this warranty.
