Wood Trends™

2024 Price Guide

EXCEPTIONALLY CRAFTED

WOOD TRENDS:
A LESSON IN CLASSIC COMPOSURE

Real wood pieces stained or painted in an array of finishes.

Classic forms add a subtle touch of elegance and tradition.

Expertly crafted styles for an updated look on old classics.

We built a solid foundation that is full of classic forms and a strong heritage of quality to bring you our Wood Trends Collection. We brought tradition and character together to create a refined blend of everything you've been dreaming of. Get into your comfort zone with our Wood Trends Collection.

Teflon tape is used on stationary poles to help rings slide smoothly across the pole.

AMP™ Motorization

Why AMP™?

The slim design of the quiet, yet powerful motor and the position on the track allows the motor to tuck seamlessly behind your drapery panel so you'll never have to sacrifice your style or comfort. For safety measures, you're able to move the draperies with a gentle tug, allowing for operation when a remote is not present or if a guest is unaware of the motorization feature. The dual battery and AC power sources allows operation in case of a power outage so draperies may be opened in the event of an emergency. AMP™ Motorization is available on our most popular traversing tracks, Estate and Architrac® Series 94001 and in drapery header styles Ripplefold™ and pleated for a variety of styling options. This is comfortable living at its finest.

For AMP™ Motorization brochure, programming instructions and installation instructions, please visit the drapery hardware resource library at kirsch.com.

Benefits & Features

AMP™ Motorization

- Motor mounts to the back of the track which allows a seamless look between motorized and manual traverse rods
- Drapery fabrication does not need to change between manually controlled draperies and motorized draperies; No additional returns or any special instructions
- Limits are set automatically after installation
- Remote control is radio frequency and easily pairs with the motor
- Tug feature; when drapery is pulled the motor will traverse the drapery
- AMP™ App with AMP™ USB Bridge
- Architrac® Series 94001 Rods with AMP™ cannot be bent or curved

Frequently Asked Questions

What is the weight capacity?

64 lbs Motor is rated to 64 lbs. Be sure not to exceed the Estate or Architrac track specifications to ensure your motor operates optimally.

Can you double the weight capacity by using two motors?

No Only use one motor per rod.

Does AMP™ offer limit setting?

Yes The motor automatically sets its limits.

Does AMP™ offer touch control?

Yes The tug feature allows you to pull on the drapery and the motor will automatically open or close your draperies.

How long is the power cord?

6 ft The durable, non-extendable power cord is extra long for out of reach places. Any extra can be rolled and secured for a tidy look. Cable extensions are available in 15", 4', 10' and 20' lengths to reach outlets that are farther away from the motor.

Is there a wall switch?

Yes There are Flush Mount and Surface Mount Wall Switches available.

Does AMP™ offer a warranty?

Yes See the Kirsch Warranty document for more information.

Operating Systems

Motorized Draw

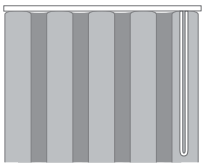

AMP™ Motorization

- Easy to use
- Quiet, powerful motor
- Pleated or Ripplefold™
- For Estate™ Traverse Rods or Architrac® Series 94001
- For more information, see page 46

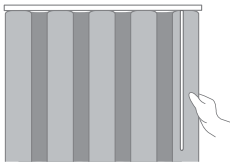

Manual Draw

Cord Draw

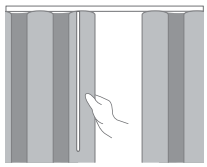

- Easy to use
- Pleated or Ripplefold™

Hand/Baton Draw

- Easy to use
- A gentle tug allows drapery to glide across track
- Pleated or Ripplefold™

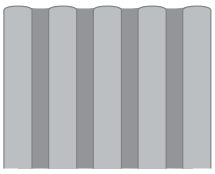

Baton Duplex Draw

- Easy to use
- Used on split draw rods
- Pleated or Ripplefold™
- When the baton is pulled on one stack, draperies on both sides of the traverse rod open or close

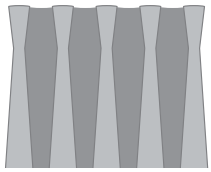

Header Styles

Ripplefold™

- Panels can be pressed flat, yet fall into fold
- No hooks or pins
- Headings are suspended under track
- Stack back is less than conventional pleated draperies
- Draperies snap on/off carriers for easy installation
- Interior drapery appearance is identical to exterior-facing appearance

Pleated

- A classic header option
- Can be used with most track systems using slip-in or pin-on hooks
- Headings can be suspended under the track or over the face of the track to conceal hardware
- Four carriers per foot is standard, additional carriers or rings can be ordered

Bracket Spacing & Mount Options

Place brackets at each end. On the ends where the drapery will stack, place the next bracket at a maximum of 24" from the first bracket, then place remaining brackets at 48" intervals over the remainder of the track. Spacing may need to be shortened for heavier draperies. All mounting options are compatible with our AMP™ Motorization.

Wall Mount using parts:

To achieve this look, order Estate rod, wall mount and all components will be included.

1⅜" Wall Mount

2" Wall Mount

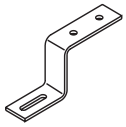

Ceiling Mount using parts:

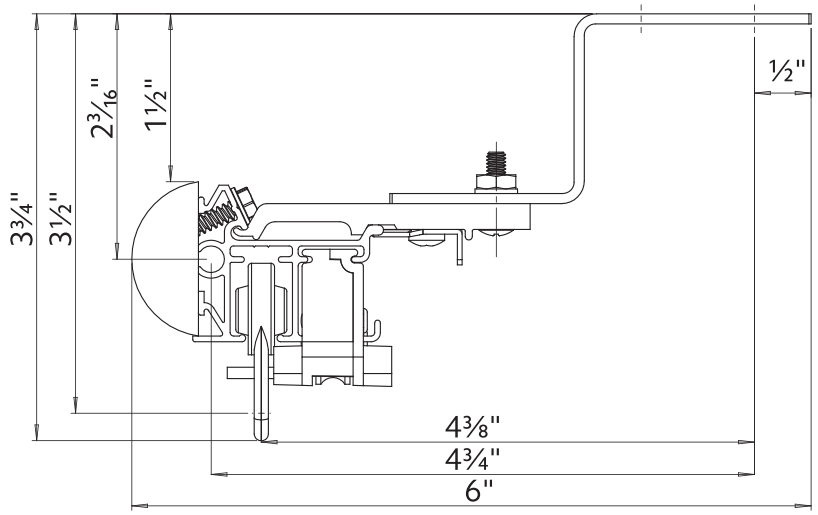

To achieve this look, order Estate rod, ceiling mounted. 94130xxx brackets are included with the rod. Then order item 1796061 ceiling mount bracket in the quantity needed based on the bracket spacing drawing on page 40.

94130xxx & **1796061**

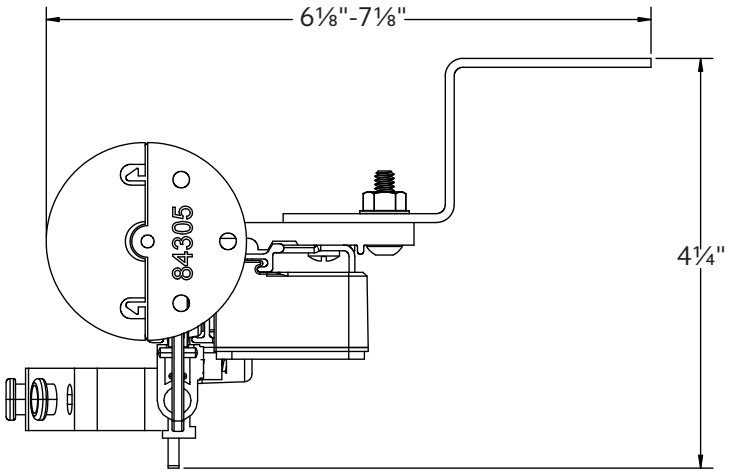

1⅜" Ceiling Mount

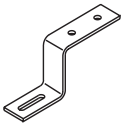

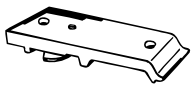

2" Ceiling Mount

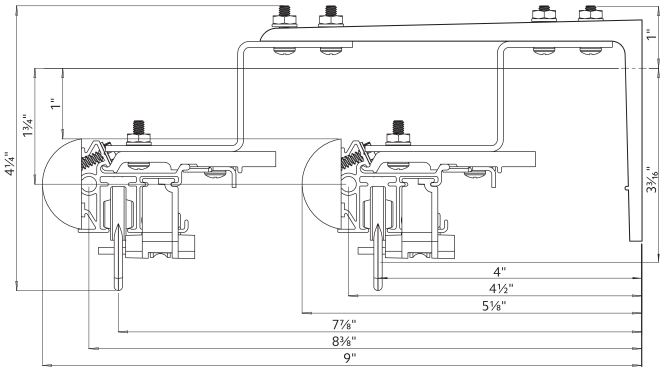

Double Wall Mount using parts:

To achieve this look, order Estate rod, ceiling mounted. 94130xxx brackets are included with the rod. Then order one, item 94125xxx double bracket and two, item 1796061 ceiling mount brackets multiplied by the quantity needed based on the bracket spacing drawing on page 40.

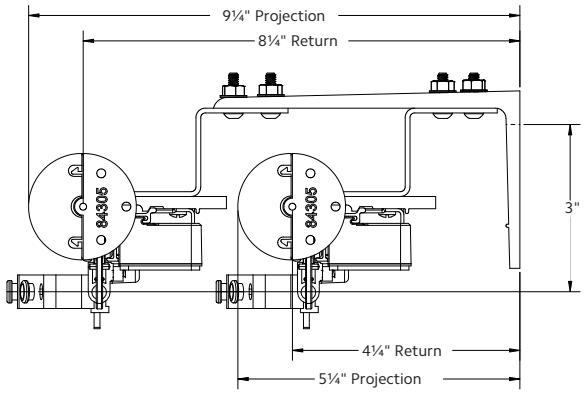

94125xxx & 1796061 & 94130xxx

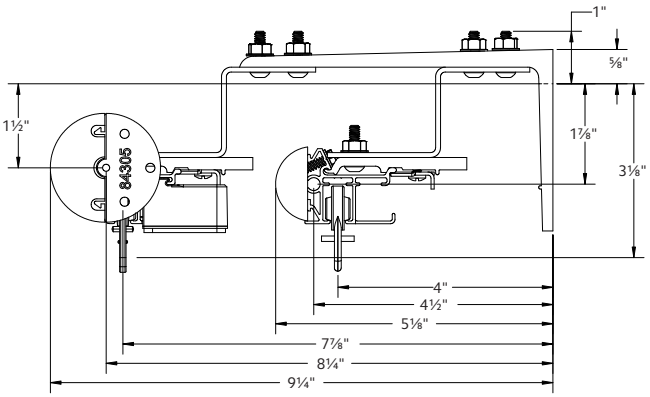

1⅜" Double Wall Mount

2" Double Wall Mount

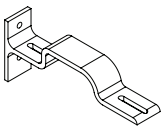

2" Front & 1⅜" Back Double Wall Mount

Double Wall Mount using parts:

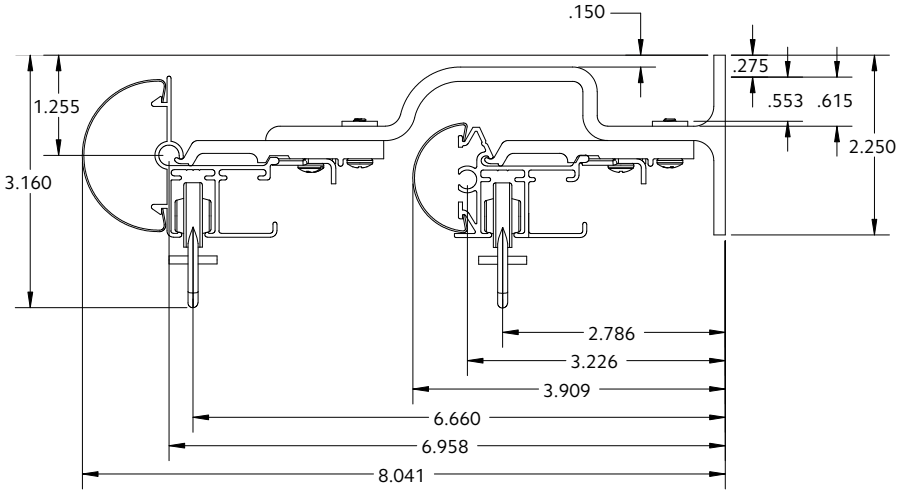

To achieve this look, order Estate rod ceiling mounted. 94130xxx brackets are included with the rod. Then order one, item 71134110 double bracket in the quantity needed based on the bracket spacing drawing on page 40.

71134110 & 94130xxx

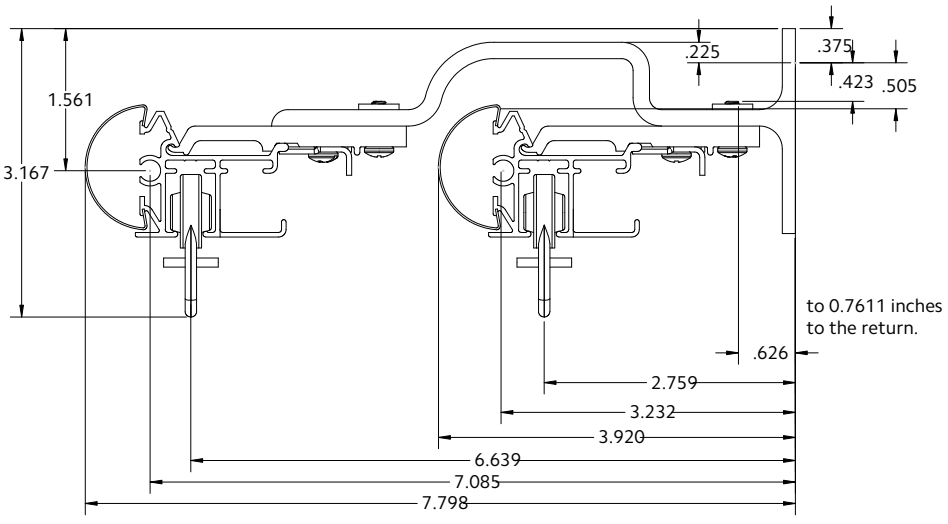

2" Front & 1⅜" Back Double Wall Mount

1⅜" Front & 1⅜" Back Double Wall Mount

Calculating Drapery Weight

1. Fabric Weight

Some fabric samples list on the back of the swatch the weight listed in Ounces/SqYd (ounces per square yard). Call the manufacturer for the weight if not listed.

2. Lining Weight

Most drapery linings are 2oz - 4oz per square yard.

Drapery Weight Formula

Total Square Yards	= (total yards x 36 x fabric width) ÷ 1296 (1-square yard)
Weight	= total square yards x weight in ounces per SqYd) ÷ 16 oz in lb
Example	32 yards of 54" wide fabric weighing 14 oz/SqYd Total square yards = (32 x 36 x 54) = 62,208 ÷ 1296 = 48 SqYds Weight = (48 x 14oz) = 672 ÷ 16 = 42 lbs

Lining Weight Formula

Total Square Yards	= (total yards x 36 x fabric width) ÷ 1296 (1-square yard)
Weight	= total square yards x weight in ounces per SqYd) ÷ 16 oz in lb
Example	32 yards of 54" wide fabric weighing 6 oz/SqYd Total square yards = (32 x 36 x 54) = 62,208 ÷ 1296 = 48 SqYds Weight = (48 x 4oz) = 192 ÷ 16 = 12 lbs

Fabrics by Weight

Contact the fabric manufacturer for your specific fabric weight.

Fabric Type	Weight per Square Yard
Drapery Lining	2-4oz
Interlining	5-6oz
Blackout Lining	6-10oz
Bump Lining	12-14oz
Silks	2-4oz
Chintz	2-4oz
Printed Cottons	4-6oz
Linens	6-10oz
Jacquards	10-14oz
Velvets	14-18oz

Pole Installation, Cutting & Splicing

Top Hole Installation Guide

This chart will position the bracket so the drapery will clear the floor approximately ½".

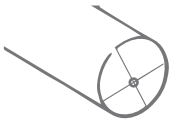

1. Find your pole style, size and header style in the chart.
2. Determine the desired finished drapery length.
3. Add or subtract number in the top hole column from the drapery's finished length to determine how high to measure for the top hole of the bracket.

Stationary Poles	Rod Pocket (no top ruffle)	Pleated (any variety)	
	Top Hole	Top Hole	Pin Set
1⅜" Standard Bracket	-1 13/16"	+1 9/16"	¼"
1⅜" Decorative Bracket	-1¼"	+2⅛"	¼"
2" Standard Bracket	-2 3/16"	+2⅜"	¼"

Wall Mount Traverse Rods	Pleated (any variety)			Ripplefold™ (any fullness)	
	Top Hole for Wall Mount	Floor to Ceiling Deduction	Suggested Pin Set	Top Hole for Wall Mount	Floor to Ceiling Deduction
1⅜" Estate™	+1 11/16"	-2⅛"	½"	+1 11/16"	-2⅛"
2" Estate™	+1 11/16"	-2 13/16"	½"	+1 11/16"	-2 13/16"
Ceiling Mount Traverse Rods					
1⅜" Estate™	+0"	-3⅝"	½"	+0"	-3⅝"
2" Estate™	+0"	-3⅝"	½"	+0"	-3⅝"

Cutting & Splicing Wood Trends™ Poles

- Measure to desired length and carefully wrap area with an easy peel, blue painter's tape as not to damage the finish.
- Cut through the tape with sharp fine tooth saw. Cut slowly to reduce any chipping to the product finish.
- Drill a new finial pilot hole. Find rod center easily by drawing an X across the diameter of the pole using a ⅛" drill bit.
- Splice with pole connector. Always support the splice with a bracket.

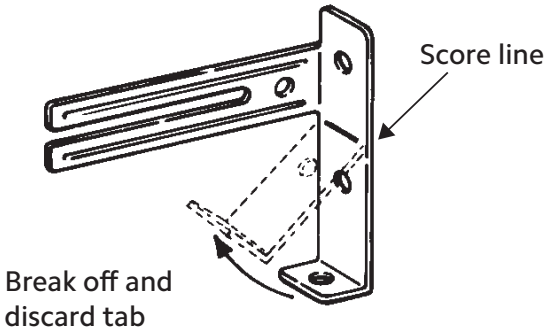

Find rod center by marking X across diameter of pole.

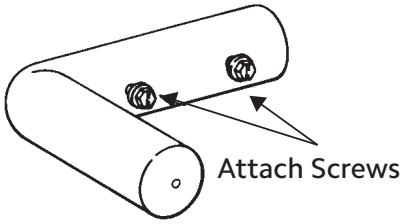

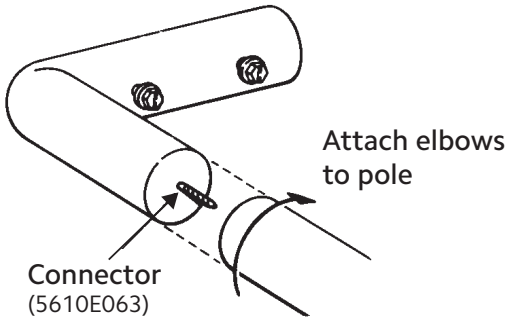

Pole Connector #5610E061
