## Features

Cornices and Valances easily lend an impressive touch to windows and doors.

Used on their own or over window treatments, Cornices and Valances are as decorative as they are functional.

- Dress up a drab window
- Enlarge a window
- Conceal headrails or hardware
- Hide imperfections
- Unique characteristics of premium hardwood ensure one-of-a-kind Cornices and Valances
- Custom color option is available for Regal and Noble Cornices
- Decorative keystones add strength and dimension to Regal and Noble Cornices

### WOOD CHARACTERISTICS

Flat Grain

Grain Change

Tiger Striping

Burl/Bird's Eye

Pin Knots

Mineral Marks

Wood used to manufacture Graber wood valances and cornices has many natural characteristics which make it truly unique. The following are all natural characteristics of wood, and we do not consider them to be defects:

#### Grain

The direction, size and appearance of wood fibers vary greatly depending on where the wood is cut from within the tree.

#### Burl

Formed from an irregular growth on the outer edge of the tree.

#### Bird's Eye

Small area on the surface of the board where fibers are contorted to form circular figures that resemble birds' eyes.

#### Pin Knots

Vary in size, shape, structure and color.

#### Mineral Marks

Dark or discolored areas caused by minerals which the tree extracts from the water or soil. Can be either a streak or a stain, usually blackish blue.

Please be assured that these markings in no way affect the durability or the structural integrity of the product.

Natural variations in color and grain are inherent in the beauty of wood. These variations are within established industry guidelines and should be expected. When two or more pieces of wood are spliced together to create wider valances or cornices, there may be variations in the dye lot and grain between the sections. In addition, valances and cornices may stain slightly darker or lighter than the samples shown in the sample books and selectors.

# Size Considerations

## CORNICE AND VALANCE SIZE CONSIDERATIONS

Cornices and valances wider than the widths shown in the column "Maximum Width Without Splicing" will be manufactured in multiple sections. The sections must be assembled during installation. Symphony Cornice cannot be spliced.

Type of Valance or Cornice	Minimum Width		Maximum Width Without Splicing		Maximum Width With Splicing or Keystones	
	Inside Mount	Outside Mount	Inside Mount without returns	Outside Mount	Inside Mount*	Outside Mount
4" Classic Wood Valance	8 $\frac{1}{4}$ "	8"	94"	93 $\frac{3}{16}$ "	193"	193"

7 $\frac{1}{2}$ " Regal Wood Cornice			94"	90 $\frac{1}{16}$ "		

See backside measurements chart below for calculations based on product selected.

**NOTE:** Inside mount cornices with a keystone do not mount flush at the top, there will be a slight gap.

### Valances

- Outside mount standard with returns
- Inside mount standard without returns

These formulas are used to calculate **BACKSIDE** Valance measurements.

# General Information

## HOW TO MEASURE AND ORDER CORNICES AND VALANCES

### TOP VIEW: VALANCE

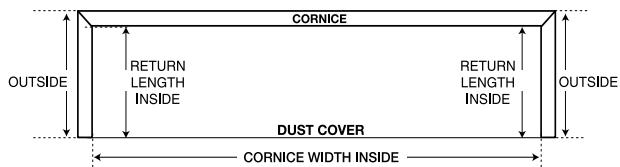

### SIDE VIEW: VALANCE

1. Full recess is from front of valance to wall.
2. Return length is from miter to wall.
3. Partial recess: subtract actual window recess from return length to arrive at exact return length.

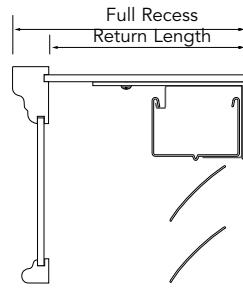

**NOTE:** Valances and cornices with returns are measured and cut from the **INSIDE** of the miter to ensure the most accurate fit when installed over the headrail or window frame.

### TOP VIEW: CORNICE

### SIDE VIEW: CORNICE

1. Full recess is from front of cornice to wall.
2. Return length is from miter to wall.

## CUSTOM COLOR

Graber offers the unique option of custom color either paint or stain for Regal, Noble or Symphony. Use the following guidelines when placing your order:

1. Complete the Custom Color Match request form. Forms can be found on [SWFconnect.com](http://SWFconnect.com) or [graberdirect.com](http://graberdirect.com).
2. Supply Springs Window Fashions with a color sample labeled with the color name and purchase order number. The sample needs to be at least 2" x 2". For best results, submit a 3" x 3" color sample.
3. Send the order, along with the request form and color sample to:

Spring's Window Fashions  
ATTN: Graber Custom Color  
33 West 3rd Street, Suite 400  
Williamsport, PA 17701

Wood cornices and valances are optional with your custom order or as a stand alone order.

**OUTSIDE MOUNT** cornices and valances are supplied with returns sized to cover the end of the blind back to the mounting surface. Custom returns may be ordered up to 8".

Minimum return length is  $\frac{1}{2}$ ".

Maximum return length is 8".

**OUTSIDE MOUNT** cornices include a dust cover to conceal the top of the blind.

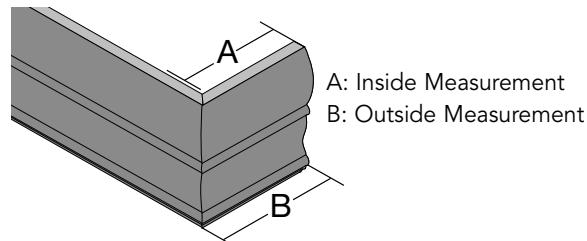

For blinds ordered as an **INSIDE MOUNT**, valances and cornices are supplied without returns and look best when the blind and valance or cornice can be completely recessed. Ends of the valance and cornice are straight cut. Returns ARE available for valance on inside mount blinds that are not completely recessed (must be requested at time of order).

**INSIDE MOUNT** cornices do NOT have a dust cover and returns are NOT available.

Additional ordering information:

- Please state at the time of order if the valance or cornice return measurements are for the **EXACT** size required so that no additions or deductions are made
- Valance and cornices will be shipped separate from blind or shade orders
- Manufacturer recommends installing blind or shade and valance/cornice at the same time

**NOTE: If mounting over a horizontal product, the blind must be installed first as you will not be able to open the doors on the end brackets to insert the blind.**

4. Approval of the custom color sample is required on orders of six or more cornices. A sample of the custom color will be sent upon request for orders of less than six cornices. If a custom color sample is not requested, the sample provided will be used to manufacture the wood cornices. If the color sample is to be returned, please note this on your order.
5. Custom color samples will be sent for approval approximately two weeks after receiving the original color sample.
6. Once approval is received, fabrication of the custom color cornices will begin.
