Features

Cornices and Valances easily lend an impressive touch to windows and doors. Used on their own or over window treatments, Cornices and Valances are as decorative as they are functional.

Palladian Window Shelves create a mounting surface for unique or difficult installations.

- Unique styles of Wood Cornices, Wood Valances and Faux Wood Valances provide the perfect solution for any décor
- Wood Cornices and Valances are crafted from premium North American hardwood and are available in all paints and stains to coordinate with Graber® Wood blinds, as well as unfinished or with custom color
- Dress up a drab window
- Enlarge a window
- Keystones are included with a spliced Cornice or Wood Valance
- Additional keystones are available as a surcharge option for Cornices or Wood Valances that do not require splices

WOOD CHARACTERISTICS

Flat Grain

Grain Change

Tiger Striping

Burl/Bird's Eye

Pin Knots

Mineral Marks

Wood used to manufacture Graber wood valances and cornices has many natural characteristics which make it truly unique. The following are all natural characteristics of wood, and we do not consider them to be defects:

Grain	The direction, size and appearance of wood fibers vary greatly depending on where the wood is cut from within the tree.
Burl	Formed from an irregular growth on the outer edge of the tree.
Bird's Eye	Small area on the surface of the board where fibers are contorted to form circular figures that resemble birds' eyes.
Pin Knots	Vary in size, shape, structure and color.
Mineral Marks	Dark or discolored areas caused by minerals which the tree extracts from the water or soil. Can be either a streak or a stain, usually blackish blue.

Please be assured that these markings in no way affect the durability or the structural integrity of the product.

Natural variations in color and grain are inherent in the beauty of wood. These variations are within established industry guidelines and should be expected. When two or more pieces of wood are spliced together to create wider valances or cornices, there may be variations in the dye lot and grain between the sections. In addition, valances and cornices may stain slightly darker or lighter than the samples shown in the sample books and selectors.

Size Considerations

SIZE CONSIDERATIONS: CORNICE AND VALANCE

Type of Valance or Cornice	Minimum Width		Maximum Width Without Splicing		Maximum Width With Splicing	
	Inside Mount	Outside Mount	Inside Mount NO Returns	Outside Mount or Inside Mount with Returns	Inside Mount	Outside Mount
3" (7.7 cm) Classic Wood Valance	8 1/4" (21.0 cm)	8" (20.4 cm)	100 1/4" (254.7 cm)	98 3/8" (249.9 cm)	300" (762 cm)	298 7/8" (759.2 cm)
3 1/8" (8.0 cm) Beaded Wood Valance						
3 1/2" (8.9 cm) Legacy Wood Valance						
4 1/2" (11.5 cm) Symphony Wood Valance						
2 1/2" (6.4 cm) Classic Composite or Faux Wood Valance ⁺						
3" (7.7 cm) Majestic Composite or Faux Wood Valance ⁺			106 5/8" (270.9 cm)	105 3/8" (267.7 cm)	300" (762.0 cm)	298 3/4" (758.9 cm)
4 1/2" (11.5 cm) Symphony Wood Cornice*	8 1/4" (21.0 cm)	8" (20.4 cm)	94" (238.8 cm)	92 1/2" (235.0 cm)	94" (238.8 cm)	92 1/2" (235.0 cm)
5 1/2" (14.0 cm) Noble Wood Cornice ^				92 1/8" (234.0 cm)		
7 1/2" (19.1 cm) Noble Wood Cornice ^				91 3/8" (232.1 cm)	366" (929.7 cm)	366" (929.7 cm)
5 1/2" (14.0 cm) Regal Wood Cornice ^				91 1/8" (231.5 cm)		
7 1/2" (19.1 cm) Regal Wood Cornice ^				90" (228.6 cm)		

Note: Cornices and Valances wider than the widths shown in the chart above will be manufactured in multiple sections. The sections must be assembled during installation.

Customer may request specific locations for the splices as long as it does not exceed our maximum single piece size.

All requests for additional Cornice or Wood Valance splices require a keystone.

The keystone surcharge applies to each additional splice.

*4 1/2" (11.5 cm) Symphony Cornices cannot be spliced and keystones are not available.

^Inside mount Wood Cornices that require a keystone cannot be mounted flush to the top of the window casing. There will be approximately a 1/4" (0.7 cm) gap at the top and the installation brackets may be visible with this application.

+Keystones are not available with Composite and Faux Wood Valances.

These formulas are used to calculate **BACKSIDE** Valance measurements.

Inside Mount with NO Returns	Ordered Width - 1/16" (0.2 cm)
Inside Mount with Returns	Ordered Width + 3/4" (2.0 cm)
Outside Mount with NO Returns	Ordered Width + 1/2" (1.3 cm)
Outside Mount with Returns	Ordered Width + 3/4" (2.0 cm)

These formulas are used to calculate **BACKSIDE** Cornice measurements.

All except Soft Vertical and Sliding Panels	
Inside Mount with NO Returns	Ordered Width - 1/16" (0.2 cm)
Outside Mount with Returns	Ordered Width + 3/4" (2.0 cm)
Soft Vertical and Sliding Panels	
Inside Mount with NO Returns	Ordered Width - 1/16" (0.2 cm)
Outside Mount with Returns	Ordered Width + 1/2" (1.3 cm)

If the product option of OTHER is selected during entry, the BACKSIDE cornice/valance measurement will be the exact width entered. There will be no additions or deductions taken. Cornice or valance return size must be specified.

SIZE CONSIDERATIONS: PALLADIAN WINDOW SHELF

	Minimum Width Inside Mount only	Maximum Width Inside Mount only	Minimum Depth	Maximum Depth
Palladian Window Shelf	7" (17.8 cm)	96" (243.9 cm)	2" (5.1 cm)	4" (10.2 cm)

Note: Inside mount application only. The finished shelf will be ordered width less 1/16" (0.2 cm).

The shelf is designed for end mounting, no center supports are available.

End mounting brackets must be mounted to a flat vertical surface.

If installation is inside an arch, the top of the palladian shelf must be mounted at or below the start of the arch curve.

Depending on the width of the window opening and the weight of the blind or shade, deflection up to 1/2" (1.3 cm) may occur.

Options

WOOD CORNICES

- Crafted from premium North American hardwood
- Fine furniture-quality finish
- L-brackets are included for easy installation
- Noble and Regal cornices available in all paints and stains to coordinate with Traditions® Wood blinds, as well as unfinished or with custom color

- One side return available; opposite end will be straight cut
- Outside mount has mitered corners, returns and a dust cover to conceal the top of the blind
- Inside mount has straight cut ends, no returns, no dust cover
- **Cornices not available on Bay or Corner windows**

NOTE: Wood cornice will be shipped separate from blinds. Manufacturer recommends installing blind and cornice at the same time.

Regal Wood – Outside Mount

Regal Wood – Inside Mount

Regal Wood Cornice

The magnificent Regal Wood Cornice, available in either a 5½" (14.0 cm) or 7½" (19.1 cm) size and in stained or painted finishes, crowns your blind with style and sophistication.

Noble Wood Cornice

The stately design of the Noble Wood Cornice, available in either a 5½" (14.0 cm) or 7½" (19.1 cm) size and in stained or painted finishes, lends an impressive appearance to larger, wider windows.

Outside Mount

- Wood Cornices and Valances requiring a splice will include a keystone (see chart above for details)
- Keystones are not available on Composite or Faux Wood Valances
- Keystones will be equally spaced unless special splice locations are requested
- Optional keystones can be ordered with single piece cornices or valances or in addition to required keystones
- Minimum width with a keystone is 12" (30.5 cm)
- Maximum number of keystones is 3

Inside Mount

- Wood Valances 100¼" (254.7 cm) or wider and Cornices 94" (238.8 cm) exact or wider will require a keystone
- Keystones are not available on Composite or Faux Wood Valances
- Keystones will be equally spaced unless special splice locations are requested
- Optional keystones can be ordered with single piece cornices or valances or in addition to required keystones
- Minimum width with a keystone 12" (30.5 cm)
- Maximum number of keystones is 3

*NOTE: Inside mount cornices with a keystone do not mount flush at the top, there will be a slight gap.

Options

PALLADIAN WINDOW SHELF

A wood shelf or header that may be installed in applications lacking window frame for mounting a blind. Blinds or other window treatments may be installed either above or below the shelf.

Features

- Created from premium North American hardwood
- Use with any Graber® blind or shade
- Ideal for arch top windows
- Use as a divider for long windows
- Easy mount brackets included
- Available in all paints and stains to coordinate with Graber wood blinds, as well as unfinished or with custom color

Note: Minimum return length is ½" (1.3 cm); maximum return length is 8" (20.4 cm).

Valance returns ½" - 1" (1.3 cm - 2.5 cm) will be glued, 1⅞" - 4⅞" (2.7 cm - 11.8 cm) optional glued, 4⅞" (12.0 cm) and greater cannot be glued.

Cornices are not available on bay or corner windows. Valances only available on bay or corner windows if bay or corner application is available on entire product line selected. See Pricing and Information Guide of product selected for measuring instructions.

If the valance or cornice is to be used alone (no product selected), the return length must be specified at the time of the order.

*Not recommended due to the height of the shade.

Dual Shades can be configured with 7½" (19.1 cm) Cornices. 5½" (14.0 cm) Cornices are available only when Dual Shade has no cassette with inside mount and Cornices are outside mount.

HOW TO MEASURE FOR VALANCE RETURNS

Window depths vary considerably depending on the age and style of the window. **Always** measure the window depth, regardless of the type of window treatment the client is considering. Knowing the depth when the order is placed can help prevent costly errors.

Use the information in your Graber Pricing and Information Guide for Wood, Composite & Faux Wood to calculate the needed return length (chart above).

To calculate the return length, use this formula:

- (Standard Return Length) minus (Client Window Depth) = Special Return Length to order for Inside Mount Blind

Remember: The smallest return width is ½" (1.3 cm).

The length of a return and the width of a valance are measured on the inside (back side–A) of the valance, not the outside (face–B) of the valance (see diagram at right).

A: Inside Measurement
B: Outside Measurement

General Information

HOW TO MEASURE AND ORDER CORNICES AND VALANCES

Wood Cornices and Valances are optional with your custom order or as a stand-alone order.

NOTE: Cornices and Valances with returns are measured and cut from the **INSIDE** of the miter to ensure the most accurate fit when installed over the headrail or window frame.

Outside Mount

- Cornices and Valances are supplied with returns sized to cover the end of the blinds back to the mounting surface
- Custom returns may be ordered up to 8" (20.4 cm)
- Minimum valance return length is ½" (1.3 cm)
- Cornices include a dust cover to conceal the top of the blind

Inside Mount:

- Cornices and Valances are supplied without returns and look best when the blinds and Valance or Cornice can be completely recessed
- Ends of the Valance and Cornice are straight-cut
- Cornices do NOT have a dust cover and returns are NOT available

Additional ordering information:

- Please state at the time of order if the valance or cornice return measurements are for the **EXACT** size required so that no additions or deductions are made
- **Cornices and valances will be shipped separately from blind**
- **Manufacturer recommends installing blind and valance/cornice at the same time**

NOTE: Valances and cornices with returns are measured and cut from the **INSIDE** of the miter to ensure the most accurate fit when installed over the headrail or window frame. For different return lengths on the same valance, record **LEFT** inside measurement first. Single side returns are available; opposite end will be straight cut.

Side view — Cornice

1. Full recess is from front of cornice to wall.
2. Return length is from miter to wall.

Side view — Valance

1. Full recess is from front of valance to wall.
2. Return length is from miter to wall.
3. Partial recess — subtract actual window recess from return length to arrive at exact return length.

General Information

HOW TO MEASURE A SPECIAL SPLICE LOCATION

A keystone is supplied for valance widths that require a splice. Keystone will be equally spaced unless a special splice location is requested at time of order. The placement of the splice will be calculated by the factory using an **INSIDE** measurement from the mitered corner to the location specified on the order.

Each splice location should be recorded starting from the **LEFT BACKSIDE** corner.

Example: Overall valance width = 80" (203.2 cm) backside measurement
First splice from left = 30" (76.2 cm) backside measurement
Second splice from left = 50" (127.0 cm) backside measurement

For keystone pricing, see pricing pages.

NOTE: All measurements need to be from backside.

CUSTOM COLOR

Graber offers the unique option of custom color in either paint or stain. Use the following guidelines when placing your order.

With your order, please send a color chip (at least a 2" (5.1 cm) square sample) with the color name on the sample. A sample of the color can be requested before blinds are manufactured for your approval. An approval color sample will be automatically sent on orders for six or more blinds. A customer may waive their sample if they do not wish to receive one. Samples usually add approximately two (2) weeks to the lead time of an order. If a color sample is not requested, the sample you provided will be used to manufacture the wood blinds. If the color chip is to be returned to you, please note this on your order.

Please send all color chips to:
