# Shade Features

Graber® Roller and Solar Shades offer a variety of light control choices and options to maintain your view to the outside. Roller Shades complement any decorating style, plus coordinate with other Graber products. Solar Shades minimize glare, block harmful UV rays and help to control the room's temperature.

- Roller fabrics offer a variety of colors, textures and opacity levels
- Solar fabrics offer excellent outward visibility, glare control and temperature reduction in a variety of solid colors and beautiful jacquard weaves
- Solar openness ranges from 1-25%; openness determines clarity of view/UV blockage

FEATURES	BENEFITS
<b>Continuous-loop Lift System</b>	<ul style="list-style-type: none"> <li>• Beaded chain and clutch system makes raising and lowering shade easy</li> <li>• Three clutch sizes depending on shade size</li> <li>• Beaded chain remains at same length, regardless of shade position</li> <li>• Choose from five colors or stainless steel</li> <li>• Safety chain guide included to prevent chain from becoming a strangulation hazard</li> <li>• Choose left or right chain location</li> <li>• Optional square-corner valance with fabric insert, cassette valance with fabric insert, fascia, wood cornice or fabric-wrapped cornice</li> </ul>
<b>Cordless Lift System</b>	<ul style="list-style-type: none"> <li>• Sleek look with no chains, perfect safety solution for homes with children or pets</li> <li>• Shade raises and lowers smoothly and easily due to a unique dual speed braking system</li> <li>• Tension can be manually adjusted so shade always raises at desired speed</li> <li>• Color-coordinated tassels facilitate easy operation and keep fabrics clean (wood tassels in Natural, Walnut and Golden Oak are optional)</li> <li>• Optional clear hem grip available (not available with scallop option)</li> <li>• Optional Square-corner Valance with fabric insert, cassette valance with fabric insert, wood cornice or Fabric-wrapped Cornice</li> </ul>
<b>Smart Pull Lift System</b>	<ul style="list-style-type: none"> <li>• Convenient easy glide lift system with a single color-coordinated cord</li> <li>• Shade is lowered automatically with a single pull of the cord</li> <li>• Shade is raised to the desired placement with simple pulls of the cord</li> <li>• Optional Square-corner Valance with fabric insert, cassette valance with fabric insert, wood cornice or Fabric-wrapped Cornice</li> </ul>
<b>Dual Shade</b>	<ul style="list-style-type: none"> <li>• Two shades are combined onto one bracket for complete privacy and light control</li> <li>• Each shade may be configured with roller or solar fabrics</li> <li>• Maximizes view to the outside with solar or sheer fabrics</li> <li>• Maximizes privacy with roller fabrics</li> <li>• Improves energy efficiency</li> <li>• Optional large cassette</li> </ul>
<b>Options</b>	<ul style="list-style-type: none"> <li>• Each operating system offers valance options (surcharge applies)</li> <li>• Turning fabric width for height and seaming accommodates larger windows, available on select fabrics</li> <li>• Reverse Roll: Fabric can roll over the tube to the back (standard) or to the front <b>NOTE: For optimal privacy and light control, Standard Roll should be used</b></li> <li>• Projection brackets (no charge)</li> <li>• Hold-down brackets (no charge)</li> <li>• Bay or Corner Shade</li> <li>• Motorization</li> <li>• Multiple cornice and valance options available</li> <li>• Fascia available in 3" and 4" heights</li> <li>• Beaded chain available in colors: Black, Brown, Gray, Stainless Steel, Vanilla or White</li> </ul>
<b>Total Room Coordination</b>	<ul style="list-style-type: none"> <li>• Total room fabric coordination of many fabrics for Roller, Solar, Roman, Sliding Panels, Verticals and Pleated Shades</li> <li>• Coordinate a room with a single fabric for a mixture of window types and sliding doors</li> <li>• Create unique looks with scallops and trims</li> </ul>
<b>Scallop and Gimp, Trims and Fringe (optional)</b>	<ul style="list-style-type: none"> <li>• Create a customized look for your roller shade</li> <li>• The finished blind height is measured at the hem bar; scallops extend 5¾" past the hem bar</li> </ul>
<b>Warranty</b>	<ul style="list-style-type: none"> <li>• Limited-lifetime warranty, five-year warranty of motorization</li> </ul>

# Shade Features: Roller Shades

## ROLLER SHADE FABRICS

- Offer a solution for light control (sheer to blackout fabrics)
- Any room or decorating style
- Block damaging UV rays
- Coordinate with other product lines (Graber Fresco® Roman Shades, Vertical Blinds, EvenPleat® and FashionPleat® Pleated Shades)

Tango	E	Room Darkening	Complete	100% Polyester	86"		✓	Neutral	All others

### Light Control and Privacy

**Sheer:** Allows the most amount of light into the room for a minimum amount of privacy and a view to the outside. Objects in the room can be seen quite clearly through shades.

**Light Filtering\*:** Allows light to gently filter through and provides privacy. Images and shapes may be seen through these shades, but details are not visible. Deep fabric colors provide moderate light control, while light colors provide lower light control.

**Room Darkening\*:** Allows some light to filter into the room and provides privacy. Objects in a lit room seen through these shades appear as vague shapes. Deep fabric colors darken a room; light colors filter and diffuse bright sunlight.

**Blackout:** Prohibits light from shining through and provides maximum privacy. Prevents shadows and silhouettes from showing through the fabric. All fabric colors provide maximum light control.

**Light Gaps:** On continuous loop, dual shade and motorized inside mounts, there is an 1¼" light gap per side. On Smart Pull inside mounts there is approximately 1" of light gap on the pull cord side and just over ½" on the opposite side. On cordless inside mounts, there is approximately ¾" of light gap per side. For optimal light and glare control, outside mount is recommended, or you may add a secondary soft window treatment (drapery or curtain) to hide the light gap on an inside mount.

**\*These fabrics are translucent and their colors may be influenced by changing light conditions. Colors may appear to vary depending upon the time of day and type of lighting, as well as whether the shade is partially or fully lowered.**

# Shade Features: Solar Shades

## LIGHTWEAVES® SOLAR SHADE FABRICS

- **Maintain an outward view**
    - Filter and diffuse light while maintaining an outward view
    - In general, the higher the openness factor and darker the fabric, the clearer the view
  - **Manage glare**
    - Minimize glare on televisions and home office computers
    - The darker the fabric color the better the glare control and the better the view to the outside.
  - **Block damaging UV rays**
    - The amount of UV ray blockage is the inverse of a fabric's openness factor (i.e., a fabric with 10% openness blocks 90% of UV rays)
    - Protects your furniture, carpets, artwork, etc. from fading due to harmful UV rays
  - **Reduce the temperature**
    - LightWeaves fabrics reduce heat transmittance, keeping rooms cooler and increasing the comfort level in your home
    - The lighter the fabric color, the better the temperature control
- NOTE:** Solar shades do not offer nighttime privacy – lighted interiors allow inward visibility. If complete privacy is desired, a dual shade or secondary treatment is necessary.

# Shade Features

## FABRIC RECOMMENDATIONS

Order all shades for the same room at the same time to ensure color consistency and minimize dye lot variation.

When displaying multiple shades in the same room, we recommend all shades be ordered with the same fabric orientation for a consistent look.

## FABRIC DISCLAIMERS

Due to the nature of the weaving process, some imperfections in the weave is normal.

Roll direction cannot be reversed after a shade is ordered.

Fabric appearance can vary based on changing light conditions in the room.

## FABRIC WIDTH

Fabric width is 1⅛" to 1⅜" narrower than the Finished Shade Width of the tube and its components on continuous loop shades. Fabric width will be 1" to 1¼" narrower than Finished Shade Width of the tube and components (without valance or side covers) on cordless shades and 1⅜" to 1½" on Smart Pull.

## LARGE WINDOW SIZING

Fabrics can be turned 90° clockwise (width for height) to accommodate wider windows. In these cases some solar fabrics can be seamed for longer heights. Fabrics turned width for height (referred to as railroaded) may curl along the edge. This is not a defect in the product.

Seams may be added to solar fabrics to accommodate long shade requirements. Seams will be placed as close to the tube as possible; seam location is determined by the manufacturer. Seams may be visible when the shade is fully extended. Seaming is not available for Cordless or Smart Pull Shades.

## PATTERN ALIGNMENT

Exact alignment of the fabric pattern across side-by-side shades is not possible. Vertical alignment of the shade fabric with Fabric-wrapped Cornices and cassettes is not possible. Fabrics with large repeat patterns are not centered on the shade. Fabric for all Fabric-wrapped Cornices will be turned width for height. The pattern on the Fabric-wrapped Cornice will run perpendicular to the normal pattern orientation. If the shade is railroaded, the pattern will be the same as the cornice.

## CLEANING AND CARE INFORMATION

**Roller shade fabrics** are virtually maintenance free. If the shade is dusty, simply vacuum over it using an upholstery attachment. A feather duster can also be used to gently remove dust. Shades may also be gently wiped with a clean damp cloth. Allow the shade to dry completely before raising. Do **NOT** completely immerse.

**Solar shade fabrics** are virtually maintenance free. Only periodic vacuuming and an occasional cleaning using a mild detergent, soft brushing and thorough rinsing is required. Allow the shade to dry completely before raising. Do **NOT** completely immerse.

## FABRIC CERTIFICATIONS

**Greenguard Indoor Air Quality Certified® Fabrics:** Many Graber fabrics have been certified by GREENGUARD Environmental Institute (GEI) to be low-chemical and particle emitting fabrics, which provides a healthier indoor air quality. The process used for certification complies with established indoor air quality standards and is performed by a third party lab. Please see [www.graberblinds.com](http://www.graberblinds.com) for more information.

[www.greenguard.org](http://www.greenguard.org)

**Microban®** is an antimicrobial protection technology that provides continuous protection against stain and odor-causing bacteria like mold and mildew. Ideal for residential and commercial environments.

[www.microban.com](http://www.microban.com)

**Oeko-Tex Standard 100** certifies that our fabrics are free of PVC, halogen, lead, formaldehyde, allergenic dyes, pesticides, phenols, heavy metals and meets all VOC content limits.

[www.oeko-tex.com](http://www.oeko-tex.com)

# Size Considerations

## MINIMUM SHADE SIZE

For all fabrics and lift options:

**Minimum shade width and height: 13"**

**Mounting depth requirements: see page 14**

For Sonesse 30 Motor Lift option:

**Minimum shade width: 19"**

**Minimum shade height: 13"**

## MAXIMUM SHADE SIZE

Follow these easy steps to determine maximum shade size and valance size from the Maximum Shade Size Tables:

1. Determine your fabric style, shade size, control type and cassette valance (or no cassette valance) requirement.
2. Find the fabric in the first column.
3. Follow the fabric row to the appropriate control type section (Continuous-loop, Dual Shade, Motorized, Cordless, or Smart Pull).
4. Determine if your shade size is within the Normal Fabric Orientation size range.
5. Identify the appropriate size cassette valance or Square-corner Valance for your shade size.
6. If your shade size is larger than either the maximum width or height range, your fabric may be able to be turned width for height for larger shades. Use the Fabric Turned Width for Height Table to determine this maximum size on page 9-10.

**Example 1:** Determine the maximum allowable shade size and cassette valance for normal orientation shades. The example shade is 72" x 100", Tranquility fabric, Cordless control type, with cassette valance.

1. Find Tranquility in the first column.
2. Follow the Tranquility fabric row to the Cordless Section
3. The maximum width and maximum height available for this configuration is 78" x 120". Note *both* width and height must be less than the maximum width and height segment to fit the normal shade orientation.
4. Follow this segment to the top of the table. This segment is within the Medium Cassette Valance size indicating this shade's smallest segment cassette valance size available is a medium size cassette valance.

**Example 2:** Determine the maximum allowable shade size and cassette for a Motorized Shade. The example shade is 79" x 80", Bamboo fabric, Motorized control type with a cassette valance. First, determine if the shade size is available with the requested fabric and control type.

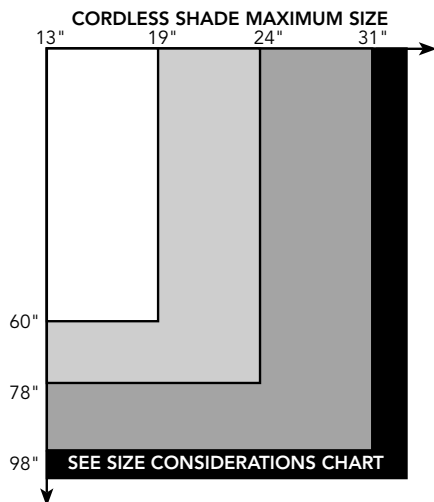

1. Find Bamboo in the first column
2. Follow the Bamboo fabric row to the Motorized section.
3. The maximum width and the maximum height available for this configuration is 80" x 144". The 79" x 80" size does not exceed the Motorized segment.
4. Use the Continuous loop section to determine if a cassette valance is available.
5. Follow the Bamboo fabric row to the Continuous-loop section.
6. The maximum width and the maximum height available for this configuration is 97" x 144" (Large Cassette Valance column). The 79" x 80" size does not exceed the either the medium or large cassette segments. The shade's smallest cassette valance size available is the medium cassette valance.

### Dual Shades

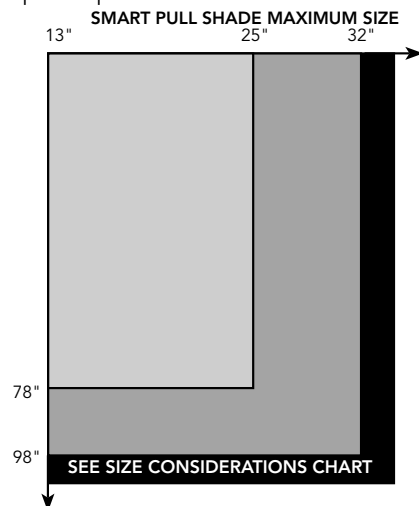

The maximum size for Dual Shades is found using the Dual Shade column. Because two shades must fit into a single cassette valance, the Dual Shade requires the large cassette valance. Small and medium cassette valances are not available for Dual Shades.

**Recommendation:** For consistent look in a single room, we recommend the same size cassette valance be used for every shade. Use the largest shade to determine the smallest available cassette valance size for that room. For example, if the largest shade in the room requires a medium cassette valance, then it is recommended all shades in the room use a medium cassette valance. The cassette valance size can be specified during ordering.

Mounting depth requirements: see size considerations chart.

If shade width is at least	Maximum Height of Shade
13" but less than 19"	60"
19" but less than 24"	78"
24" but less than 31"	98"
For shades greater than 31", see Size Considerations charts	

If shade width is at least	Maximum Height of Shade
13" but less than 25"	78"
25" but less than 32"	98"
For shades greater than 32", see Size Consideration charts	

# Size Considerations

This table provides the maximum shade size available by fabric, control type, and valance style.

No Cassette Valance and Square-corner Valance are options for Continuous loop, Cordless, Smart Pull and Motorized shades.

For motorized shades without a cassette or with a Square-corner Valance, use the Motorized Column. For motorized shades with cassette, use the Continuous-loop columns to determine the cassette size. Motorized shades with a cassette cannot exceed the maximum width and height found in the Motorized, No Cassette column.

If your shade size is larger than the maximum width, your fabric may be able to be turned width for height for larger shades. Use the Fabric Turned Width for Height Table to determine this maximum size.

Only the large cassette valance is available for the Dual Shade. Small and medium cassette valances are not available.

**NOTE:** If the height is shorter than the maximum, a slightly larger width may be available to order.

## Size Considerations

This table provides the maximum shade size available by fabric, control type, and valance style.

Fabric turned width for height (railroaded) may curl along its edge. This is not a defect in the product.

No Cassette Valance or Square-corner Valance are options for Continuous Loop, Cordless, Smart Pull and Motorized shades.

For motorized shades with cassette valance, use the Continuous Loop columns. Motorized shades with cassette valance cannot exceed the maximum width and height found in the Motorized, No Cassette Valance column.

Scallops will decrease the maximum height by 6¾" - roller fabrics only.

Only the large cassette valance is available for the Dual Shade. Small and medium cassette valances are not available.

\* Smart Pull is not available with the following fabrics: B500, B1000, SW4000, SW4100, SW4400, SW4600, SW4800 and SW7100.

† Dual Shades using the Sonesse 30 motor may have additional height restrictions. Contact your Customer Service representative for information.

**NOTE:** If the height is shorter than the maximum, a slightly larger width may be available to order.

Seams may be added to fabrics to accommodate long shade requirements. See Shade Feature charts for a list of fabrics that can be seamed. Seams will be placed as close to the tube as possible; seam location is not selectable. Seams are visible when the shade is fully extended. Seaming is not available for Cordless or Smart Pull Shades.

\* Smart Pull is not available with the following fabrics: B500, B1000, SW4000, SW4100, SW4400, SW4600, SW4800 and SW 7100.  
 † Dual Shades using the Sonesse 30 motor may have additional height restrictions. Contact your Customer Service representative for information.

**NOTE:** If the height is shorter than the maximum, a slightly larger width may be available to order.

Seams may be added to fabrics to accommodate long shade requirements. See Shade Features charts for a list of fabrics that can be seamed. Seams will be placed as close to the tube as possible; seam location is not selectable. Seams are visible when the shade is fully extended. Seaming is not available for Cordless or Smart Pull Shades.

# Size Considerations

This table provides the maximum shade size for shades with fascia. If your shade is larger than the maximum width, your fabric may be able to be turned width for height. Use the Fabric Turned Width For Height columns to determine maximum size. Fabrics

turned width for height may curl along the edge. This is not a defect in the product.

**Motorization is not available with the 4" fascia.**

# Shade Options

## SHADE OPTIONS: FOR SURCHARGES AND PRICING REFER TO PRICING SECTION

The following is a list of options for Roller and Solar Shades. All options are available in all styles and colors. Limitations will be based on fabric width. See detailed descriptions on the following pages.

**CONTROL TYPE OPTIONS:** For surcharge, see Options Pricing

- Cordless Lift System
- Continuous-loop Lift System
- Smart Pull Lift System
- Motorization (See Motorization Tab)

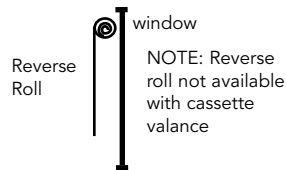

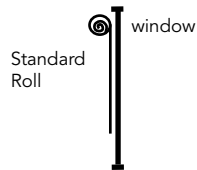

### SHADE OPTIONS–NO CHARGE

- Chain Color (Black, Brown, Gray, Stainless Steel, Vanilla, or White)
- Bay and Corner Windows
- Chain Length (must specify different length)
- Chain Location
- Fabric turned 90° (width for height)
- Hold-down Brackets
- Projection Brackets (3¼" and 4")
- Reverse Roll
- Returns for Square-corner Valance
- Seaming

### SHADE OPTIONS–SURCHARGE

- Cassette Valance
- Cut Yardage
- Dual Shade
- Fascia
- Fabric-wrapped Cornice
- Scallop and Gimp
- Square-corner Valance
- Bead Trim
- Wood Cornice and Valance – see Cornice and Valance Price List

## REVERSE ROLL

- **No charge**
- Standard roll is where fabric rolls over the tube to the back
- Reverse roll is where the fabric rolls over the tube to the front
- Reverse roll not available with Cassette Valance

**NOTE: For optimal privacy and light control, Standard Roll should be used.**

# Shade Options

## CORDLESS LIFT CONTROL

- **For surcharge, see Price Charts**
- Sleek look with no chains
- Perfect safety solution for homes with children or pets
- Shade raises and lowers smoothly and easily due to a unique dual speed braking system
- Tension can be manually adjusted so shade always raises at desired speed
- Standard Cord and Tassels are color-coordinated to fabric
- Optional Wood Tassels
 

Golden Oak .....	31
Natural .....	17
Walnut.....	05
- Optional Clear Hem Grip
- Optional Clear Hem Grip for cordless not available with Scallop
- Optional square corner valance with fabric insert, cassette valance with fabric insert, wood cornice or fabric-wrapped cornice
- Inside mount  $\frac{3}{16}$ " light gap per side

### How to Order Cordless Shades

1. Select shade size (width x height)
2. Add control system surcharge
3. If desired, add the Cordless Cassette Valance surcharge

## CONTINUOUS-LOOP LIFT CONTROL

- **No Charge**
- Beaded chain and clutch system makes raising and lowering shade easy
- Bead chain length is approximately  $\frac{7}{8}$  length of shade; customer can request a longer chain length at time of order
- Three clutch sizes depending on shade size
- Beaded chain remains at same length, regardless of shade position
- Color-coordinating plastic bead chains and stainless steel bead chains are available (Colors include: black, brown, gray, stainless steel, vanilla and white)
- Safety chain guide included to prevent chain from becoming a strangulation hazard. **NOTE: Chain guide must be installed to operate shade**
- Choose left or right chain location
- Optional Square-corner Valance with fabric insert, cassette valance with fabric insert, wood cornice or Fabric-wrapped Cornice
- Inside mount  $1\frac{1}{16}$ " light gap per side

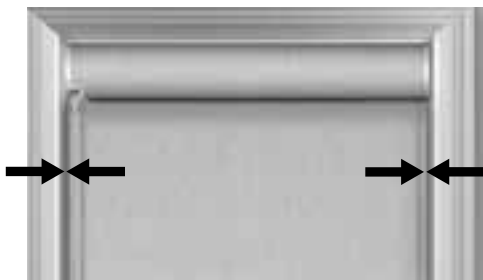

# Shade Options

## SMART PULL CONTROL

- **For surcharge, see Price Charts**
- Patent pending Smart Pull control
- To raise the shade, pull the cord gently
- To lower the shade, pull the cord with a small quick tug
- The shade lowers easily and automatically; to stop the shade while it is lowering, gently pull the cord again
- Cassette Valances are available as an option
- Color-coordinated pull cord and tassel
- Optional Wood Tassels
 

Golden Oak .....	31
Natural .....	17
Walnut.....	05
- Cord length is approximately 7/8 length of shade; customer can request a specific length
- Optional cord length
- Hold-downs brackets are available
- Outside mount is recommended for maximum light control
- Smart Pull is not available with the following fabrics: B500, B1000, SW4000, SW4100, SW4400, SW4600, SW4800 and SW7100.

**Smart Pull Inside mount light gap**  
 Inside mounts, there is 1" of light gap on cord side and 1/2" on the opposite side.

## MOTORIZATION

- **For surcharge, see Motorization Tab**
- Allows for easy operation for those hard to reach or large windows
- Offers enhanced security with the optional wireless timer
- Efficiently manages energy (heat gain and loss)
- Provides safety, no external cords
- RF (Radio Frequency) motorization allows shade operation from virtually anywhere in the house without direct line of site
- IF (Infrared) control requires direct line of sight
- RF control operates group shades simultaneously or individually
- RF Remotes, wall switches and timers available
- Control shades when entering or exiting a room with optional wall switches
- Inside mount 1/4" light gap per side

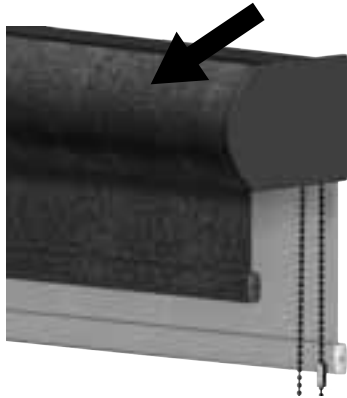

**NOTE: Motorization components and accessories have a 5 year limited warranty, excludes battery wand.**

# Shade Options

## DUAL SHADES

Large Cassette Valance

**For surcharge, see Options Pricing**

Dual Shades create versatile light-control and privacy levels for any interior. The Dual Shade design integrates any two fabrics from the Solar and Roller collections, which can be independently lowered or raised as needed.

Combine the sheer, light-filtering, room-darkening or blackout fabrics of your choice. Raise or lower each shade independently depending on time of day or need for privacy. Add a Roller Shade fabric to compliment the room décor.

- Includes the same control options and specialty options as our Roller and Solar Shades
- Features the same, continuous loop and motorization lift operation as our Roller and Solar Shades
- Select fabrics available in Roman, Sliding Panels and Vertical collections for whole-décor coordination

**Recommendations**

- Use the back shade or shade closest to the window for light regulation (recommended: solar screen fabrics, sheers and blackout fabrics)
- For the front shade, select Roller fabrics to match the room décor and maintain privacy
- Select scallops and trims for a finishing touch (Roller fabrics only)
- All Dual shades can be continuous-loop lift or low-voltage motorized systems
- Color-coordinating bead chains and stainless bead chains are available. Colors include: black, brown, gray, vanilla, white
- Bead chain colors are selectable for front and back shade
- Dual Shades can be configured with the fabric-wrapped, 7½" Noble and Regal Wood Cornices for all configurations
- 5½" Noble and Regal Wood Cornices are available only when Dual Shade has no cassette with inside mount and Cornices are outside mount
- Curved, Classic and Symphony Valances are not available
- Cordless and Smart Pull lift systems are not available
- Square-corner valance and fascia are not available

**Shade Configuration without Cassette Valance**

- Front shade (closest to room) is always a reverse roll providing a consistent, even look to the shade
- The back Dual shade (shade closest to the window) can be a standard roll or reverse roll
- The front shade beaded cord is positioned as the left pull
- The back shade beaded cord is positioned as the right pull

**Shade Configuration with Cassette Valance**

- Large cassette valance is available; small and medium cassette valances are not available
- The fabric for the Fabric-wrapped cassette valance is selectable, either front or back shade fabric
- Front and back shades are standard roll
- The front and back shade beaded chain can be positioned either left or right pull

		Standard Roll	Reverse Roll	Left Control	Right Control	Motorized
No Cassette	Front Shade		•	•		•
	Back Shade	•	•		•	•
Large Cassette	Front Shade	•		•	•	•
	Back Shade	•		•	•	•

**Light Gaps**

- Light gaps measure 1½" on each side with an inside mount. An outside mount is recommended for maximum light control.

**Considerations**

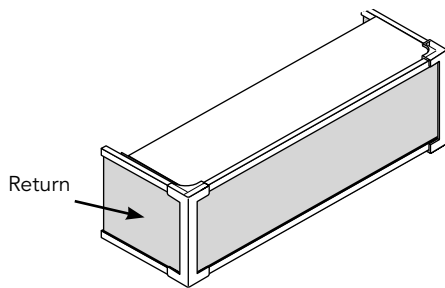

- Hold-down brackets are not recommended for dual shades
- For motorized shades, the multi-channel remote control is recommended

**To Price Your Order for Dual Shade**

1. Select front shade control type (continuous loop or motorization), size, color and options
2. Select back shade control type (continuous loop or motorization), size, color and options
3. Add the front shade with options and the back shade with options
4. If desired, add large cassette
5. Add the Dual Shade surcharge: See Price Charts for Dual Shades

# Shade Options

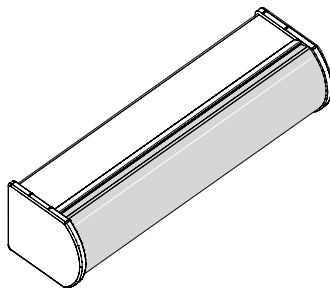

## SQUARE-CORNER VALANCE

- **For surcharge, see Price Charts**
- A Square-corner PVC, channel panel valance is available for all shades
- Inside Mount Shades: Do **not** include returns unless specifically requested at time of order entry. Custom length returns are available from 1" - 6".
- The Square-corner Valance is not available with the Dual Shade.
- A valance only option is available for Continuous-loop shades; single valance is available up to 192" in width to cover multiple shades with a single valance. (The fabric will not be one continuous piece in these instances.)

NOTE: Returns can be trimmed to desired length with scissors.

## CASSETTE VALANCE

- **For surcharge, see Price Charts**
- A curved sleek, aluminum-extruded, fabric covered valance is available as a surcharge option for Continuous-loop, Cordless, Smart Pull, Motorized, and Dual shades.

**Note: The Curved Cassette Valance must be ordered at the same time as the shade.** It is not possible to order a valance for a shade after the shade has been made.

### Cassette Valance Dimensions

Continuous Loop, Motorized and Dual Shade:

- Small Cassette: 3" H x 3½" D
- Medium Cassette: 3½" H x 4" D
- Large Cassette: 4½" H x 5¾" D

Cordless and Smart Pull

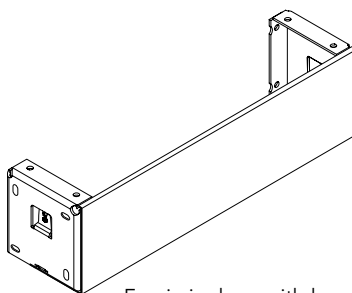

- Small Cassette: 2¾" H x 3¾" D
- Medium Cassette: 3¾" H x 4¼" D

### Cassette Valance Availability

The cassette valance size is determined by multiple factors. Available cassette sizes by shade type are shown below.

	Small	Medium	Large
Continuous Loop	•	•	•
Motorized	•	•	•
Cordless	•	•	
Smart Pull	•	•	
Dual Shade			•

## FASCIA

Fascia is show with brackets.

- **For surcharge, see Price Charts**
- Aluminum-extruded fascia is available in 3" and 4" sizes for Continuous-loop shades and 3" for motorized shades.
- Not available with Smart Pull, Cordless, Dual Shades and Continuous Fascia (one Fascia for multiple shades)
- Color coordinated end covers are provided for outside mount

**NOTE: Fascia must be ordered at the same time as the shade; not available for purchase as valance only.**

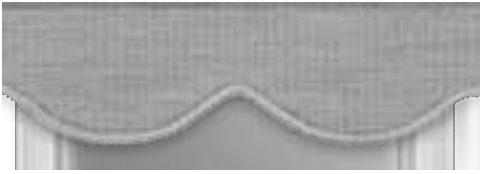

### Fascia Colors

- Black . . . . . 939
- Bronze Anodized . . . . . 872
- Clear Anodized . . . . . 875
- Vanilla . . . . . 970
- White . . . . . 871

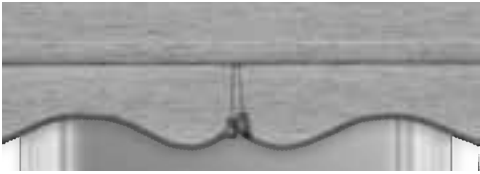

Color coordinated end covers are provided for outside mounts.

# Shades Options

## ROLLER SHADES: SCALLOP OPTION

Classic

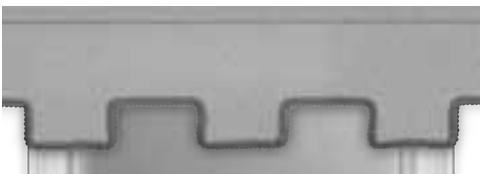

Colonial

Provence

Cathedral

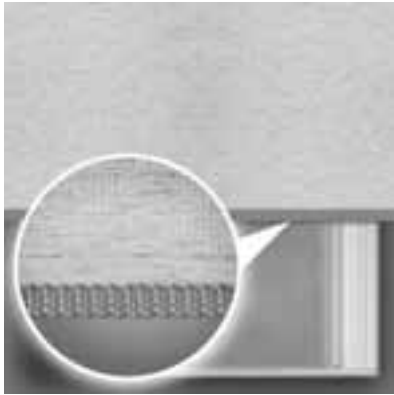

Dentil

- For surcharge, see Options Pricing
- Not available with Solar Shades
- Must be ordered with Gimp, 3/8" Braid Trim or Fringe
- The finished shade height is measured at the hem bar; scallops extend 5 3/4" past the hem bar
- Patterns are centered as pictured and repeat across the width of the shade

Scallop Style	Pattern Repeat
Classic	10"
Colonial	18"
Provence	18"
Cathedral	11 1/4"
Dentil	8"

# Shade Options

## ROLLER SHADES: BRAID AND TRIM OPTION

- **Surcharge included with Scallop Option**
- Available with Scallop Option
- You must choose a Gimp, 3/8" Braid Trim, or Braid Fringe color when ordering a scallop or trim

### 3/8" Braid Trim

Calico.....	601
Hessian.....	602
Linen.....	603

## ROLLER SHADES: GIMP OPTION

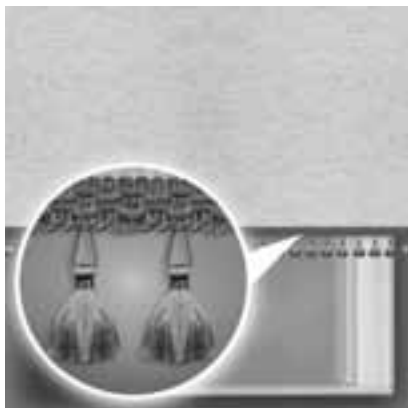

- **Surcharge included with Scallop Option**
- You must choose a Gimp, 3/8" Braid Trim, or Braid Fringe color when ordering a scallop or trim

### Gimp

Artichoke.....	06	Maize.....	02
Black.....	156	Taupe.....	01
Brown.....	554	White.....	417
Chocolate.....	04

## FABRIC CUT YARDAGE

- For surcharge, see Options Pricing
- Create matching pillows, table runners, placemats or window treatments
- Cut yardage fabric may not be exact match due to dye-lot variations in fabric
- All fabrics are available by the linear yard (1 yard minimum)
- Cut yardage roller fabric may need to be ironed with a press cloth when received. Do not iron solar fabrics
- Not recommended for upholstery
- Cut yardage is provided as is; there is no warranty regarding suitability in desired application

## TRIM CUT YARDAGE

- For surcharge, see Options Pricing
- All trims are available by the yard (1 yard minimum)
- Cut yardage is provided as is, there is no warranty regarding suitability in desired application.

# Shade Options

## BAY AND CORNER WINDOWS

Corner shades are used to butt two shades together in a Bay or Corner window.

Options: Controls can be on the right or left side of each blind for Continuous-loop; placing controls opposite the corner is recommended.

Measuring: For bay windows, supply all measurements  
 NOTE: Manufacturer will take deduction for bay or corner.

- Ordering: Price as standard shades, no additional surcharge
- When using this application there will be the normal light gap due to product tolerances as well as the light gap created by the corners or butting shades together.
  - Valances will create a larger gap between shades.
  - Dual Shades are not available with Bay or Corner Windows

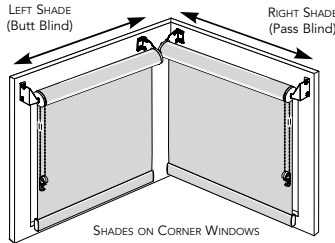

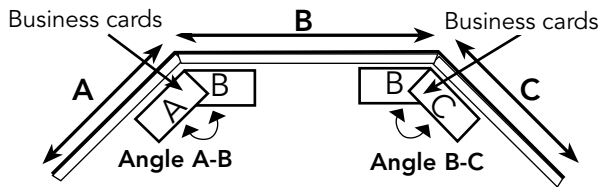

Illustration shows Continuous-loop Control shades.

### Measuring Information

#### Corner Window

Measure:

Width of each window from corner to the point you would like to cover.

#### Three-sided Bay Window

Measure:

A & C: Width of side windows from the corners to the point you would like the shade to cover.

B: Width of the center window from corner to corner.

Angle A-B: Angle between windows (A) and (B).

Angle B-C: Angle between windows (B) and (C).

#### Four-sided Bay Window

Measure:

A & D: Width of side windows from the corners to the point you would like the shade to cover.

B & C: Width of each window from corner to corner.

Angle A-B: Angle between windows (A) and (B).

Angle B-C: Angle between windows (B) and (C).

Angle C-D: Angle between windows (C) and (D).

#### Five-sided Bay Window

Measure:

A & E: Width of side windows from the corners to the point you would like the shade to cover.

B, C & D: Width of each center window from corner to corner.

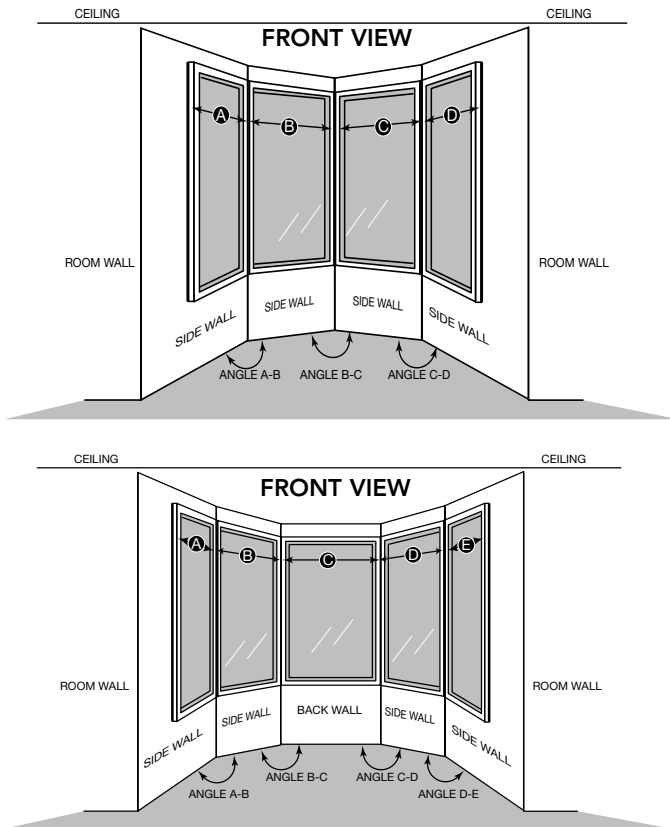

Angle A-B: Angle between windows (A) and (B).

Angle B-C: Angle between windows (B) and (C).

Angle C-D: Angle between windows (C) and (D).

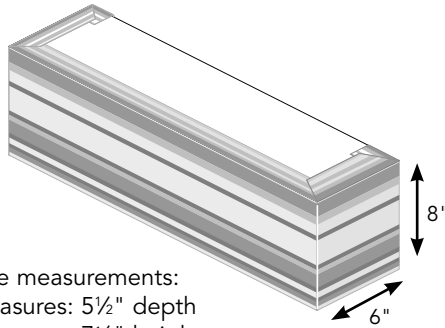

Angle D-E: Angle between windows (D) and (E).

**NOTE:** Measure bay angle using protractor or angle finder, or use two business cards in bay corner as illustrated above and fax to customer service.

# Shade Options

## FABRIC-WRAPPED CORNICES

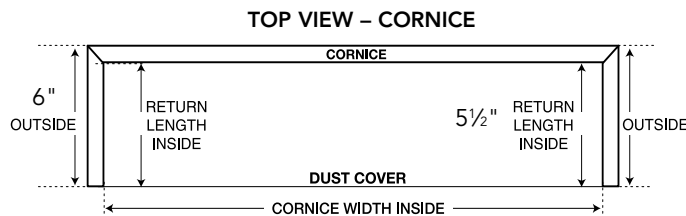

**NOTE:**

Back inside measurements:  
Return measures: 5½" depth  
7½" height

**To Order a Fabric-wrapped Cornice:**

The fabric wrapped cornice will be produced to the inside cornice width (see Top View illustration below). The finished outside measurement of the fabric Cornice will be approximately 3" more than ordered width.

Fabric-wrapped Cornice Size Limits

	Outside Mount
Minimum Size	12"
Maximum Size	117½"

- For surcharge, see Options Pricing
- Available in most fabrics, see list below
- Create a coordinated statement with your shade or use a contrasting fabric
- L-brackets included for installation
- Outside mount only; 6" returns only (front measurement)
- Polyester batting under the fabric creates an upholstered appearance
- White fabric liner covers the dust cover and inside of the cornice for a finished look

**NOTE:** Cornices will be shipped separate from shade. Manufacturer recommends installing shade and cornice at the same time.

**Fabric for all Fabric-wrapped Cornices will be turned width for height. In cases of normal fabric orientation the pattern on the Fabric-wrapped Cornice will run perpendicular to the pattern on the shade. If the shade is railroaded, the pattern will be the same.**

# General Information

## LIGHTWEAVES® CORDLESS SHADE PRODUCT DETAIL

### 1. Shade Fabric

- Roller styles ranging from light and dark colored solids to beautiful jacquard weaves
- Solar fabric ranges from 1%-25% openness, light filtering to blackout

### 2. Side Cover

- Provides a finished look to shades without a valance
- Provided with inside mount on Square-corner Valance
- Available in three colors: white, gray and brown; color-coordination is predetermined

### 3. Optional Valances

- Cassette Valance is a sleek, aluminum-extruded cassette system covered in fabric to match shade; easy to install
- Square-corner Valance also available

### 4. Installation Bracket

- Shade can be top or back mounted only
- Metal design

### 5. Cordless Cassette Valance Bracket (optional)

- Shade can be top or back mounted only
- Metal design

### 6. Decorative Tassels

- Facilitates easy operation and keeps fabrics clean
- Color-coordinated to shade fabric
- Optional wood tassels or clear hem grips

### 7. Projection Bracket (optional)

- Medium (3¼")
- Long (4")

### 8. Hold-Down Bracket (optional)

- Secures shade to door, wall, or window sill

### 9. Hem Bar

- Front – fabric covered
- Back – color-coordinated to shade fabric

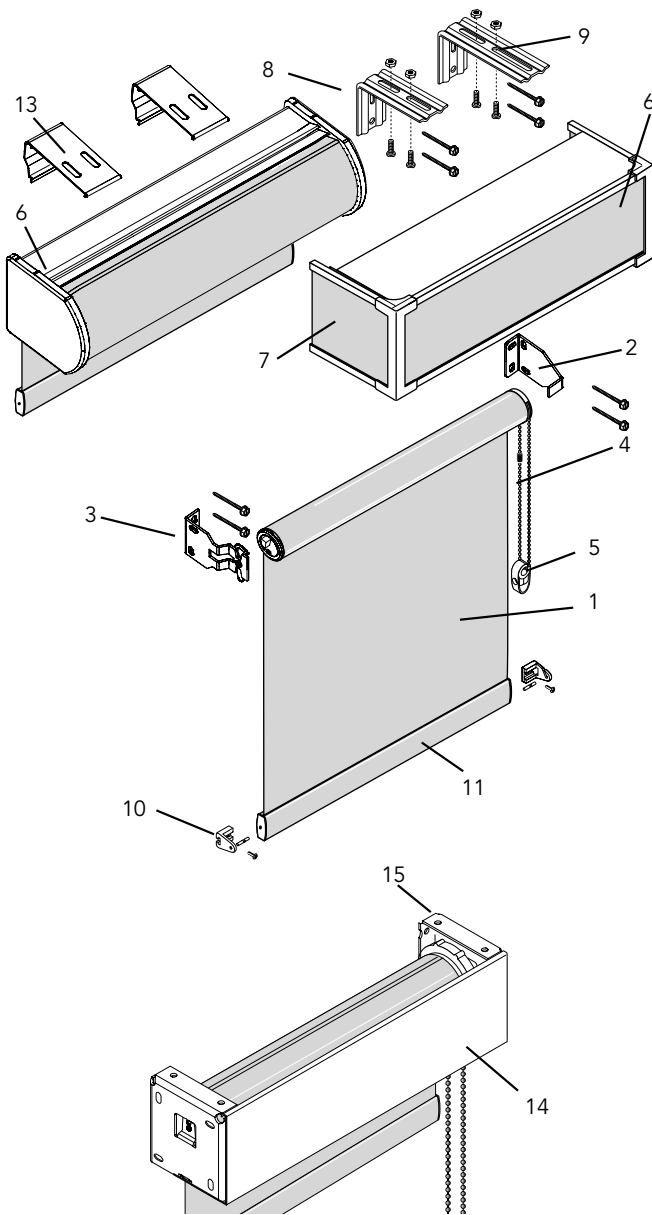

### 10. Optional Scallop and Gimp (Roller Shade Only – Not Shown)

- Add a decorative scallop to personalize your shade
- Five scallop styles available
- Many gimps, trims and fringe to select from (must be ordered with scallop)

**NOTE:** All cordless shades need to be used on windows where the consumer can comfortably raise and lower the shade with their hand and have easy access. Very high or hard to reach windows should use continuous loop, Smart Pull or motorized shades, rather than cordless.

# General Information

## LIGHTWEAVES® CONTINUOUS-LOOP SHADE PRODUCT DETAIL

### 1. Shade Fabric

- Roller styles ranging from light and dark colored solids to beautiful jacquard weaves
- Solar fabric ranges from 1%-25% openness, light filtering to blackout

### 2. Chain Control End Bracket

- Two sizes depending on overall shade size
- Color-coordinated to shade fabric
- Can be top, back or side mounted

### 3. Idle End Bracket

- Two sizes depending on overall shade size
- Color-coordinated to shade fabric
- Can be top, back or side mounted

### 4. Beaded Chain

- Chain and chain connectors are color selectable (white, vanilla, gray, brown, black and stainless steel)
- Continuous loop chain remains at same length, regardless of shade position
- Choose left or right chain location

### 5. Chain Guide

- To prevent possible strangulation of children or pets, the chain guide should be installed for operation

### 6. Optional Square-corner or Cassette Valance

- Fabric covered to match the shade
- End caps color coordinated to fabric
- Cassette valance has shade assembled in the valance

### 7. Square-corner Valance Returns

- Standard with outside mount shades
- Optional with inside mount shades

### 8. Square-corner Valance Bracket (optional)

### 9. Projection Bracket (optional)

- Medium (3¼")
- Long (4")

### 10. Hold-Down Bracket (optional)

- Secures shade to door, wall, or window sill

### 11. Hem Bar

- Front – fabric covered
- Back – color-coordinated to shade fabric

### 12. Optional Scallop and Gimp (Roller Shade Only – Not Shown)

- Add a decorative scallop to personalize your shade
- Five scallop styles available
- 8 gimp colors (must be ordered with scallop)

### 13. Cassette Valance Bracket (optional)

- Cannot be side mounted
- Brass-colored plated spring steel
- Hidden snap-in design
- Facilitates easy installation and removal

### 14. Fascia (optional)

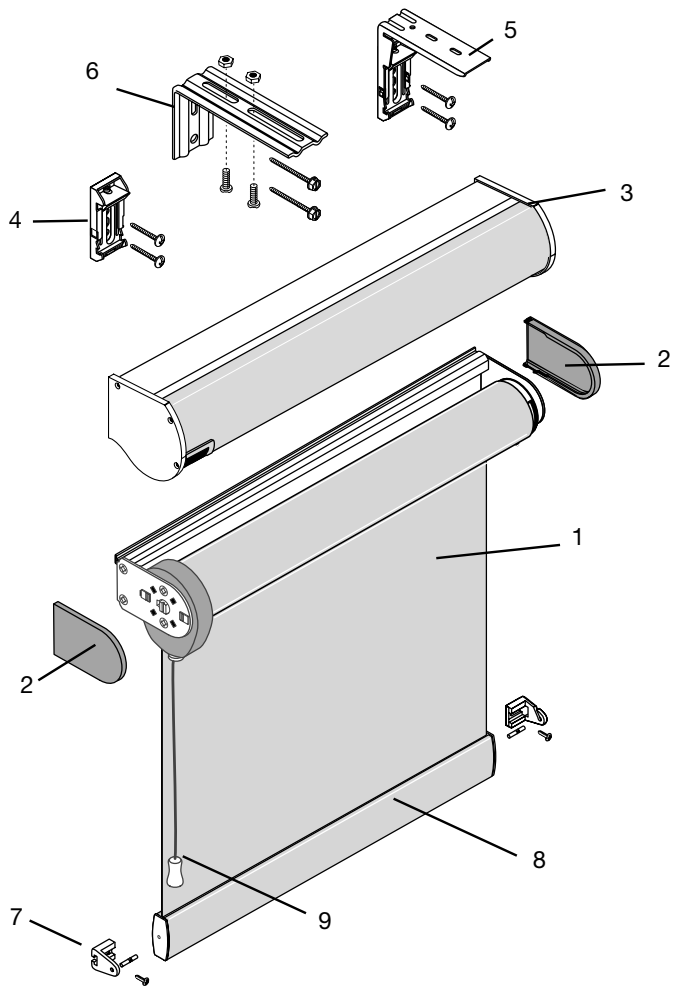

- 3" and 4" sizes
- Available in White, Vanilla, Black, Clear Anodized and Bronze Anodized
- Must order with shade

### 15. Fascia Bracket (optional)

- Secures shade and fascia
- Can be top, side or back mounted
- Color coordinated end covers are provided for outside mounts

# General Information

## LIGHTWEAVES® SMART PULL SHADE PRODUCT DETAIL

### 1. Shade Fabric

- Roller styles ranging from light and dark colored solids to beautiful jacquard weaves
- Solar fabric ranges from 1%-25% openness, light filtering to blackout

### 2. Side Cover

- Provides a finished look to shades without a valance
- Provided with inside mount on Square-corner Valance
- Available in three colors: white, gray and brown; color-coordination is predetermined

### 3. Optional Valances

- Valance is a sleek, aluminum-extruded cassette system covered in fabric to match shade; easy to install
- Square-corner Valance also available

### 4. Installation Bracket

- Shade can be top or back mounted only

### 5. Casette Valance Bracket (optional)

- Shade can be top or back mounted only

### 6. Projection Bracket (optional)

- Medium (3¼")
- Long (4")

### 7. Hold-Down Bracket (optional)

- Secures shade to door, wall, or window sill

### 8. Hem Bar

- Front – fabric covered
- Back – color-coordinated to shade fabric

### 9. Pull Cord

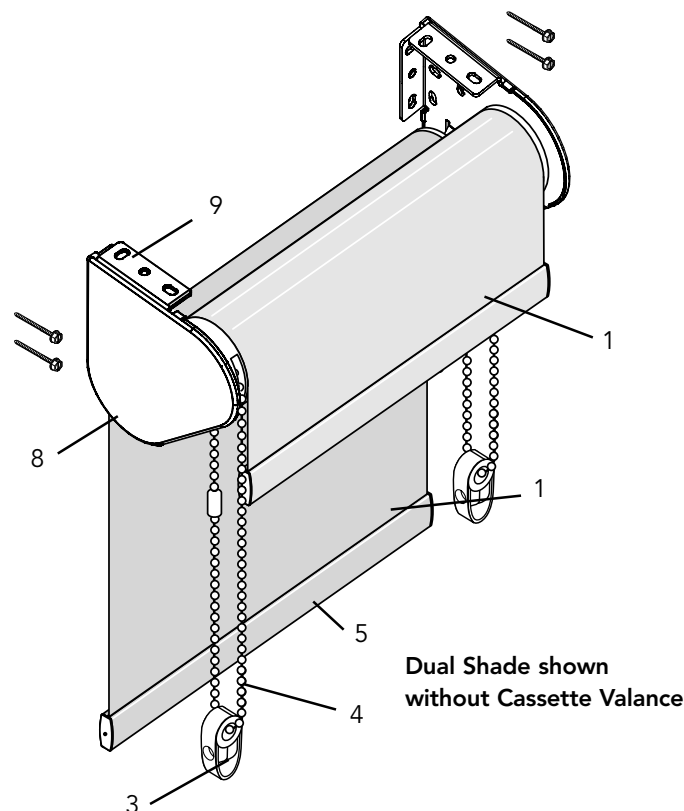

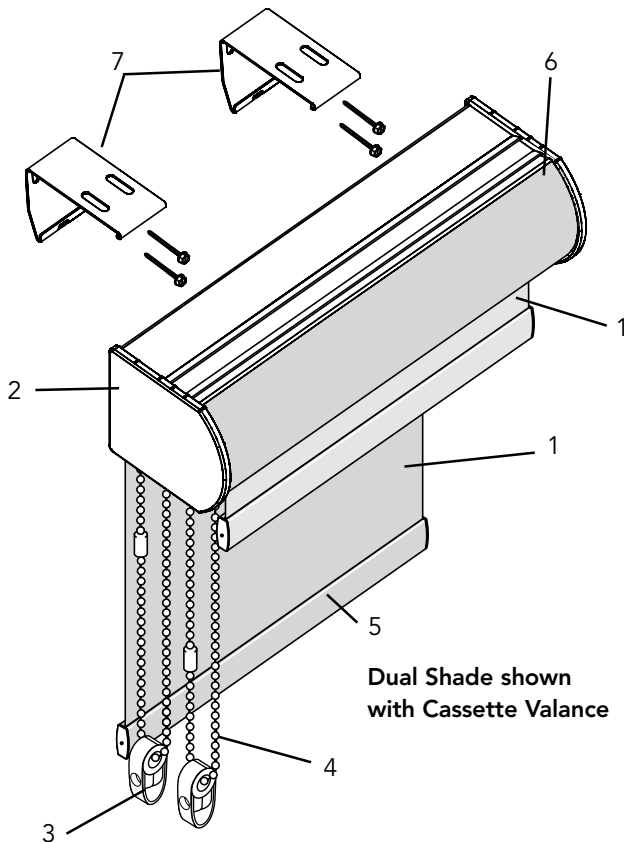

- Color-coordinated cord and tassel
- Optional longer cord length

### 10. Optional Scallop and Gimp (Roller shade only – not shown)

- Add decorative scallop to personalize your shade
- Five scallop styles available
- Many gimps, trims and fringe to select from (must be ordered with scallop)

# General Information

## LIGHTWEAVES® DUAL SHADE PRODUCT DETAIL

### 1. Shade Fabric

- Roller & Solar styles ranging from light and dark colored solids to beautiful jacquard weaves
- Solar fabric ranges from 1%-25% openness, light filtering to blackout

### 2. End Cover for Cassette Valance

- Allows installation of two shades with a single bracket set
- Positions front and back rolls for optimum spacing and roll clearance

### 3. Chain Guide

- To prevent possible strangulation of children or pets, the chain guide should be installed for operation

### 4. Beaded Chains

- Colors are selectable for front or back shade (Black, Brown, Gray, Stainless Steel, Vanilla, or White)
- Stainless steel option available
- With cassette – chains can be the same side or opposite sides of front and back shade
- Without cassette – front chain is on left side, back chain is on right side

### 5. Hem Bar

- Front of Hem Bar – fabric covered
- Back of Hem Bar – color-coordinated to shade fabric

### 6. Cassette Valance (optional)

- Fabric-wrapped cassette end caps match the shade fabric; the fabric for the cassette is selectable
- Large size available

### 7. Cassette Valance Brackets (optional)

- Shade cannot be side mounted
- Brass-colored plated spring steel
- Hidden snap-in design
- Facilitates easy installation and removal of shade

### 8. Bracket Cover (Without Cassette Valance)

- Conceals and coordinates bracket hardware
- Five colors: white, vanilla, gray, brown and black; color-coordination is matched to front shade

### 9. Dual Shade Bracket (Without Cassette Valance)

- Side, ceiling or back mount
- Color-coordinated to shade fabric

**Note: Dual shades are also available with motorization**

Includes returns and mounting hardware.

# Options Pricing: Dual Shades

The Dual Shade Price Chart provides a convenient method to price the Roller Solar Dual Shade. Each table represents all shade widths segmented by a single shade height. All price groups are represented in each table. Identify the Dual Shade size and the fabric for each shade. Note the price chart letter for each fabric. Use the Price Chart below to identify the cost of the front and back shade. Add any surcharges for the front and/or back shade including the Dual Shade surcharge.

Example: Dual Shade size is 48" x 60". Front Shade fabric is Acapella, price Chart A. Back shade fabric is Stratus, price Chart C. A cassette will be included.

Using the Dual Shade Price Chart below follow the shade width to 48". Identify the shade height table of 60". The front shade price for Acapella, Chart A is \$196. The back shade price for Stratus, Chart C is \$247. Add the large cassette pricing of \$145. Add the \$48 surcharge. The total pricing for this dual shade is \$637.

**NOTE: Check the Maximum Shade Size tables to determine if your shade can be manufactured before using this Price Chart.**
