### PLEASE NOTE:

Photos and illustrations are for inspiration only.  
Not all product configurations are available in all countries.

Window blind cords are a strangulation hazard for young children. Consult your dealer or store associate for cordless products, or products with inaccessible cords. Remove this product immediately if a cord longer than 22 cm, or a loop exceeding 44 cm, becomes accessible.

### VEUILLEZ NOTER :

Les photos et les illustrations ne sont offertes qu'à titre d'inspiration. Toutes les configurations de produits ne sont pas disponibles dans tous les pays.

Les cordons pour store de fenêtre représentent un risque d'étranglement pour les jeunes enfants. Consultez votre dépositaire ou un associé de magasin pour des produits sans cordon ou des produits dont les cordons ne sont pas accessibles.

Retirez ce produit immédiatement si un cordon mesurant plus de 22 cm de longueur ou une boucle dépassant 44 cm deviennent accessibles.

# GRABER®

DECEMBER 2025

## Features

- Choose from a variety of fabric, crown vinyl, or S-shaped vinyl vanes
- S-shaped vanes feature a rolling drapery look
- Fabric vanes can be free hanging or inserted into channel panel for more light control and privacy
- Many vinyl styles coordinate with Graber® 2" Horizontal Vinyl Blinds
- Several fabric styles coordinate with Graber FashionPleat®, EvenPleat®, or LightWeaves® Shades

®Oeko-Tex® fabric

FR = Flame resistant NFPA 701

FH = Free hanging fabric

INS = Fabric inserted into channel panel

## Features

Sheer vertical blinds combine the soft look of sheer fabric draperies and the light control benefits of vinyl vertical blinds. When the vanes are open, softly diffused light streams into the room through sheer fabric for minimal privacy and light control; when closed, light is blocked from entering the room to provide maximum privacy and light control. Not only for patio doors, sheer vertical blinds also look beautiful on wider or uniquely shaped windows. Plus, sheer vertical fabrics are easily removed and machine washable.

- Fabric easily installed and removed—no need to take down entire blind
- Easily replace original fabric with different style or color when décor changes
- Fabric is machine washable
- Color coordinated thread for a finished appearance
- Heavy-duty aluminum headrail with steel pantograph system ensures smooth operation and proportional spacing of vanes
- Available as outside mount only
- Stems are removable for easy replacement in the home

### Sheer Vertical Blinds: Styles, Fabric Content, and Light Control

| Collection Name | Material Content | Light Control        | Vane Style | Street Side Appearance |
|-----------------|------------------|----------------------|------------|------------------------|
| Dijon           | 100% polyester   | Sheer/room darkening | FH         | Neutral                |
| Gossamer        | 100% polyester   | Sheer/room darkening | FH         | Neutral                |
| Highlight       | 100% polyester   | Sheer/room darkening | FH         | Neutral                |

### Light Control Levels

**Light Filtering:** Light is filtered to varying degrees depending on fabric style and color; silhouettes of objects and people are visible through the blind.

**Room Darkening:** Light is substantially blocked; vague shadows of objects or people may be visible; maximum room darkening is achieved with darker colors.

**Sheer:** Allows light to enter the room where light control and privacy are not a concern. Objects in the room can be seen quite clearly through open blinds.

### Oeko-Tex® Standard 100 Certified Fabrics

Oeko-Tex Standard 100 certifies that our fabrics are free of PVC, halogen, lead, formaldehyde, allergenic dyes, pesticides, phenols, heavy metals, and meet all VOC content limits.

### NFPA 701

NFPA 701 Flame resistance test is the standard method of fire tests for flame propagation of textiles and films by the National Fire Protection Agency.

# Features

## Vertical Blinds: Vane Features

**Vane View:** Side the color or texture is facing when vanes are rotated open so you can see through the vanes to the street.

### PVC Styles

- All PVC vanes offer value, durability, easy cleaning, and superior light control
- Choose from embossed crown, smooth crown, or S-shaped embossed PVC vanes
- Embossed textures offered in solids or prints with the look of jacquard or linen fabrics, wood, or stucco

### PVC Crown Vanes

- Traditional curved vanes

### PVC S-Shaped Vanes

- Provide a more drapery-like look to your vertical blinds
- Provide better closure for more light control and privacy
- Valances are made with crown PVC of the same texture and color; dye lot cannot be guaranteed
- S-shaped vanes are NOT reversible; vane view shows which side the color/texture is facing when vanes are rotated open so you can see out the window
  - Right stack and split stack—left
  - Left stack—right
- You may choose a vane view other than the recommended if you are concerned about which side of the vane you will see when blinds are rotated open

**NOTE:** See illustrations on how S-shaped vanes will hang.

### Fabric Vanes

- Designer fabric vane styles range from sheer to room darkening in a variety of weaves and materials
- Free-hanging vanes come with sewn-in bottom weights
- For increased privacy and room darkening, fabric vanes can be inserted into channel panels; the clear edge channels hold fabric securely and will not yellow over time; the opaque vinyl vanes provide additional privacy and light control; see price charts for replacement pricing

### Additional Information

- Due to the nature of vane materials (both fabric and vinyl prints), colors may vary slightly from dye lot to dye lot; exact matches cannot be guaranteed
- Due to the random design of some vane patterns, exact alignment of the pattern across the blind is not possible

## Size Considerations

### Summary

The following is a list of options for vertical and sheer vertical blinds. All options are available in all styles and colors. Limitations will be based on fabric width. See detailed descriptions on the following pages.

#### Vertical Blinds

##### Options—No Charge

- Bay and corner windows
- Projection bracket: 4⅜" (G-71 (Premium Track), G-98 (Smooth Track)), 4½" (Easy Track)

##### Control Type Option—No Charge

- Wand Control

##### Options—Surcharge (see price charts for pricing and/or surcharges)

- Cut-outs
- Round-corner valance
- Square-corner valance
- Stay Clear™ channel panels
- Channel panels (available in Ivory and White)
- Wood cornices and valances (see cornices and valances product information guide)
- Economy Channel Panel Valance (Easy Track Only)

#### Sheer Vertical Blinds

##### Options—No Charge

- Bay and corner windows
- Dauphine® valance

##### Options—Surcharge (see price charts for pricing and/or surcharges)

- Round-corner valance
- Double round-corner valance
- Wood cornices and valances (see cornices and valances product information guide)

| G-98 (Smooth Track)  | 1 $\frac{1}{8}$ x 1 $\frac{3}{8}$  | 2 $\frac{3}{8}$                                                                                                                                                                  | 2 $\frac{11}{16}$                                                                   | 3 $\frac{3}{4}$                               | 4 $\frac{5}{8}$                                                                                                                                                                             |
| Easy Track           | 1 $\frac{3}{4}$ x 1 $\frac{1}{4}$  | 1 $\frac{1}{8}$                                                                                                                                                                  | 2 $\frac{1}{4}$                                                                     | N/A                                           | 3 $\frac{1}{2}$                                                                                                                                                                             |

### Sheer Vertical Blinds

|           | Width            |                  | Height           |                  |
|-----------|------------------|------------------|------------------|------------------|
|           | Minimum (inches) | Maximum (inches) | Minimum (inches) | Maximum (inches) |
| One Touch | 17               | 144              | 19               | 104              |

### Depth Requirements for Inside Mount

|  Partially recessed headrail in window casing/molding<br><b>Minimum Depth Partially Recessed Mount</b><br>(inches) | Depth Needed for Flush Mount Headrail<br>(inches) | Depth Needed for Flush Mount Vane<br>(inches) |  Fully recessed valance in window casing/molding<br><b>Depth Needed for Flush Mount Valance</b><br>(inches) |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------|-----------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 2 $\frac{3}{8}$                                                                                                                                                                                      | 3                                                 | 5 $\frac{1}{4}$                               | 6                                                                                                                                                                                               |

**Partially Recessed:** A partially recessed window treatment is where the depth of the window casing is less than the space necessary for a flush mount.

**Flush Mount:** If the window casing is deep enough to mount the entire blind inside of it, this is called a flush mount.

# Options

## Control Options

### One Touch® Wand Control

- **No charge**
- A slender wand controls vane rotation and traversing
- Simple, convenient, safe (no cords and chains)
- Recommended for homes with children or pets
- Available with single stack, and split stack: opposite stack not available
- Wand is always attached to leading vane
- Split stack is only available in the U.S.
- When two headrails are butted together, a light gap of approximately 1" may exist where the louvers meet
- On split stacks, there is one wand located in the center of the track

| G-71 (Premium Track) & G-98 (Smooth Track) |                  |                  |                  |
|--------------------------------------------|------------------|------------------|------------------|
| Width                                      |                  | Height           |                  |
| Minimum (inches)                           | Maximum (inches) | Minimum (inches) | Maximum (inches) |
| 9                                          | 144              | 12*              | 104              |

| Easy Track       |                  |                  |                  |
|------------------|------------------|------------------|------------------|
| Width            |                  | Height           |                  |
| Minimum (inches) | Maximum (inches) | Minimum (inches) | Maximum (inches) |
| 5                | 191              | 8½               | 126              |

**NOTE:** Wider and longer Easy Track blinds will require a strong pull force due to their weight

### Wand Sizes

Keep in mind that the wand length is determined by the finished blind height. If the vertical blind covers a patio door or the bottom of the vertical blind reaches the floor, the following chart indicates wand length. If the headrail distance from the floor is greater than 77" or there is any furniture in front of the blind, specify a 48" or 60" wand for easy accessibility.

| Blind Height (inches)       | Wand Height (inches) |
|-----------------------------|----------------------|
| 77 or less*                 | 33                   |
| 77½ to 92                   | 48                   |
| 92½ to 96                   | 60                   |
| 96 to 126 (Easy Track only) | 72                   |

\*If blind is less than 35", wand will be longer than vanes.

## Options

### Vertical Blinds and Sheer Vertical Blinds: Stacking Options

Split Stack  
Left Controls  
(right controls available)

Left Stack  
Same Side Stack  
and Controls

Right Stack  
Same Side Stack and  
Controls

**NOTE:** Split stack not available for sheer verticals. All other verticals offer split stack (in the U.S. only).

### Vertical Blinds: Installation Types

Inside/Ceiling Mount

Outside Mount

1. Inside Mount (not available for sheer verticals)—Ceiling or Top of Window Frame (standard)  
Manufacturing height deduction is taken for blinds being installed as inside, ceiling mount with or without a valance.
2. Inside Mount (not available for sheer verticals)—Wall or Back of Window Frame  
Manufacturing height deduction is taken for blinds being installed as inside mount using the L-bracket for a wall mount.
3. Outside Mount—Wall or Back (standard)  
No manufacturing height deduction is taken.
4. Outside Mount—Ceiling or Top (optional)  
No manufacturing height deduction is taken.

## Options

### Vertical Blinds: Cut-Out Blinds

- **For surcharges, see price charts**
- Order when air conditioner, heating register, or other object would interfere with vanes
- Blind must stack away from cut-out area
- Specify size and base price by maximum width and height of blind
- Submit drawing to identify size and location of cut-out (see example)
- Minimum cut-out width 3½"
- Cut-out must be a full vane width (3½"); therefore may be wider than ordered

### Vertical Blinds: Stay Clear™ Channel Panel for Fabric Vanes

- **See price charts for surcharges**
- For replacement channel panel pricing, see price charts
- Vane material inserted into extruded channel panel with clear edges; see blind features for fabric styles available
- Offers improved privacy, room darkening, and a neutral color appearance from exterior of window
- Channel panel colors are: Ivory (#7137) or White (#7136)

### Vertical Blinds and Sheer Vertical Blinds: Replacement Vane Ordering

See the column at the far right of each price chart, for individual vane pricing based on material desired.

#### How to Price a Replacement Vane

- Use the price charts for individual vane pricing
- Determine which chart based on material desired
- Locate height of your vane on the left side of the chart
- Use the price in the "Replmt Vanes" column in the price charts that coincides with the height of vane desired

#### How to Measure a Replacement Existing Vane, No Changes

- Measure the vane(s) from tip to tip to determine the exact finished vane length/height (FLL)
- No additional deductions will be taken by manufacturing; vanes will be manufactured to the exact size you provide
- Submit the measurement as exact height

#### How to Measure a Replacement Existing Vane, Changing the Height of the Vanes

- Measure from top of mounted headrail to bottom of location to be covered
- Record this measurement; this is the finished blind length/height (FBL)
- Manufacturing will take appropriate deduction so vanes will cover desired area

**NOTE:** Free hang fabric vanes include bottom weights.

# Options

## Vertical Blinds and Sheer Vertical Blinds: Bay and Corner Windows

- **No charge**
- in order to minimize corner gaps, we recommend having the wand on the non-corner side of the tracks
- Square-corner valance with dust cover only
- Each blind is controlled separately
- List each track width and height on separate lines
- Price as separate blinds
- If no deductions are required, do not order as bay or corner
- Not available with sheer verticals

### Measuring Information

#### Corner Window

Measure: Width of each window from corner to the point you would like to cover.

#### Three-Sided Bay Window

Measure:

- A and C: Width of side windows from the corners to the point you would like the blind to cover.  
 B: Width of the center window from corner to corner.  
 Angle A-B: Angle between windows (A) and (B).  
 Angle B-C: Angle between windows (B) and (C).

Measure bay angle using protractor or angle finder. Or use two business cards in bay corner as illustrated and fax to customer service.

#### Four-Sided Bay Window

Measure:

- A and D: Width of side windows from the corners to the point you would like the blind to cover.  
 B and C: Width of each window from corner to corner.  
 Angle A-B: Angle between windows (A) and (B).  
 Angle B-C: Angle between windows (B) and (C).  
 Angle C-D: Angle between windows (C) and (D).

Measure bay angle using protractor or angle finder. Or use two business cards in bay corner as illustrated and fax to customer service.

#### Five-Sided Bay Window

Measure:

- A and E: Width of side windows from the corners to the point you would like the blind to cover.  
 B, C, and D: Width of each center window from corner to corner.  
 Angle A-B: Angle between windows (A) and (B).  
 Angle B-C: Angle between windows (B) and (C).  
 Angle C-D: Angle between windows (C) and (D).  
 Angle D-E: Angle between windows (D) and (E).

Measure bay angle using protractor or angle finder. Or use two business cards as illustrated and fax to customer service.

## Options

### Vertical Blinds: Square-Corner Valance

Square-Corner Valance  
without Dust Cover

Square-Corner Valance  
with Dust Cover

5 1/2" Returns

- For surcharge, see price charts
- The square-corner valance is an extruded vinyl, Stay-Clear™ channel panel, which is sized to hold 3 1/2" wide vane material; it includes two 5 1/2" returns
- Valances greater than 192" must have a dust cover
- Vinyl valance inserts are not available over 191" wide

#### Maximum Valance Size Limitations

|                       | Valance                |                         | Returns          |                  |
|-----------------------|------------------------|-------------------------|------------------|------------------|
|                       | Maximum Vinyl (inches) | Maximum Fabric (inches) | Minimum (inches) | Maximum (inches) |
| Square-Corner Valance | 191                    | 191                     | 3                | 8                |

### Easy Track Economy Channel and Square-Corner Valance

Economy Channel  
Panel Valance

Square Corner Dust  
Cover Valance

5" Outside Mount Returns

- For surcharge, see price charts
- The valances are an extruded vinyl, channel panel, which is sized to hold 3 1/2" wide vane material; it includes two 5 1/2" returns
- Valances greater than 192" must have a dust cover
- PVC valance inserts are not available over 191" wide

#### Maximum Valance Size Limitations

|                               | Valance                |                         | Returns          |                  |
|-------------------------------|------------------------|-------------------------|------------------|------------------|
|                               | Maximum Vinyl (inches) | Maximum Fabric (inches) | Minimum (inches) | Maximum (inches) |
| Economy Channel Panel Valance | 191                    | 191                     | 3                | 9                |
| Square-Corner Valance         | 191                    | 191                     | 3                | 9                |

### Vertical Blinds and Sheer Vertical Blinds: Round-Corner and Double Round-Corner Valances

5 1/2" Return

Round-Corner Valance

5 1/2" Return

4 3/4" Return  
Double Round-Corner  
Valance

Round-Corner Valance  
with Dust Cover

#### Outside Mount Only

- For surcharge, see price charts
- The round-corner valance system features the Stay-Clear channel panel and is guaranteed not to yellow; accommodates vinyl and fabric vanes as inserts; S-shaped style vanes use matching crown profile for valance insert
- Create a layered look with a double round-corner valance
- Round and double round-corner valances include 5 1/2" returns
- Single round-corner valance: 3 3/4" high
- Double round-corner valance: 6 1/2" high

#### Maximum Valance Size Limitations

|                             | Valance                |                         | Returns          |                  |
|-----------------------------|------------------------|-------------------------|------------------|------------------|
|                             | Maximum Vinyl (inches) | Maximum Fabric (inches) | Minimum (inches) | Maximum (inches) |
| Round-Corner Valance        | 171                    | 191                     | 3                | 8                |
| Double Round-Corner Valance | 171                    | 191                     | 3                | 8                |

| Mount   | Width Deductions (inches) |
|---------|---------------------------|
| Outside | 0                         |
| Inside  | 1/4                       |

## Options

### Sheer Vertical Blinds: Dauphine® Valance

- **No charge**
- Fabric is Shirred for a soft look
- Snap-in brackets for easy installation
- Threader cap provides no-snag shirring of sheer fabric
- Notched for minimum 2½" returns and will extend to 7½" using the additional return slides which are included

**NOTE:** Top hem of blind will be visible below the Dauphine valance.  
Also available are wood cornices and valances; see cornice and valance product information guide for more information.

### Vertical Blinds and Sheer Vertical Blinds: Clear Opening: How to Measure for Uncovered Window

Stack Left Finished Blind Width (FBW)

Split Stack  
(recommended for  
balanced appearance)  
Finished Blind Width (FBW)

1. Determine headrail type and the clear opening width for split stack, stack right or stack left (see diagrams)—the additional 3" shown for privacy is recommended if ordering a right or left stack.
2. Match the clear opening width with dimension found under "CO" column below. For even spacing, round up width measurement to the next size in the stack chart. Split stack will have even number of vanes.
3. Order the corresponding dimension found in the "FBW" (finished blind width) column below.

**EXAMPLE:** Stack Left

If determined width for clear opening window view is 54¼", order width needed to provide full unobstructed view is 66¾".

**NOTE:** For stack right or stack left blinds add an additional 3" to the clear opening before calculating the finished blind width.  
For G-98 (Smooth Track) and Easy Track headrails, and One Touch® Control, see appropriate stacking charts for single stack blinds only on the following pages.

### Sheer Vertical Blinds: Hem Style

- 4" drapery hem is standard

| 62              | 165⅞         | 194          | 163¼        | 194⅞         |

FBW = Finished Blind Width  
CO = Clear Opening  
Stack = FBW – CO

**NOTE:** This chart is intended for reference purposes only and is estimated by taking the Vertical Width divided by 3.125 and rounding up to the next vane.

For even spacing on outside mounts, round up width measurement to the next size in the stack chart. Split stack blinds must have an even number of vanes.

## General Information

### Sheer Vertical Blinds: Vane Color Coordination Chart

| Fabric Name | Color Name  | Color Number | Recommended Vane Color |
|-------------|-------------|--------------|------------------------|
| Dijon       | Downey      | 2221         | White                  |
|             | Extra White | 2220         | White                  |
|             | Stucco      | 2222         | Ivory                  |
| Gossamer    | Champagne   | 1720         | Ivory                  |
|             | Snowstone   | 1724         | White                  |
|             | White       | 1725         | White                  |
| Highlight   | Champagne   | 1740         | Ivory                  |
|             | Snowstone   | 1741         | White                  |
|             | White       | 1742         | White                  |

# General Information

## G-71 (Premium Track) Product Detail

| Features                              | Benefits                                                                                                           |
|---------------------------------------|--------------------------------------------------------------------------------------------------------------------|
| Heavy-Duty Anodized Aluminum Headrail | Will not rust; ideal for high-humidity applications                                                                |
| Rack and Pinion Gear System           | Allows vanes to rotate smoothly and easily                                                                         |
| Centrally Located Carrier Stems       | Reversible headrail                                                                                                |
| Pantograph System                     | Requires very little draw force to open and close blinds; vanes stay proportionately spaced when opening the blind |
| One Touch® Control                    | Safety and convenience                                                                                             |
| Removable Stems                       | Ability to repair instead of remaking—less invasive for the customer                                               |
| Clear Nylon Vane Stems                | Nearly invisible, yet extremely strong                                                                             |

# General Information

## G-98 (Smooth Track) Product Detail

### Thin Profile Carrier System

- Narrow carrier width provides reduced vane stack
- Self-aligning carriers for trouble-free operation

### Color Coordinated End Caps

- Provide a clean, finished look

### Aluminum Headrail

- Will not rust
- Perfect for high-humidity applications
