Virtual Cord™ Features

Motorized Shade Features

Refer to individual price list for specific option and size information for the product being ordered.

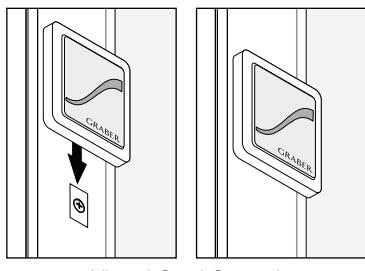

Radio Frequency (RF) Features

Graber® Virtual Cord controlled motorized shades feature advanced radio technology which provides reliable, effortless operation of window coverings. The radio technology utilized is Z-Wave which is supported by an alliance of countless smart home products and home automation providers making integration simple and inexpensive. Graber Virtual Cord motorized shades are quiet, simple to install and adjust, and simple to operate. These automated shades also feature:

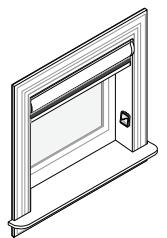

- Simple, intuitive control by means of the unique Virtual Cord (included with every shade)
- An optional single channel remote is also available to control shades individually or in a group
- Shades can be conveniently operated from virtually anywhere in the home, up to 65 feet (19.9 m)
- Consistent motor speed regardless of size or weight
- Efficiently manages energy (heat gain and loss)
- A safer alternative to accessible cords that are traditionally used to operate window coverings; ideal for homes with children and pets
- Clean design with LED operation confirmation
- Push button control on shade end cap provides both a programming function at set-up and shade operation should the control be misplaced
- LED feedback on controls simplify operation and programming
- Quiet, smooth shade operation
- Limit safety protection feature simplifies reprogramming, should it be necessary, while protecting the shade from damage
- Convenient soft-start and soft-end add a touch of class to shade travel
- Low voltage motorization requires no costly electrical hard-wiring

Control Options Available:

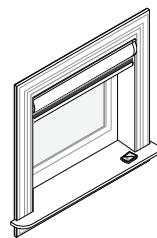

- Virtual Cord: simple, convenient control at the window shade location or control across the room (included with shade)

Virtual Cord™ Features and Size Considerations

CrystalPleat® Cellular and Pleated Shades Motorized Lift

Refer to individual price list for specific option and size information for the product being ordered.

Features

- Simple, intuitive control by means of the unique Virtual Cord (included with every shade)
- An optional single channel remote is also available to control shades individually or in a group
- Shades can be conveniently operated from virtually anywhere in the home, up to 65 feet (19.9 m)
- Consistent motor speed regardless of size or weight
- Efficiently manages energy (heat gain and loss)
- A safer alternative to accessible cords that are traditionally used to operate window coverings; ideal for homes with children and pets
- Clean design with LED operation confirmation
- Push button control on shade end cap provides both a programming function at set-up and shade operation should the control be misplaced
- LED feedback on controls simplify operation and programming
- Quiet, smooth shade operation
- Limit safety protection feature simplifies reprogramming, should it be necessary, while protecting the shade from damage
- Convenient soft-start and soft-end add a touch of class to shade travel
- Low voltage motorization requires no costly electrical hard-wiring
- Powered with batteries, plug-in transformer, or multi-motor power supply
- Motor located on right side within headrail
- Not available with bottom up/top down, top down only, sun up/sun down, Perfect-Vue™, SkyTrack™, specialty shapes, or multiple shades on one headrail
- Not available with hold down brackets or side mounts

Control and Power Options

- Multiple control and power options available; see Virtual Cord options for availability

NOTE: Motorization components and accessories have a five-year limited warranty, excluding batteries.

Cellular Size Considerations

	Minimum Width* inches (cm)	Maximum Width inches (cm)	Minimum Height inches (cm)	Maximum Height inches (cm)
All Fabric Styles Except Cocoon	20 (50.8)	144 (365.8)†	9 (22.9)	144 (365.8)
Cocoon	20 (50.8)	86 (218.5)	9 (22.9)	96 (243.9)

*For all inside mount applications, $\frac{3}{8}$ " (1.0 cm) deduction is taken by the manufacturer on overall width.

†Based on fabric width.

Pleated Size Considerations

	Minimum Width* inches (cm)	Maximum Width inches (cm)	Minimum Height inches (cm)	Maximum Height inches (cm)
1" (2.6 cm) FashionPleat®	18 (45.8)	144 (365.8)†	9 (22.9)	96 (243.9)
1" (2.6 cm) EvenPleat®	18 (45.8)	120 (304.8)†	6 (15.3)	96 (243.9)
2" (5.1 cm) EvenPleat	20 (50.8)	144 (365.8)†	12 (30.5)	120 (304.8)**

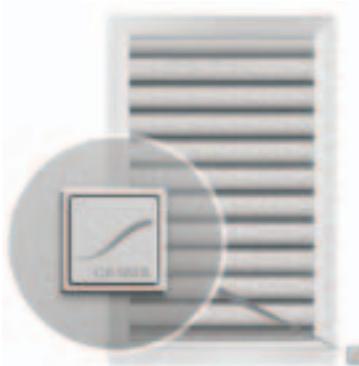

*For all inside mount applications, $\frac{3}{8}$ " (1.0 cm) deduction is taken by manufacturer on overall width.

**Height limited to 96" (243.9 cm) with overlap.

†Based on fabric width with overlaps.

Virtual Cord™ Features and Size Considerations

Fresco® Roman Shades Motorized Lift

Refer to individual price list for specific option and size information for the product being ordered.

Features

- Simple, intuitive control by means of the unique Virtual Cord control (included with every shade)
- An optional single channel remote is also available to control shades individually or in a group
- Shades can be conveniently operated from virtually anywhere in the home, up to 65 feet (19.9 m)
- Consistent motor speed regardless of size or weight
- Efficiently manages energy (heat gain and loss)
- A safer alternative to accessible cords that are traditionally used to operate window coverings; ideal for homes with children and pets
- Clean design with LED operation confirmation
- Push button control on shade end cap provides both a programming function at set-up and shade operation should the control be misplaced
- LED feedback on controls to simplify operation and programming
- Quiet, smooth shade operation
- Limit safety protection feature, which simplifies reprogramming (should it be necessary) while protecting the shade from damage
- Convenient soft-start and soft-end that add a touch of class to shade travel
- Low voltage motorization; no costly electrical hard-wiring required
- Powered with batteries, plug-in transformer, or multi motor power supply
- Motor located on right side within headrail
- Available with both flat and looped styles
- Available with fabric valances, wood valances, and cornices
- Available with bead and gimp trim on fabric valances
- Not available with bottom up/top down or multiple shades on one headrail
- Not available with hold down brackets or side mount brackets

Control and Power Options

- Multiple control and power options available; see Virtual Cord options for availability

NOTE: Motorization components and accessories have a five-year limited warranty, excluding batteries.

Roman Size Considerations

	Minimum Width* inches (cm)	Maximum Width inches (cm)	Minimum Height inches (cm)	Maximum Height inches (cm)
Roman Shades: Classic Flat or Looped	20 (50.8)	144 (365.8) [†]	18 (45.8)	96 (243.9)

*For all inside mount applications, $\frac{3}{8}$ " (1.0 cm) deduction is taken by manufacturer on overall width.

[†]Based on fabric width.

Virtual Cord™ Size Considerations

Tradewinds® Natural Shades Motorized Lift

Refer to individual price list for specific option and size information for the product being ordered.

Features

- Simple, intuitive control by means of the unique Virtual Cord (included with every shade)
- An optional single channel remote is also available to control shades individually or in a group
- Shades can be conveniently operated from virtually anywhere in the home, up to 65 feet (19.9 m)
- Consistent motor speed regardless of size or weight
- Efficiently manages energy (heat gain and loss)
- A safer alternative to accessible cords that are traditionally used to operate window coverings; ideal for homes with children and pets
- Clean design with LED operation confirmation
- Push button control on shade end cap provides both a programming function at set-up and shade operation should the control be misplaced
- LED feedback on controls simplify operation and programming
- Quiet, smooth shade operation
- Limit safety protection feature simplifies reprogramming, should it be necessary, while protecting the shade from damage
- Convenient soft-start and soft-end add a touch of class to shade travel
- Low voltage motorization requires no costly electrical hard-wiring
- Powered with batteries, plug-in transformer, or multi motor power supply
- Available on standard Roman or old style Roman only
- Available with multiple shades on one headrail; each panel will have a motor and power source; there will be a ½" (1.3 cm) gap between the panels
- Available with fabric edge banding, hem options, and liners
- Motor mounted to the underside of hardwood headrail on right side
- Available with 9" (22.9 cm) standard valance, 9" (22.9 cm) premiere valance, or 9" (22.9 cm) deco trim valance
- Available with bottom corner and bottom center cut-outs
- Not available with special shapes
- Not available with hold down brackets

Control and Power Options

- Multiple control and power options available; see Virtual Cord options for availability

NOTE: Motorization components and accessories have a five-year limited warranty, excluding batteries.

Natural Shades Size Considerations

Style	Minimum Width inches (cm)	Maximum Size	
		Shade square inches (cm ²)	With Liner square inches (cm ²)
Inan, Lipo, Revelry, Serenity, Toushan II, Yunnan	18 (45.8)	2,755 (17,774.2)	2,333 (15,051.6)
Chencun	18 (45.8)	5,194 (33,509.6)	3,878 (25,019.3)
Amour, Boardwalk, Escape, Majian, Merino, Moniz	18 (45.8)	6,058 (39,083.8)	4,330 (27,935.4)
Beachfront, Madeira, Majuro, Meilin, Paralian	18 (45.8)	6,854 (44,219.3)	4,723 (30,470.9)
Azores, Saterra, Terrestrial, Zishan	18 (45.8)	9,149 (59,025.7)	5,712 (36,851.5)

Virtual Cord™ Size Considerations

Artisan Soft Shades Motorized Lift

Refer to individual price list for specific option and size information for the product being ordered.

Features

- Simple, intuitive control by means of the unique Virtual Cord (included with every shade)
- An optional single channel remote is also available to control shades individually or in a group
- Shades can be conveniently operated from virtually anywhere in the home, up to 65 feet (19.9 m)
- Consistent motor speed regardless of size or weight
- Efficiently manages energy (heat gain and loss)
- A safer alternative to accessible cords that are traditionally used to operate window coverings; ideal for homes with children and pets
- Clean design with an LED operation confirmation
- Push button control on shade end cap provides both a programming function at set-up and shade operation should the control be misplaced
- LED feedback on controls simplify operation and programming
- Quiet, smooth shade operation
- Limit safety protection feature simplifies reprogramming, should it be necessary, while protecting the shade from damage
- Convenient soft-start and soft-end add a touch of class to shade travel
- Low voltage motorization requires no costly electrical hard-wiring
- Powered with batteries, plug-in transformer, or multi-motor power supply
- Motor mounted to the underside of hardwood headrail on right side
- Not available with the following:
 - Balloon pleat
 - Blackout liner
 - Multiple shades on one headrail
- Not available with hold down brackets

Control and Power Options

- Multiple control and power options available; see Virtual Cord options for availability

NOTE: Motorization components and accessories have a five-year limited warranty, excluding batteries.

Soft Shades Size Considerations

Width		Length	
Minimum inches (cm)	Maximum inches (cm)	Minimum inches (cm)	Maximum inches (cm)
24 (61.0)	96 (243.9)	18 (45.8)	120 (304.8)

Motorized Maximum Shade Area in Square Inches

Shade Group	12 Volt Motorized		
	Standard or Water Repellant square inches (cm ²)	Thermal square inches (cm ²)	Flannel-Back square inches (cm ²)
1	6,800 (43,870.9)	6,010 (38,774.1)	5,300 (34,193.5)
2	5,612 (36,206.4)	4,958 (31,987.0)	4,600 (29,677.4)
3	4,758 (30,696.7)	4,338 (27,987.0)	4,000 (25,806.4)
4	3,894 (25,122.5)	3,812 (24,593.5)	3,400 (21,935.4)
5	3,318 (21,406.4)	3,230 (20,838.7)	2,840 (18,322.5)
6	N/A	N/A	N/A

NOTE: Area is ordered width x ordered height in square inches.

EXAMPLE: 60" (152.4 cm) wide x 84" (213.4 cm) high = 5,040 square inches (32,516.1 cm²).

Virtual Cord™ Size Considerations

Mezzanine Layered Shades Motorized Lift

Refer to individual price list for specific option and size information for the product being ordered.

Features

- Simple, intuitive single channel remote control included with every shade
- Additional single channel remotes are also available to control shades in a group
- Shades can be conveniently operated from virtually anywhere in the home, up to 65 feet (19.9 m)
- Consistent motor speed regardless of size or weight
- Efficiently manages energy (heat gain and loss)
- A safer alternative to accessible cords that are traditionally used to operate window coverings; ideal for homes with children and pets
- Clean design with LED operation confirmation
- Push button control on shade end cap provides both a programming function at set-up and shade operation should the control be misplaced
- LED feedback on controls simplify operation and programming
- Quiet, smooth shade operation
- Limit safety protection feature simplifies reprogramming, should it be necessary, while protecting the shade from damage
- Convenient soft-start and soft-end add a touch of class to shade travel
- Low voltage motorization requires no costly electrical hard-wiring
- Powered with batteries, plug-in transformer, or multi-motor power supply
- Motor located on right or left side; standard on the right
- Fabric-wrapped cassette comes standard and creates a cohesive appearance in the window
- Not available with hold down brackets

Control and Power Options

- Multiple control and power options available; see Virtual Cord options for availability

NOTE: Motorization components and accessories have a five-year limited warranty, excluding batteries.

Light Gap

The fabric width is narrower than the finished shade width of the tube and its components. See chart below for light gap.

Motor End		Idle End	
Inside Mount inches (cm)	Outside Mount inches (cm)	Inside Mount inches (cm)	Outside Mount inches (cm)
1 1/16 (2.7)	1 (2.6)	3/4 (2.0)	1 1/16 (1.8)

Layered Shades Size Considerations

Style Name	Maximum Width* inches (cm)	Maximum Height* inches (cm)
Aravalli	96 (243.9)	52 (132.1)
Bernina	96 (243.9)	110 (279.4)
Cordillera	85 (215.9)	75 (190.5)
Crestones	97 (246.4)	84 (213.4)
Culebra	95 (241.3)	110 (279.4)
Glorieta	98 (249.0)	110 (279.4)
Glorieta Sheen	98 (249.0)	110 (279.4)
Herard	97 (246.4)	77 (195.6)
Vanoise	91 (231.2)	95 (241.3)
Venado	85 (215.9)	75 (190.5)

Minimum width: motorized lift 16" (40.7 cm).

Minimum length: 12" (30.5 cm) all control types.

*If the height is shorter than the maximum, a slightly larger width may be available to order. Maximum width is 102" (259.1 cm).

Virtual Cord™ Size Considerations

Overture Sheer Shades Motorized Lift

NOTE: See dual shade section for motorization information.

Seams may be added to fabrics to accommodate long shade requirements. Seams will be placed as close to the tube as possible; seam location is not selectable. Seams are visible when the shade is fully extended.

Virtual Cord™ Size Considerations

This table provides the maximum shade size available by fabric, control type, and valance style. Fabric turned width for height (railroaded) may curl along its edge. This is not a defect in the product.

Only the large cassette valance is available for the dual shade. Small and medium cassette valances are not available.

Seams may be added to fabrics to accommodate long shade requirements. Seams will be placed as close to the tube as possible; seam location is not selectable. Seams are visible when the shade is fully extended.

Virtual Cord™ Size Considerations

This table provides the maximum shade size available by fabric, control type, and valance style. Fabric turned width for height (railroaded) may curl along its edge. This is not a defect in the product.

Only the large cassette valance is available for the dual shade. Small and medium cassette valances are not available.

LightWeaves® Dual Shades Maximum Shade Size

12 Volt Power Considerations

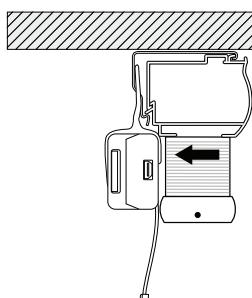

Cellular and Pleated
Battery Consideration

Ceiling/Inside Mount

Outside Mount

Inside Mount

Motors can be powered by batteries, plug-in transformer, or multi-motor power supply. Each shade requires a motor and appropriate power source.

Power Considerations

Larger shades consume more power while operating. When choosing the appropriate power source based upon the shade size we recommend the following power sources for the best performance.

Shade Size square inches (cm^2)	Recommended Power Source
0 – 3,600 (0 – 23,225.8)	Batteries (single or dual), plug-in, or multi-motor power supply
3,600 – 7,200 (23,225.8 – 46,451.5)	Dual battery cases, plug-in, or multi-motor power supply
7,200 (46,451.5)	Plug-in or multi-motor power supply only

Dual battery cases are recommended for larger shades (over 3,600 square inches (23,225.8 cm^2)) to extend battery life.

Transformer power is recommended for larger shades (over 7,200 square inches (46,451.5 cm^2)) to provide the best experience with regular shade operation.

Battery Case Considerations

Battery power recommended for maximum of 10 shades for best battery performance.

Battery cases are installed outside of the product and can be a challenge to hide in some windows.

For Inside Mounts:

- The cleanest and simplest method available for cellular and pleated shades is the integrated battery case hanger; this hanger attaches directly to a shade bracket to support the battery case while allowing the case to be removed for battery changes; additional recessed space will be needed

For Outside Mounts:

- For outside mounts, battery cases can be installed above or to the side of the shade

NOTE: For best performance, use only AA lithium batteries.

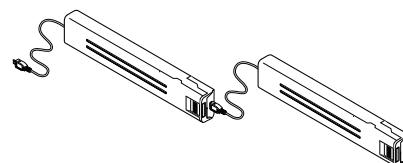

Battery case dimensions:

9 $\frac{1}{4}$ " (23.5 cm) x
1 $\frac{1}{4}$ " (3.2 cm) x $\frac{7}{8}$ " (2.3 cm)

Dual battery cases installed end-to-end: require 21" (53.4 cm) of space (including connectors)

Battery case minimum recessed space (installed with bracket):

product minimum recessed space + $\frac{3}{4}$ " (2.0 cm)

Transformer power recommended for shade systems of any quantity.

DC Plug-in Transformer Considerations

A power outlet must be within cord length to power motor.

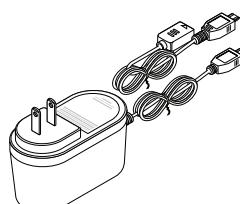

Transformer includes 72" (182.9 cm) power cord and a 96" (243.9 cm) extension cable (power cord and extension cord cannot be cut to length or trimmed).

A transformer is recommended on all shades over 7,200 square inches (46,451.5 cm²).

Transformer dimensions

4" (10.2 cm) wide x 2" (5.1 cm) deep (not including plug) x 1½" (3.9 cm) tall (as you look at the plug in the outlet).

NOTE: Due to the many variations of installations, wire management components are not included with your motorized shade system. There are numerous wire management products available at your local hardware store or home improvement center to help disguise the power cord when using a plug-in transformer. An example of a popular wire management accessory, is wire channel. Wire channel is a vinyl sheathing that can be placed along the window casing or wall that will house and conceal exposed wiring for a clean and professional appearance.

DC Plug-In Transformer

Multi-Motor Power Supply

Multi-Motor Power Supply Considerations

Transformer enclosure is generally mounted in an accessible indoor location such as a basement, utility closet, or garage. Motors are "home run" wired to the panel using 16 gauge wire.

12 Volt: 10-motor power supply available for all Graber® products and includes connectors.

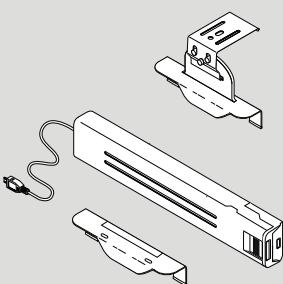

Dimensions: 12" (30.5 cm) wide x 6" (15.3 cm) deep x 12" (30.5 cm) high.

CAUTION: A licensed electrician is required for all line voltage electrical connections. All local and NEC codes must be followed.

Virtual Cord™ Options

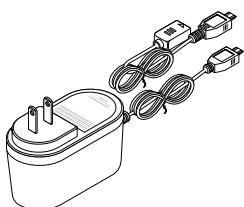

12 Volt Power Components

NOTE: These power supplies are not compatible with Somfy® RTS motors.

Battery Case

- Reloadable: available with or without batteries
- Multiple mounting options provided
- Simple case design allows for easy battery replacement
- Recommend shades greater than 3,600 square inches (23,225.8 cm²) utilize two single battery cases (dual cases) to extend battery life
- Shades exceeding 7,200 square inches (46,451.5 cm²) we recommend a plug-in transformer
- For best performance, use only AA lithium batteries (each case requires 8 AA lithium batteries)
- 48" (122.0 cm) and 96" (243.9 cm) extensions available, maximum of 2 per motor
- Battery power recommended for maximum of 10 shades for best battery performance

Plug-In Transformer

- Eliminates the need for batteries
- Small plug profile
- Cord can be concealed behind curtains or along trim
- 72" (182.9 cm) power cord and 96" (243.9 cm) extension cable (power cord and extension cable cannot be cut to length)
- 48" (122.0 cm) and 96" (243.9 cm) extensions available, maximum of 2 per motor
- We recommend shades greater than 7,200 square inches (46,451.5 cm²) utilize a transformer to eliminate changing batteries frequently
- Available in White only

Transformer Dimensions

- 4" (10.2 cm) wide x 2" (5.1 cm) deep (not including plug) x 1½" (3.8 cm) tall (as you look at the plug in the outlet)
- Wire management components are not included with your motorized shade system
 - Refer to 12 volt power considerations for further details

Multi-Motor Power Supply

- Used when direct wiring the motorized window coverings
- Each motor is "home run" wired back to the multi-motor power supply using 16 gauge 2 conductor wire (must be purchased locally; Graber® does not supply)
- Power supply includes connectors
- Must be mounted indoors, NEMA rated
- Dimensions: 12" (30.5 cm) wide x 6" (15.3 cm) deep x 12" (30.5 cm) high
- 120 volt AC 3.3 amps

12 Volt Motors

- All Graber low voltage: up to 10 motors per power supply

Radio Frequency (RF) Controls

NOTE: These controls are not compatible with Somfy RTS motors.

Virtual Cord (Included with Every Shade Except Mezzanine and Overture Shades)

The Virtual Cord is meant to control an individual shade (one to one). This helps assure simple, reliable control as well as simplifying the process of readjusting pre-set positions should it become necessary—without removing power from adjacent shades. However, the Virtual Cord can be paired to multiple shades to provide group control.

- Not available for sheer or layered shades
- Includes convenient mounting hardware
- Battery included—CR2430
- Available in White

Single Channel Remote (Included with Mezzanine and Overture Shades)

- Used to control single shades or a group of shades simultaneously
- Set and use an intermediate position for your shades
- Includes convenient mounting hardware
- Battery included—CR2430
- Available in White

Single-Channel Remote Decorator Wall Plate Kit (Single-Channel Remote Sold Separate)

- Provides attractive mounting option to match look of existing light switches
- Locates the remote where most convenient for the user
- Helps prevent misplacing of remote when not in use
- Mounts flush to wall with included anchors, no cutting of drywall needed
- Available in White only
