# Features

## Mezzanine Layered Shades

- Dual layers of horizontal fabric segments alternating between sheer and semi-opaque or opaque fabric
- When open and the vanes are aligned, light filters through the sheer fabric
- Shades control the amount of incoming light and the view-through with the shade partially raised or lowered
- Shades block up to 99% of UV rays when closed

Features	Benefits
Continuous-Loop Lift	<ul style="list-style-type: none"> <li>• Cord and clutch system makes raising and lowering shade easy</li> <li>• Cord remains at same length, regardless of shade position</li> <li>• Choose left or right cord location</li> <li>• Color coordinated cords</li> <li>• Choose from six colors of bottomrail</li> </ul>
Motorized Lift	<ul style="list-style-type: none"> <li>• Window treatments can be operated from virtually anywhere in the home</li> <li>• Easily operate hard-to-reach or large window coverings</li> <li>• Operate multiple window treatments simultaneously or individually</li> </ul>
Fabric-Wrapped Cassette	<ul style="list-style-type: none"> <li>• Fabric-wrapped cassette (standard) creates a cohesive appearance in the window</li> </ul>

\*All sheer stripes are 2" (5.1 cm), semi-opaque/opaque stripes vary from 2¾" (7 cm)-3⅝" (8 cm) based on style. See actual samples.

# Features

## Light Control and Privacy

**Sheer:** Allows the most amount of light into the room for a minimum amount of privacy and a view to the outside. Objects in the room can be seen quite clearly through shades.

**Privacy Level:** Moderate.

**Light Filtering\*:** Allows light to gently filter through and provides privacy. Images and shapes may be seen through these shades, but details are not visible. Deep fabric colors provide moderate light control, while light colors provide lower light control. **Privacy Level:** Moderate.

**Room Darkening\*:** Allows some light to filter into the room and provides privacy. Objects in a lit room seen through these shades appear as vague shapes. Deep fabric colors darken a room; light colors filter and diffuse bright sunlight.

**Privacy Level:** Complete.

**Light Gaps:** For optimal light and glare control, outside mount is recommended, or you may add a secondary soft window treatment (drapery or curtain) to hide the light gap on an inside mount. **Privacy Level:** Moderate.

\*These fabrics are translucent and their colors may be influenced by changing light conditions. Colors may appear to vary depending upon the time of day and type of lighting, as well as whether the shade is partially or fully lowered.

# Features

## Fabric Recommendations

Order all shades for the same room at the same time to ensure color consistency and to minimize dye lot variation. For side-by-side layered shades, request stripe alignment. Stripes can be aligned to within ¼" (0.7 cm).

**NOTE:** Shades must be ordered at the same time with the same fabric style and height.

## Light Gap

The fabric width is narrower than the finished shade width of the tube and its components. See chart below for light gap.

Control Type	Control End		Idle End	
	Inside Mount inches (cm)	Outside Mount inches (cm)	Inside Mount inches (cm)	Outside Mount inches (cm)
Continuous Loop Lift	1 ½ (2.9)	1 ½ (2.7)	¾ (2)	1 ½ (1.8)
Motorized Lift	1 ½ (2.7)	1 (2.6)	¾ (2)	1 ½ (1.8)

## Fabric Disclaimers

Due to the nature of the weaving process, some imperfections in the weave are normal. Fabric appearance can vary based on changing light conditions in the room.

## Cleaning and Care Information

Regular light dusting with a feather duster, vacuum with low suction, or a hair dryer on a cool temperature.

## Fabric Certifications

**Oeko-Tex® Standard 100** certifies that our fabrics are free of PVC, halogen, lead, formaldehyde, allergenic dyes, pesticides, phenols, heavy metals, and meet all VOC content limits.

Oeko-Tex is a registered trademark of the Oeko-Tex Association.

# Size Considerations

## Continuous-Loop Lift and Motorized Lift Mounting Depth Illustrations

The following diagram illustrates the mounting depth requirements for shades mounted inside window casements.

**Fabric-Wrapped Cassette**

Minimum Mounting Depth	1 1/8" (3.5 cm)
Minimum Mounting Depth, Flush Mount	3 5/8" (9.3 cm)

# Size Considerations

## Maximum Shade Size

**NOTE:** Shaded areas are available for order.

Minimum width: Continuous-loop lift 12" (30.5 cm)

Motorized lift 16 (40.7 cm)

Minimum length: 12" (30.5 cm) all control types

Minimum width: Continuous-loop lift 12" (30.5 cm)  
 Motorized lift 16" (40.7 cm)

Minimum length: 12" (30.5 cm) all control types

\*If the height is shorter than the maximum, a slightly larger width may be available to order. Max width is 102" (259.1 cm).

# Options

## Shade Options: For Surcharges and Pricing Refer to Pricing Section

Below is a list of options for layered shades. All options are available in all styles and colors. See detailed descriptions on the following pages.

### Control Type Options

- Continuous-loop lift
- Motorized lift (see motorization price list)

### Shade Options—No Charge

- Bay and corner windows
- Cord length (must specify different length)
- Cord location
- Projection brackets 3¼" (8.3 cm) and 4" (10.2 cm)
  - 3¼" (8.3 cm) projection brackets add up to 2½" (5.4 cm) extension from wall
  - 4" (10.2 cm) projection brackets add up to 2⅞" (7.4 cm) extension from wall

### Shade Options—Surcharge

- Motorization (see motorization price list)
- Palladian window shelf (see cornice, valance, and palladian window shelf price list)

## Projection Brackets

- **No charge**
- Available with continuous-loop lift and motorized lift with cassette on outside mounts
- Two sizes: 3¼" (8.3 cm) and 4" (10.2 cm)
- 3¼" (8.3 cm) projection brackets add up to 2½" (5.4 cm) extension from wall
- 4" (10.2 cm) projection brackets add up to 2⅞" (7.4 cm) extension from wall

# Options

## Continuous-Loop Lift

- **Standard**
- Cord loop and clutch system makes raising and lowering shade easy
- Special cord loop length must be requested at time of order
- Cord remains at same length regardless of shade position
- Color coordinated cord loop and cord guide
- Safety cord guide provides the ability to keep the cord out of the reach of children and pets to enhance safety
- Choose left or right cord location
- Outside mount is recommended for maximum light control

**NOTE:** Cord guide must be installed to operate shade.

Inside Mount Light Gap  
Refer to Light Gap Chart

## Motorized Lift

- See motorization price list for additional options and pricing
- In the down position, the shade will be closed
- Allows for easy operation of hard-to-reach or large window coverings
- Efficiently manages energy (heat gain and loss)
- Motorized lift shades are cordless and are a safer choice for homes with children or pets
- Low-voltage motorization requires no costly electrical hardwiring
- Powered with battery, solar power kits, plug-in transformer, or multi-motor power supply
- Motor located on the left or right side, standard on the right

**NOTE:** Motorization components and accessories have a five-year limited warranty, excluding batteries.

# Options

## Corner Windows

Shades on Corner Windows

- **No charge**
- Made as individual shades
- Each shade will have its own control; we recommend opposite corners
- Indicate for each shade whether butt or bypass
- Bypass shade is mounted into the corner; butt shade is butted to the other shade
- Manufacturer will take appropriate deductions for proper fit; **DO NOT** order as a corner shade if you do not want manufacturer to take deductions

### Measuring Information

#### Mounting on a Wall or Molding:

Measure the width of each window from the corner on the mounting surface (molding or wall) to the point you would like to cover.

#### Mounting Above the Molding:

Measure the width of each window from the corner on the mounting surface to the point you would like to cover.

Projection measurement is the distance needed to clear any molding or obstructions that the shade will be mounted above.

**NOTE:** The projection (P) distance is needed to correctly calculate deductions for installations where the shades will use shims or projection brackets to clear molding. All projection distances must match for correct deductions to be calculated.

## Adjacent Shadings

To cover wide window openings, shadings may be installed adjacently so ends of the cassette headrail touch. The gap between the fabric panels of the adjacent shadings varies according to the control placement as shown in the table.

Control Placement for Adjacent Shades			
Control Placement		Gap	
Left Shade Control	Right Shade Control	Continuous-Loop Lift inches (cm)	Motorized Lift inches (cm)
Right	Right	1 $\frac{7}{8}$ (4.8)	1 $\frac{13}{16}$ (4.7)
Left	Left	1 $\frac{7}{8}$ (4.8)	1 $\frac{13}{16}$ (4.7)
Right	Left	2 $\frac{1}{4}$ (5.8)	2 $\frac{1}{8}$ (5.4)
Left	Right	1 $\frac{1}{2}$ (3.9)	1 $\frac{1}{2}$ (3.9)

### Side-by-Side Alignment

Stripe alignment to within  $\frac{1}{4}$ " (.7 cm) is available upon request only for shades ordered at the same time with the same fabric style and height. Add note in special instructions.

# Options

## Bay Windows

Shades on Bay Windows

- **No charge**
- Made as individual shades
- Each section will have its own control
- Manufacturer will take appropriate deductions for proper fit; **DO NOT** order as a bay window shade if you do not want manufacturer to take deductions

### Measuring Information: Three-Sided Bay Window

#### Measure:

##### L and R:

Width of each side window from the corners on the mounting surface to the point you would like to cover.

##### C1:

Width of the center window on the mounting surface from corner to corner.

##### Angle L-C1:

Angle between the (L) and (C1) windows.

##### Angle C1-R:

Angle between the (C1) and (R) windows.

##### Projection:

If needed: the depth of the trim or molding the shade will be mounted above.

### Measuring Information: Four-Sided Bay Window

#### L and R:

Width of each side window from the corners on the mounting surface to the point you would like to cover.

#### C1, C2:

Width of each center window on the mounting surface from corner to corner.

##### Angle L-C1:

Angle between the (L) and (C1) windows.

##### Angle C1-C2:

Angle between the (C1) and (C2) windows.

##### Angle C2-R:

Angle between the (C2) and (R) windows.

##### Projection (P):

If needed: the depth of the trim or molding the shade will be mounted above.

**NOTE:** The projection (P) distance is needed to correctly calculate deductions for installations where the shades will use shims or projection brackets to clear trim or molding. All projection distances must match for correct deductions to be calculated.

For additional windows on bays with up to five sides continue with number progression for center shade sizes (C1, C2, C3, ...) and angles (angle C1-C2, angle C2-C3, ...) as needed.

Measure each bay angle using a protractor or angle finder or use two business cards in each bay corner as illustrated above, trace on paper, and fax to customer service.

**The angle to use between adjacent center bay windows along a straight section of wall is 180° (degrees).**

# General Information

## Continuous-Loop Lift and Motorized Lift

### Shade Operation

Light is controlled with the layers of fabric alternating between sheer and semi-opaque or opaque horizontal fabric stripes.

### Open View

Align the opaque stripes to filter light and provide a view to the outside.

## Continuous-Loop Lift Product Detail
