Features & Benefits

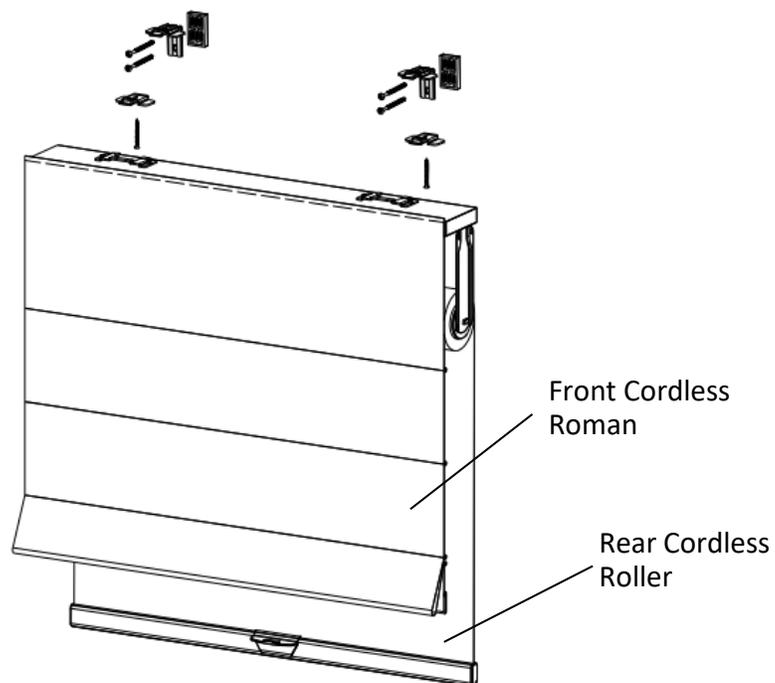

- Customize your view with quality, innovation and versatility that makes it a true icon of style.
- A world of fabrics: Handcrafted from the finest quality fabrics, previously available only through custom draperies, from muted grays, pastels and earth tones, to the luminousness of luxury silk, to the latest in heritage-inspired embroidery and weaves.
- Luxury fold options: Choose Flat Fold or a polished look rooted in simplicity, so perfect it harmonizes with virtually any décor. Or choose Soft Fold featuring a distinctive tear drop contour that adds fullness.
- Light Control: Choose from Translucent or Blackout Lining with any fabric for optimal light and privacy control
- Better insulation: The unique system comes with additional lining, working as an extra layer of insulation for your window.
- Various lift systems: Cordless, Continuous Cord Loop, SmartRelease™ and Motorization
- AeroLite™ Cordless Lift System
 - Patented Technology: AeroLite™ cordless lift system enables easy raising and lowering of the shade with ultra-premium cordless control. When raising and lowering, the lift system delivers a smooth experience that's also quieter and more dependable.
 - Easy and intuitive control: To lower, gently pull the concealed shade handle downward to lock it into place. To raise gently pull the handle downward and let the shade rise automatically to the desired position and lock.
 - Convenient and safe: The cord- free design eliminates unsafe and unsightly cords to ensure optimum child and pet safety.

Shade Styles & Banding Options

Shade Styles

Flat Fold without Seams

- Slight light leakage may be seen through pin holes for select fabrics.
- Not available in the Rochelle collection
- Not available for railroading
- *Exception: AC0401 Sheer Elegance fabric collection

Flat Fold with Batten Back

- Ideal for room darkening solutions

Soft Fold

- Ideal for room darkening solutions
- Not available in Sheer fabrics
- Not available in the Lakeside collection

Shade Banding Options, Flat Fold with Batten Back

Ribbon Banded
Flat Fold with Batten Back

- Available in select fabrics only
- Available in all lift systems
- Not available in Day & Night applications

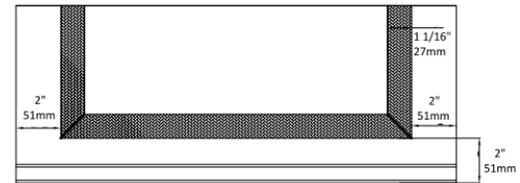

Edge Banded
Flat Fold with Batten Back

- Available in select fabrics only
- Available in all lift systems
- Not available in Day & Night applications

Shade Styles & Banding Options

Ribbon Banded

- Available in all lift systems, except for Day & Night applications.
- Only available in Flat Fold with Batten Back
- Not available in Soft Fold and Flat Fold without Seams
- Not available with Common Valance
- 1 1/16" ribbon decorative tape along the edges at 2"
- **Only available in following fabrics:**

Available Ribbon Banded Roman Fabrics

Fabric	Color Code	Color Name
Taylor AA0305	F0210	Corn Silk White
Ella AB0203	F0177	Linen
	F0178	Java

F0192	Jet Black	F1631	Plum

Shade Styles & Banding Options

Lining Options

All shades must be lined to achieve the desired custom finished look. The two lining options are both white in color with the following transparency options:

- Blackout: 80% Polyester & 20% Cotton
- Translucent: 80% Polyester & 20% Cotton

Note: Effective immediately, the translucent liner fabric has changed in composition but not in color.

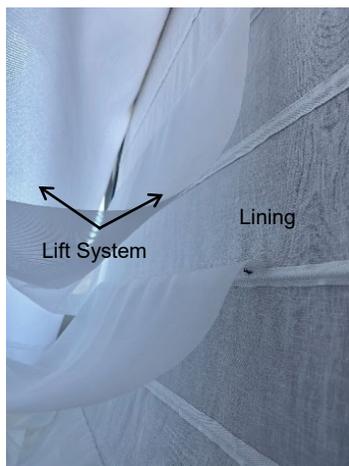

Translucent

Blackout

Lift System

- Please note there is a difference between the lining fabric and Norman®'s innovative lift system fabric. The lining is sewn directly to the back of the shade fabric while the lift system is the outermost fabric that is attached periodically to the lining to lift the shade onto the accompanying roller. This unique lift system eliminates the need for cords, shrouds, rings or grommets providing a cleaner appearance while being inherently child and pet safe.
- The lift system will connect to every other batten.

Railroading & Seaming

Please refer to the [fabric list](#) for railroad and seaming availability for each fabric.

Railroading

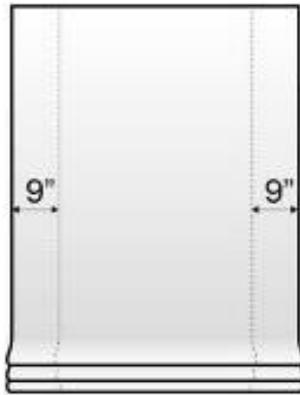

Some fabrics can be turned 90° clockwise (width for height) to accommodate wider windows. Once railroaded, the shade will be horizontally seamed to reach the desired ordered height. Horizontal seams are not as visible as they are made at the battens of a Flat Fold with Batten Back shade and at the sewing lines of a Soft Fold shade.

Exceptions:

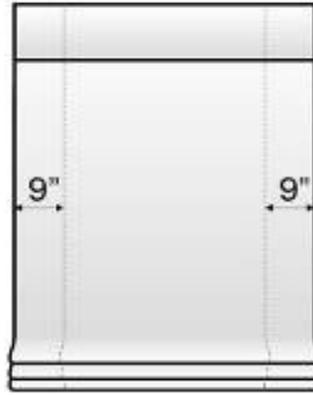

1. Railroading is limited to Flat Fold with Batten Back and Soft Fold only.
2. Horizontal seaming is not available for Black Gingham F0031 in the Lorraine AB0103 collection. Special max shade height for this fabric can be found on the min/max page.
3. Orientation Standard for AC0401 (Sheer Elegance collection): For this fabric only, the railroad orientation will be the Standard. Non-railroaded orientation is still available as an option. With this standard, both orientations are available in Flat Fold with Batten Back and Flat Fold without Seams. [See more info here.](#)

Seaming (Vertical)

- When railroading is not available in select fabrics, vertical fabric panels will be joined together to reach the ordered width.
- The fabric panels on either ends will be a minimum of 9" in width, with the center panel varying in width based on the ordered width. This includes the valance, if a valance is specified.

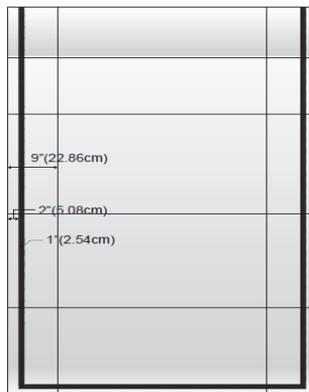

Shade with seams, no valance

Shade with seams with valance

- Note: For fabric AB0203 Ella when Ribbon Banded, shade widths above 55" will be seamed due to the fabric width limitation. The side panels will be 9" on each side, with the center panel varying in width. The ribbon will run 2" along the edges, which will be on the added 9" seam panels.

Centerpiece™ Roman Shades

Size Considerations (Min/Max)

Lift System	Finished Size				Max Area
	Width		Length		
	Min	Max	Min	Max	
AeroLite™ Cordless	20"	96"	24"	96"	40 FT ²
Continuous Cord Loop	12"	50" for 1½" headrail 96" for 2" headrail	24"	96"	33 FT ² for 1½" headrail 64 FT ² for 2" headrail
SmartRelease™	12"	96"	24"	96"	52 FT ²
Cordless Day & Night	20"	96"	24"	96"	40 FT ²
Continuous Cord Loop Day & Night	12"	96"	24"	96"	64 FT ²
SmartRelease™ Day & Night	12"	96"	24"	96"	52 FT ²

**For motorization size considerations, see dedicated motorization specifications.

- All shades must meet the max area limitations.
- Day & Night shades cannot exceed length to width ratio of 3:1, due to telescoping.
- Headrail size:
 - For widths over 50", the 2" headrail will be used.
 - For side by side windows, all shades would be considered large. Therefore, the 2" headrail will be used on all shades.
- **For AC0401 Sheer Elegance fabric in Flat Fold without Seams: The max height for colors in this collection is 96" in the standard railroad orientation. For a max height of 102", please select the optional non-railroad orientation.
- Railroad & Seaming:
 - See the complete [fabric list](#) for max fabric width and railroad & seam availability by the fabric.
 - If no Vertical Seams are desired, please refer to the following shade width limitations.

Max shade width <u>without</u> seams	AeroLite Cordless	Cordless Day/Night	Continuous Cord Loop, Continuous Cord Loop Day & Night, SmartRelease, SmartRelease Day & Night, Motorized, Motorized Day & Night
Flat Fold without Seams	Fabric width – 8 3/8"	Fabric width – 9 1/8"	Fabric width – 5 3/4"
Flat Fold with Batten Back (Sheer fabrics only)	Fabric width – 3 1/2"		
Flat Fold with Batten Back	Fabric width – 1 15/16"		
Soft Fold	Fabric width – 2 7/16"		

- When railroaded, F0031 Black Gingham in the Lorraine collection cannot be seamed horizontally and will be limited to the following max heights.

Fabric Exception	Shade Style	Max Shade Height after Railroaded
F0031 Black Gingham, Lorraine AB0103	Flat Fold with Batten Back	36"
	Soft Fold	26"

General Specifications

Size Definition & Deductions

- Finished Shade Size
 - IB: Ordered Width - 3/8"
 - OB: Ordered Width
- Shade allowance: Width = +/- 1/4"; Length = 0" to + 1/2"
- IB deduction for shades under a common valance:
 - Shade width = order width - 3/16" for each shade

Estimated Fabric Stack Heights & Fold Count

Flat Fold		Soft Fold	
Shade Height	Stack Height	Shade Height	Stack Height
24" to 32 5/16"	10.7"	24" to 28 7/8"	9"
32 3/8" to 44 5/16"	13.1"	29" to 44 7/8"	10.4"
44 3/8" to 70 5/16"	14.9"	45" to 64 7/8"	11.7"
70 3/8" to 102"	16.8"	65" to 102"	13.2"

Soft Fold	
Shade Height	Fold Count
Up to 36"	3.5
36 1/8" to 54"	4.5
54 1/8" to 76"	5.5
76 1/8" to 88"	6.5
88 1/8" to 100"	7.5
100 1/8" to 102"	8.5

Notes:

*The above information is an estimate for reference only. The actual stack height may vary slightly.

**The max. shade drop is 102" for Motorized Roman shades; and 96" for all other systems.

Continuous Cord Loop & SmartRelease™ Chain

- Chain options:
 - Standard:** Plastic chain
Colors: White, Cottage White, Black
 - Optional:** Stainless Steel

Chain Length	Order Height (Y)	Continuous Cord Loop		SmartRelease™	
		Plastic Chain	Stainless Steel	Plastic Chain	Stainless Steel
Default Length	12" $Y \leq 30"$	Order height - 3"		16"	16"
	30" $Y \leq 42"$			24"	24"
	42" $Y \leq 54"$			36"	36"
	54" $Y \leq 66"$			48"	48"
	66" $Y \leq 90"$			60"	60"
Optional Length	Y > 90"	Custom length available: Default length ~ 130"		84"	84"
	All order heights			The above lengths are available as an option. Custom length not available.	Custom length available: 12" ~ 130".

- Chain length is measured from the top of the headrail to the bottom of the tension device.
- Chain length tolerance: 0 ~ +1 9/16"

- Color Coordination for Continuous Cord Loop and SmartRelease™:

	Chain Type	Chain Color	Clutch	Safety Tension Device (SmartRelease)	Safety Tension Device (CCL)
Default	Plastic	White	Matches chain color	Matches chain color	Clear

	Flush IB	2 15/16"	

Day & Night Shades

- Available in all lift systems: Cordless, Continuous Cord loop, SmartRelease™ and Motorization
- Fabric options:
 - Front shade: select any current fabric from the Roman Shade Fabric Collection
 - Rear shade: select any current Soluna™ Roller shade fabric collection, except for the following:
 - Not available in A400 (1%), A400 (3%), Aruba, Bali Maui Natural, and Samoa fabric collections

[See complete roller fabric availability](#)

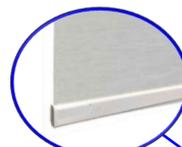

Hem Bar Options (For Rear Roller Shades):

Choose from a Plain bottom rail (Standard), or a Fabric-Wrapped bottom rail (Optional).

Plain Hem Bar

Back of the hem bar is not fabric-wrapped.

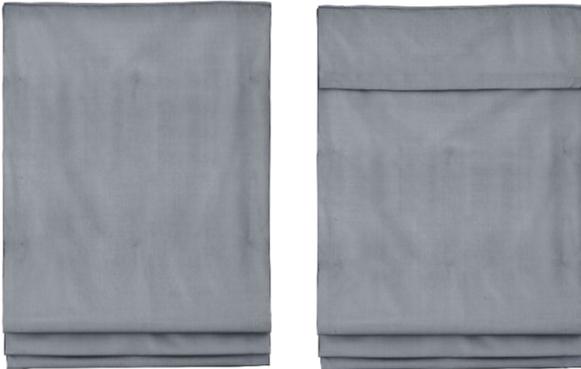

Fabric-wrapped Hem Bar

Valance & Valance Return Options

- No Valance (Standard)
- Valance (Optional)

(Flat Fold)

No Valance

Valance

(Soft Fold)

No Valance

Valance*

Valance Height:

- **Flat fold styles:** varies depending on the shade height (see chart)
- ***Soft fold style:** standard height; same height as the first fold

Shade Height	Valance Height
24" to 36"	6" to 7.6"
36 1/8" to 48"	6.8" to 8"
48 1/8" to 60"	7.7" to 8.6"
60 1/8" to 73"	8.2" to 9.3"
73 1/8" to 88"	8.7" to 9.8"
88 1/8" to 102"	8.7" to 9.6"

Note: Applies to Flat Fold only

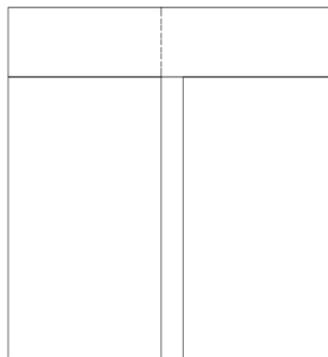

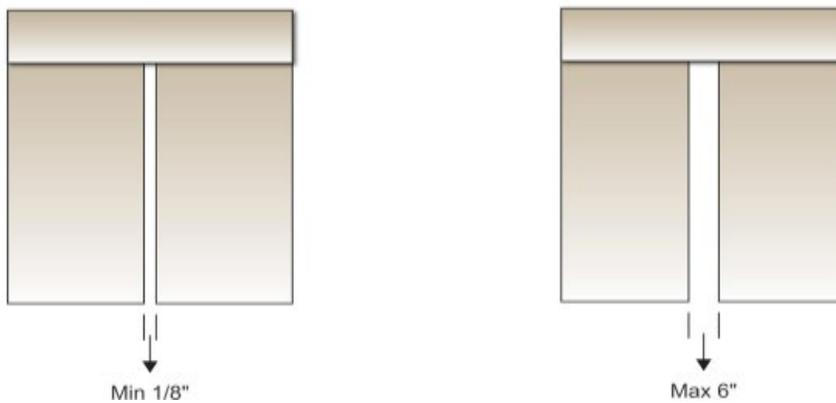

Valance & Valance Return Options				
Default	Optional			
IM & OM	Inside Mount		Outside Mount	
 <p>- No Valance - No Returns</p>	 <p>- Valance - No Valance Returns</p>	 <p>- Valance - Wrapped returns</p>	 <p>- No Valance - Wrapped Returns</p>	 <p>- Valance - Pleated returns</p>

*Side by Side: In order to match Side by Side shades, all shades must have the same valance and valance return type selected.

Valance & Valance Return Options

Common Valance

- 2 headrails under a shared valance
- Both shades must have the same height
- Minimum gap of 1/8" between shades. A maximum gap of 6" can be requested.
- Overall max width: 144"
- For Single shades only; Not available with Day & Night Shades
- Not available for shades with banding options (Ribbon Banding and Edge Banding)

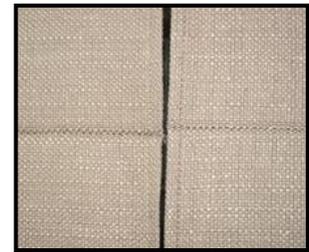

Seamed Valance

Note: When the valance width exceeds the fabric width, the valance will be seamed along the edge of the left shade.

Side By Side Roman Shades

Side by Side shades will match the batten seams, starting from the top of the shades and continuing down to the bottom of the shortest shade within the order*. Must be ordered at the same time, and the following criteria must be identical in:

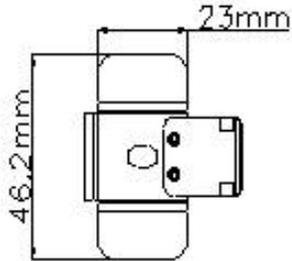

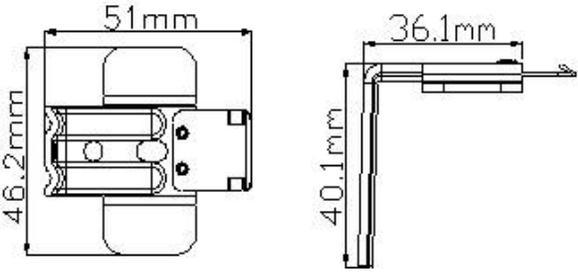

- **Room**
 - **Lift system**
 - **Mount type**
 - **Shade style & shade banding style**
 - **Fabric color**
 - **Fabric lining option**
 - **Fabric orientation** (applies to AC0401 fabric only)
 - **Valance type & valance return type**
- For Soft Fold and Flat Fold with Batten Back shades only; Side by Side not available for Flat Fold without Seams.
 - Side by side seam alignment will be within a 1/8" tolerance.
 - Battens are not guaranteed to align without Side by Side is selected.
 - If the side by side option is not selected, even if order details are identical/or if ordered at different times, the tolerance is 7/16".

*Example: If multiple shades as a side by side have different order heights, the battens will align up to the end of the shortest shade. Subsequently, the remaining length on the longer shades would be adjusted within the last 1-2 panels. This means when the shades are fully raised, fabric stacks may appear slightly different.

Hardware & Accessories

Bracket Dimensions

<p>Bracket for Inside Mount</p>	
<p>Bracket for Outside Mount</p>	

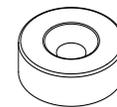

Magnetic Hold-Down

- Available for OM shades
- The magnet catch, which needs to be installed at the job site, can be found in the hardware box.
- For Single Roman Shades (right), the magnet will be pre-installed at the factory on the bottom backside of the shade.
- For Day & Night Roman Shades (left), the magnet will be pre-installed at the factory on the back of the hem bar of the back roller shade.
- Not recommended for metal door applications

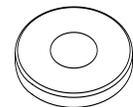

Available colors for Magnet Catch

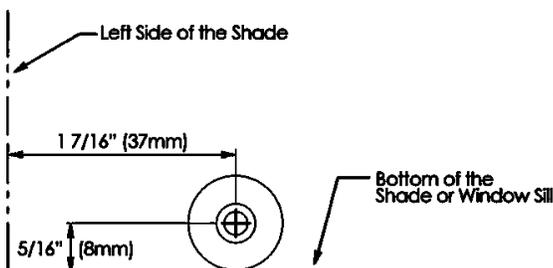

- **Default:** Nickel-Plated
- **Optional:** Pure White, Silk White, Bisque, Pearl, Bright Brass, Antique Brass, Black, Crisp Linen, String, Sea Mist, Stone Gray, Brown Gray, Taupe Gray

Magnet

Magnet Catch

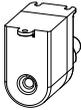

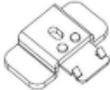

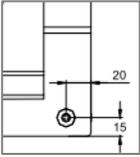

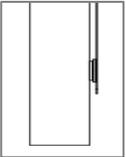

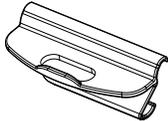

Allow extra wall space for installation of the magnet catch:

- 1 7/16" from the side edge of the shade
- 5/16" from the bottom edge of the shade or window sill

Fabric List

Roman Fabric Notes:

1. When selecting sheer fabrics, blackout lining is recommended for AeroLite Cordless, Continuous cord loop, Motorization, and Day & Night. Translucent lining can be specified as an option- when specified as such, the concealment flap will be lined with blackout lining.
2. Fabric by the yard is available for Roman fabrics. (Max 10 yards) Please refer to the appendix in the Retail Guide for pricing.
3. 100% silk fabrics (Rochelle collection) are not available in Flat Fold without Seams.
4. Sheer fabrics are not available in Soft Fold shades.
5. The Lakeside Collection is not available in Soft Fold shades.

**** For MA and CA states only:** All Commercial Solar Screen fabrics are not available in the state of Massachusetts (MA) and California (CA) because the fabric may contain flame retardant chemicals banned by the new Massachusetts law and CA Prop 65.

Fabric Information & Additional Options

Please note that all fabrics will adjust to the environment, and the environmental changes. These adjustments may include color fading, fabric stretching, fabric shrinkage, or other damages.

Color Variation

- Natural fabrics especially linen, cotton and silk are made from natural materials. Color lot variations may occur to fabrics due to varying rates of color absorption during the color application process. Slight imperfections and variations in color are all part of the natural beauty of this product and should be considered to be normal and acceptable.
- Colors may appear to vary depending on the time of day and lighting type under which the product is observed. The appearance of color variation may also occur if the shade is partially or fully lowered.
- All fabric colors gradually fade due to UV exposure. If a shade is left half open for a long time without being fully lowered regularly, the fabrics will fade unevenly. Fabrics will fade more evenly if shades are lowered during the day. Naturally, parts of the shades that are overlapped by another piece of fabric will not receive as much sun exposure, and thus the rate in which it fades will be slower than those parts that are more exposed.
- For the best color match, order all matching shades for a room at the same time. Pattern availability and color lot match between orders cannot be assured. Any variation in color is in accordance with industry standards.
- Light will penetrate through the pin holes of seams/stitching.
- Actual fabric colors may vary slightly from the images we provide.

Wrinkles

- Natural fibers, such as linen, cotton and silk, are fairly inelastic, tend to have wrinkles, and are prone to shrinkage. The tendency to wrinkle is often considered as part of the fabric's unique characteristic. If your Roman shades are wrinkled, hang the shade in a fully lowered position for a few days. It will help minimize the wrinkles, allowing them to usually disappear naturally.
- Disclaimer: Ironing fabrics labeled *Do Not Iron* may damage the fabric and will void the warranty.

Surface Imperfections

- Due to the nature of fibers and the weaving process, some "imperfections" such as slubs in the weave are normal and are not considered to be defects. Slubs in silk, linen and cotton are expected for their unique and natural beauty, and should not be considered to be defects.
- Imperfections on fabrics in longer lengths may occur. These are caused by the weaving process.
- There is a maximum of 10 yards for fabric by the yard as surface imperfections in longer lengths may occur. These imperfections will be marked with a label.

Asymmetry

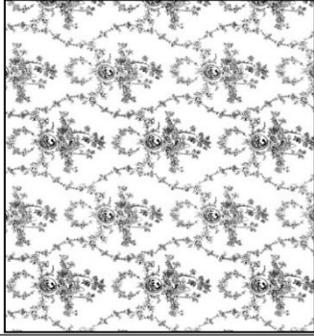

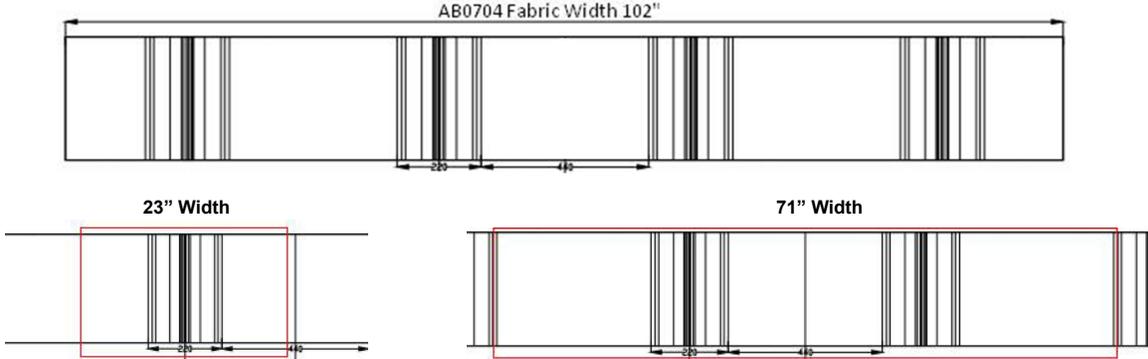

- Due to the natural characteristics of fabrics, slight shrinkage and stretching may occur. Variations in size and shape of the shade are to be expected and deemed acceptable. These variations may cause slight asymmetry and may alter the appearance of the finished shade.
- Specifically, you may notice a slight variation in width and/or length on one of the shades compared to what was ordered. Even with shrinkage control in the manufacturing process, most linen, cotton, and silk fabrics tend to shrink during or after production. Thus, the width and length of the shade may have changed slightly after the shade has been in operation for some time. Washing the shade can further intensify this shrinkage.
- Width and length difference between different shades may occur due to fabric shrinkage and manufacturer tolerance. Thus the length of the shade and the segment height between two shades would be different, even if the shades were ordered as the same size.
- After the Roman shade has been installed, the weight of the fabric, the size of the shade and environmental factors can all affect the extent to which a shade will settle. Since this process is somewhat unpredictable, the final drop of the shade may vary by up to +/- 10mm. The shades may take 1 to 2 weeks of hanging to allow the fabric to drop to the required length.
- Weave skewing of fabrics is common during the weaving process. Pattern asymmetry can occur on patterned fabrics, where the pattern on the right side of the shade may not match up with the left.

Fabric Information & Additional Options

Pattern Alignment

- Pattern alignment cannot be guaranteed from one shade to the next. All patterns are oriented differently on the fabric roll. The pattern alignment also depends on where the fabric has been cut on the roll.
- Patterned fabric will not be railroaded.
- Patterns on shades and valances may not be perfectly straight. Slight biases may occur.

Complete Fabric Patterns

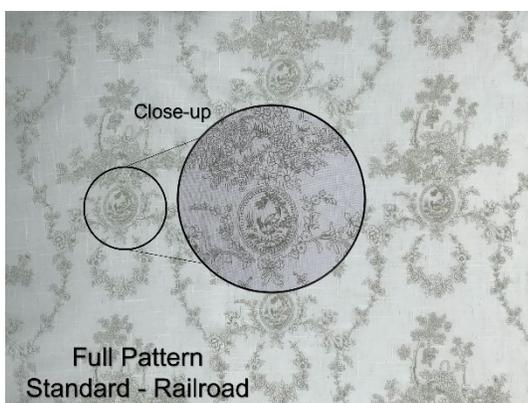

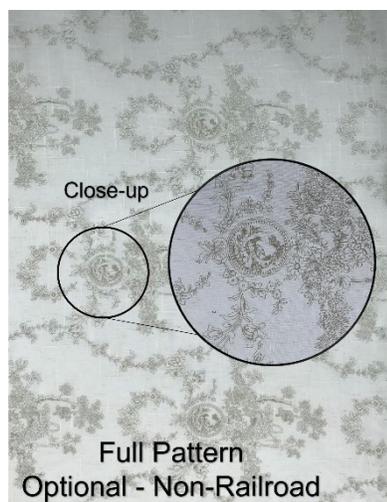

Fabric	Full Fabric Pattern	Fabric	Full Fabric Pattern
<p>Patterns, AB0637</p> <p>F1080 Snow White F1081 Field Drab F1101 Moss Green</p>		<p>Sheer Elegance, AC0401</p> <p>F1082 Corn White F1083 Sea Green</p> <p>(Cont. on next page)</p>	
<p>Sheer Elegance, AC0402</p> <p>F1084 Dim Gray</p>		<p>Sheer Elegance, AC0402</p> <p>F1085 Dim Ecru</p>	
<p>Libeco, AB0704</p> <p>F1061 Sag Harbor 0006</p>	 <p>For Sag Harbor, the complete fabric width is 106" and the complete pattern repeat is about 26". The pattern is always kept centered for all shade widths but the patterns will align depending on the width of the shade. See below examples at around 23" & 71" in width.</p>  <p>AB0704 Fabric Width 102"</p> <p>23" Width</p> <p>71" Width</p>		

Fabric Information & Additional Options

AC0401 Sheer Elegance Collection, Fabric Orientation

- For the AC0401 Sheer collection (F1082 Corn White and F1083 Sea Green), the standard orientation has changed. Railroad orientation is **standard** and non-railroad orientation is **optional**. Below is a full pattern and close-up view of the fabric pattern based on the orientation.
- Note that the standard railroad orientation will have a max height of 96" for Motorized applications in Flat Fold without Seams. For 102" max height, select optional non-railroad orientation.

Fabric	System	Style	Max Height – Non-Railroad: Optional	Max Height – Railroad: Standard
AC0401 F1082 Corn White F1083 Sea Green	Motorized	Flat Fold without Seams	102"	96"
	Motorized D&N	Flat Fold with Batten Back	102"	102"
	All other lift systems	Flat Fold without Seams	96"	96"
		Flat Fold with Batten Back		

AB0635 and AB0636 Patterns Collection, Standard Pattern & Reverse Pattern Options

- The following color options are available to be ordered in the reverse fabric pattern (opposite side of swatch).
- Exclusions: Not available for decorative pillow covers.

Collection Name	Fabric Code	Color Code	Color Name
Patterns	AB0635	F1073	Sky Blue
		F1075	Cadet Gray
		F1072	Olive Green
		F1074	Camel
	AB0636	F1076	Cosmic Latte
		F1078	Ash Gray
		F1079	Dark Cerulean
		F1077	Charcoal

Pattern	Color							
	Sky Blue	Cadet Gray	Olive Green	Camel	Cosmic Latte	Ash Gray	Dark Cerulean	Charcoal
Standard Pattern (Default)								
Reverse Pattern (Optional)								

Decorative Pillow Options

The Roman Shade fabric collection is available as decorative pillows covers on to complete in look.

- Select a pillow cover color from the current available Roman fabrics (few fabric exclusions apply).
- Available for in various sizes as Square or Lumbar pillows.
 - Note: Recommended applicable pillow insert size is not the same size as the cover (order) size itself.
- Select a style:
 - Knife Edge
 - Piping

Available Sizes

Square		Lumbar	
Pillow Cover Size	Applicable Pillow Insert	Pillow Cover Size	Applicable Pillow Insert
14"x14"	16"x16"	10"x14"	12"x16"
16"x16"	18"x18"	10"x16"	12"x18"
18"x18"	20"x20"	10"x18"	12"x20"
20"x20"	22"x22"	12"x22"	14"x24"
24"x24"	26"x26"	14"x24"	16"x26"
		14"x18"	16"x20"

Styles

Knife Edge

Piping

Fabric Exclusions

Available in all Roman fabrics except for the following:

- All Sheer Fabrics: Sheer Elegance AC0401, AC0402, & AB0665 Collections
- Blake AA0215 Collection
- Patterns AB0635 and AB0636 in Reverse Pattern option. The standard pattern option is available for decorative pillow covers.

Roman Shades

Routine cleaning will help maintain the beauty of your shade.

Proper ways to clean Roman Shades:

- Use a hand held vacuum to remove debris
- Use a duster to remove any light dust
- Spot clean by using a soft cloth or sponge moistened with lukewarm water. Add mild detergent, if needed. Blot gently to avoid creasing or damaging the fabric. Rubbing can damage the fabric.

Proper ironing for Roman Shades:

- Iron low to medium, if necessary
- Do not iron fabrics that are 100% silk, 100% linen/cotton blend, or 100% cotton, or have Translucent Lining
- For specific ironing instructions for each fabric, please refer to the Fabric Collection chart.
