Blind Features: Vertical Blinds

- Choose from a variety of fabric, crown or S-shaped vinyl louvers
- S-shaped louvers feature a rolling drapery look
- Fabric louvers can be free hanging or inserted into channel panel for more light control and privacy
- Many vinyl styles coordinate with Graber® 2" Vinyl Horizontal Blinds
- Several fabric styles coordinate with Graber FashionPleat®, Fresco® Roman, or LightWeaves® Solar and Roller shades

Ø Oeko-Tex fabric (see page 3)

Δ Greenguard fabric (see page 3)

FR Flame resistant NFPA 701 (see page 3)

FH Free hanging fabric

INS Fabric inserted into channel panel

LF = Light filtering

RD = Room darkening

Blind Features: Sheer Verticals

Sheer Vertical blinds combine the soft look of sheer fabric draperies and the light control benefits of vinyl vertical blinds. When the louvers are open, softly diffused light streams into the room through sheer fabric for minimal privacy and light control; when closed, light is blocked from entering the room to provide maximum privacy and light control. Not only for patio doors, Sheer Vertical also looks beautiful on wider or uniquely shaped windows. Plus, Sheer Vertical fabrics are easily removed and machine washable.

- Fabric easily installed and removed - no need to take down entire blind
- Easily replace original fabric with different style or color when décor changes
- Fabric is machine washable
- Color-coordinated thread for a finished appearance
- Heavy-duty aluminum headrail with steel pantograph system ensures smooth operation, and proportional spacing of louvers
- Available as both inside and outside mount
- Cord and chain control only
- Stems are removable for easy replacement in the home

STYLES, FABRIC CONTENT AND LIGHT CONTROL

COLLECTION	PRICE CHART	FABRIC CONTENT	LIGHT CONTROL	Free Hang or Insert
SHEER VERTICAL				
Batiste	A	100% Polyester	Sheer to Room Darkening	FH
Dijon	B	100% Polyester	Sheer to Room Darkening	FH
Florence	B	100% Polyester	Sheer to Room Darkening	FH
Voile	A	100% Polyester	Sheer to Room Darkening	FH

LIGHT CONTROL LEVELS

Light Filtering: Light is filtered to varying degrees depending on fabric style and color; silhouettes of objects and people are visible through the shade.

Openness: The amount of UV ray blockage is the inverse of a fabric's openness factor (i.e., a fabric with 5% openness blocks 95% of UV rays).

Room Darkening: Light is substantially blocked; vague shadows of objects or people may be visible; maximum room darkening is achieved with darker colors.

OEKO-TEX STANDARD 100 CERTIFIED FABRICS

Oeko-Tex Standard 100 certifies that our fabrics are free of PVC, halogen, lead, formaldehyde, allergenic dyes, pesticides, phenols, heavy metals and meet all VOC content limits.

GREENGUARD INDOOR AIR QUALITY CERTIFIED® FABRICS

Many Graber fabrics have been certified by GREENGUARD Environmental Institute (GEI) to be low chemical and particle emitting fabrics, providing a healthier indoor air quality. The process used for certification complies with established indoor air quality standards and is performed by a third party lab.

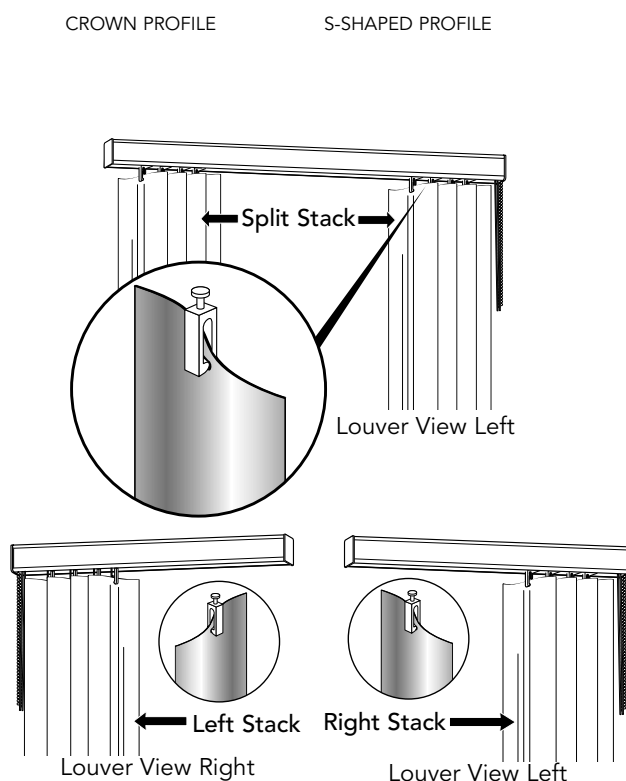

NFPA 701

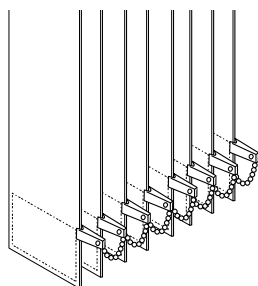

NFPA 701 Flame resistance test is the standard method of fire tests for flame propagation of textiles and films by the National Fire Protection Agency.

Blind Features: Vertical Blinds

LOUVER FEATURES

Louver view: Side the color or texture is facing when louvers are rotated open so you can see through the louvers to the street.

**FREE HANGING FABRIC WITH
BOTTOM CHAIN AND CLIPS**

**LOUVER MATERIAL
INSERTED IN
CHANNEL PANEL**

Vinyl Styles

- All vinyl louvers offer value, durability, easy cleaning and superior light control.
- Choose from embossed crown, smooth crown or S-shaped embossed vinyl louvers.
- Embossed textures offered in solids or prints with the look of jacquard or linen fabrics, wood or stucco.
- Coordinating 2" Horizontal Vinyl blinds available for many styles. For pricing on 2" Horizontal Vinyl, see the Graber® 2" Horizontal Vinyl Price List

Vinyl Crown Louvers

- Traditional curved louvers.

Vinyl S-shaped Louvers

- Provide a more drapery like look to your vertical blind.
- Provide better closure for more light control and privacy.
- Valances are made with Crown PVC of the same texture and color. Dye lot cannot be guaranteed.
- S-Shaped louvers are NOT reversible. Louver View shows which side the color/texture is facing when louvers are rotated open so you can see out the window.
 - Right Stack and Split Stack – Left
 - Left Stack – Right
- You may choose a louver view other than the recommended if you are concerned about which side of the louver you will see when blinds are rotated open.
- For Paired, Bay and Corner Blinds, the same Louver View is recommended for all blinds.

See illustrations on how S-shaped louvers will hang.

Fabric Louvers

- Designer fabric louver styles range from sheer to room darkening in a variety of weaves and materials
- Free-hanging louvers come with sewn-in bottom weights and optional chain and clips.
- For increased privacy and room darkening, fabric louvers can be inserted into Channel Panels. The clear edge channels hold fabric securely and will not yellow over time. The opaque vinyl louvers provide additional privacy and light control. See Price Chart G for replacement pricing.
- Coordinating Graber Pleated, Roman, Solar and Roller shade fabric and Graber Sliding Panels are available for selected styles.
- Available in 3½" fabric styles.

Additional Information

1. Due to the nature of louver materials (both fabric and vinyl prints), colors may vary slightly from dye lot to dye lot. Exact matches cannot be guaranteed.
2. Due to the random design of some louver patterns, exact alignment of the pattern across the blind is not possible.

Size Considerations

SIZE CONSIDERATIONS: VERTICAL BLINDS

	WIDTH			HEIGHT	
	Min Single Stack	Min Split Stack	Max	Min	Max
G-71 Super-Vue®	9"	12"	191"	12"	192"
G-98 Ultra-Vue™	9"	17"	191"	12"	192"
G-85 Dura-Vue®	9"	12"	178¾"	12"	144"
One Touch®	9"	N/A	144"	12"	96"

One Touch Control: 10,080 sq. in. maximum overall size

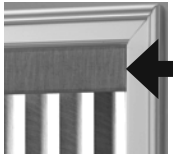

Minimum wand length is 33"

Factory Deductions

Mount	Mount Bracket Location	Valance	Height Deduction G-71	Height Deduction G-98	Height Deduction G-85

Inside	Ceiling or Top	No	⅝"	½"	½"
Inside	Ceiling or Top	Yes	¾"	⅝"	½"
Inside	Wall or Back	No	1⅛"	⅞"	⅞"
Inside	Wall or Back	Yes	1⅞"	1⅞"	1⅞"

Mount	Width Deductions
Outside	0"
Inside	¼"

DEPTH REQUIREMENTS FOR INSIDE MOUNT

	Headrail Dimensions	 Partially recessed headrail in window casing/ molding Minimum Depth Mount	Headrail Flush with Casing (Louvers and/or Valance not flush with casing)	Depth needed for Flush Mount Louver	 Fully recessed valance in window casing/ molding Depth needed for Flush Mount Louver
G-71 Super-Vue	1⅝" x 1⅝"	2⅝"	3"	3¾"	4⅝"
G-98 Ultra-Vue	1⅝" x 1⅝"		2⅞"		
G-85 Dura-Vue	1⅝" x 1½"		2¾"		

SIZE CONSIDERATIONS: SHEER VERTICALS

	WIDTH		HEIGHT	
	Min	Max	Min	Max
Sheer Verticals	17"	191"	19"	104"

DEPTH REQUIREMENTS FOR INSIDE MOUNT

 Minimum Depth Partially recessed Mount	 Depth needed for Flush Mount Headrail	 Depth needed for Flush Mount Louver	 Depth needed for Flush Mount Valance
3⅞"	4⅞"	5⅞"	7"

Partially Recessed: A partially recessed window treatment is where the depth of the window casing is less than the space necessary for a flush mount.

Flush Mount: If the window casing is deep enough to mount the entire blind inside of it, this is called a flush mount.

Blind Options

BLIND OPTIONS: FOR SURCHARGES AND PRICING REFER TO PRICING SECTION

The following is a list of options for Vertical and Sheer Vertical Blinds. All options are available in all styles and colors. Limitations will be based on fabric width. See detailed descriptions on the following pages.

VERTICAL BLINDS

Control Type Options – No Charge

- Standard Cord and Chain Controls
- One Touch® Control

Shade Options – No Charge

- Bay and Corner Windows
- Paired Blinds
- Projection Bracket: 4 $\frac{3}{8}$ "
- Stay Clear™ Channel Panels

Shade Options – Surcharge

- Bottom Chain & Clips (Fabric)
- Bottom Chain (Vinyl)
- Cut-outs
- Round-corner Valance
- Double Round-corner Valance
- Square-corner Valance
- Wood Cornices and Valances (see Cornices and Valance tab)

Specialty Shade Options: see Options Pricing for pricing and/or surcharges

- Angled Top
- Curved Headrail

SHEER VERTICAL BLINDS

Control Type Options – No Charge

- Standard Cord and Chain Controls

Shade Options – No Charge

- Bay and Corner Windows
- Dauphine® Valance
- Paired Blinds

Shade Options – Surcharge

- Wood Cornices and Valances (see Cornices and Valance tab)

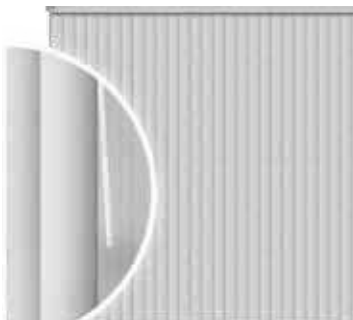

Blind Options

VERTICAL BLINDS: CONTROL OPTIONS

• Cord and Chain – Standard

- **No charge**
- Cord controls louver traverse
- Chain controls louver rotation

• One Touch® Wand Control

- **No charge**
- A slender wand controls louver rotation and traversing
- Simple, convenient, safe (no cords and chains)
- Recommended for homes with children or pets
- Available with single stack only; no split stack or opposite stack
- Wand is always attached to leading louver

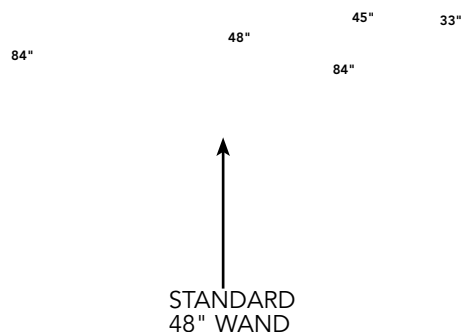

WIDTH		HEIGHT	
Minimum	Maximum	Minimum	Maximum
9"	144"	12"*	96"
Maximum overall size: 10,080 sq. in. (w x h)			

Wand Sizes

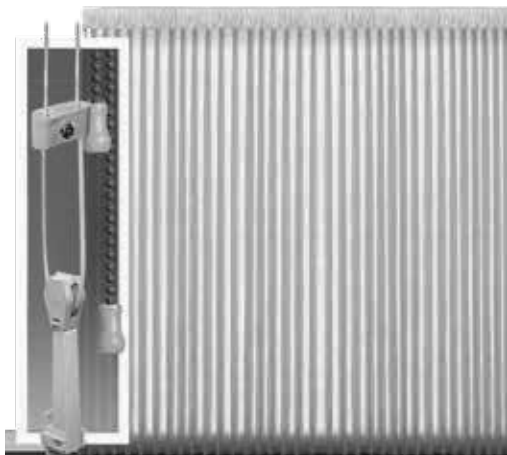

Keep in mind that the wand length is determined by the **finished blind height**. If the vertical blind covers a patio door or the bottom of the vertical blind reaches the floor, the following chart indicates wand length. If the headrail distance from the floor is greater than 77" or there is any furniture in front of the blind, specify a 48" or 60" wand for easy accessibility.

Blind Height	Wand Height
77" or less*	33"
77½" to 92"	48"
92½" to 114"	60"

*If blind is less than 35", wand will be longer than louvers. The standard cord and chain control is recommended.

SHEER VERTICAL BLINDS: CONTROLS

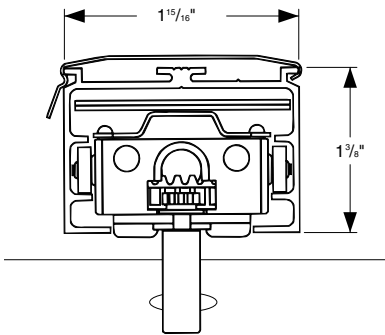

• Cord and Chain – Standard

- **No charge**
- Cord controls louver traverse
- Chain controls louver rotation

Blind Options

VERTICAL BLINDS: HEADRAIL SYSTEM OPTIONS

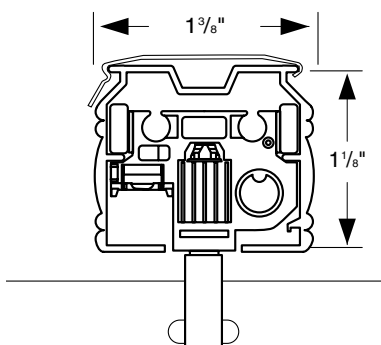

G-71 SUPER-VUE

G-71 Super-Vue®

The top-of-the-line G-71 Super-Vue features the patented pantograph traversing system to assure proportional spacing of louvers when closed. G-71 Super-Vue is available in a smooth, anodized aluminum channel. Ball bearing pulleys in the control mechanism and thermoplastic self-lubricating wheels on every carriage allow for smooth traversing louvers. Clear stems provide a sleek appearance with both fabrics and vinyl louvers. E-Z Open, available only on the G-71 headrail, automatically rotates the louvers when the cord is pulled to traverse the blind.

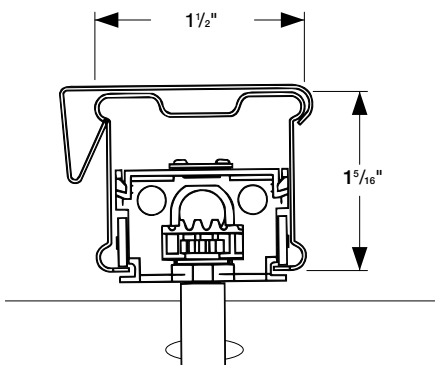

G-98 ULTRA-VUE

G-98 Ultra-Vue™

The anodized aluminum Ultra-Vue headrail system traverses louvers smoothly through the consecutive action of stainless steel pick-up tails. Ultra-Vue carriers are wheeled for smooth traversing and are self-aligning.

G-85 DURA-VUE

G-85 Dura-Vue®

Dura-Vue headrails traverse louvers smoothly with a thermoplastic strap system. Dura-Vue steel headrail is offered in an ivory painted finish. Dura-Vue carriers are wheeled for smooth traversing.

The design of all Graber® headrails allows for reversible installation, providing versatile placement of controls on either the left or right.

Blind Options

VERTICALS AND SHEER VERTICAL BLINDS: STACKING OPTIONS

Split Stack
Left Controls
(Right controls
available)

Left Stack
Same Side
Stack and
Controls

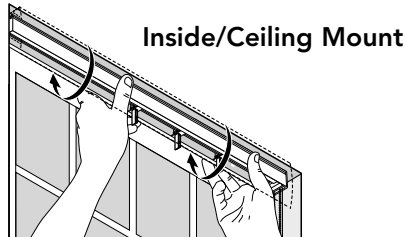

Right Stack
Same Side
Stack and
Controls

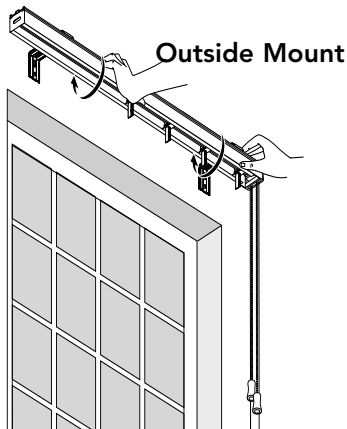

Opposite Stack
and Controls

VERTICALS ONLY: There is a surcharge for Center/Uneven Stack and Opposite Stack.
Center/Uneven Stack available on G-71 Super-Vue® Headrails for blinds with louvers only.

VERTICALS AND SHEER VERTICAL BLINDS: INSTALLATION TYPES

Inside/Ceiling Mount

Outside Mount

1. Inside Mount – Ceiling or Top of Window Frame (Standard)

Manufacturing height deduction is taken for blinds being installed as inside, ceiling mount with or without a valance.

2. Inside Mount – Wall or Back of Window Frame

Manufacturing height deduction is taken for blinds being installed as inside mount using the L-bracket for a wall mount. An additional manufacturing height deduction is taken if a valance is included, to accommodate the height of the Dauphine Valance bracket.

3. Outside Mount – Wall or Back (Standard)

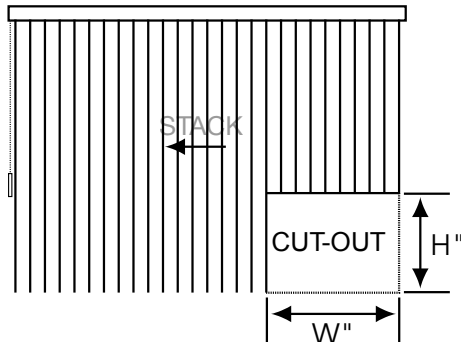

No manufacturing height deduction is taken.

4. Outside Mount – Ceiling or Top (Option)

No manufacturing height deduction taken.

Blind Options

VERTICAL BLINDS: CUT-OUT BLINDS

- For surcharges, see **Options Pricing**
- Order when air conditioner, heating register or other object would interfere with louvers
- Blind must stack away from cut-out area
- Specify size and base price by maximum width and height of blind
- Submit drawing to identify size and location of cut-out (see example)
- Minimum cut-out width 3½"
- Cut-out must be a full louver width (3½"); therefore may be wider than ordered
- Not available with bottom chain

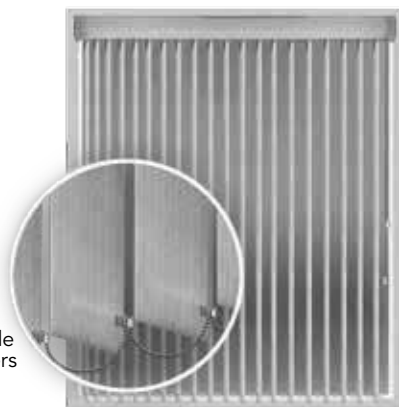

VERTICAL BLINDS: BOTTOM CHAIN

**BOTTOM CHAIN
VINYL LOUVERS**
Must be requested at time of order.

- For surcharges, see **Options Pricing**
- Optional, must be requested at time of order
- Not available with Channel Panel, S-shaped Louvers, Angle Top or Cut-out blinds

Louver Style	Standard/Option	Description
Fabric	Standard	3-sided sewn-in weight
	Option	Single nickel-plated chain at back of louvers with clips
Vinyl	Standard	No bottom chain
	Option	Single nickel-plated chain in the middle of the louvers
Channel Panel	Standard	No bottom weights or chain

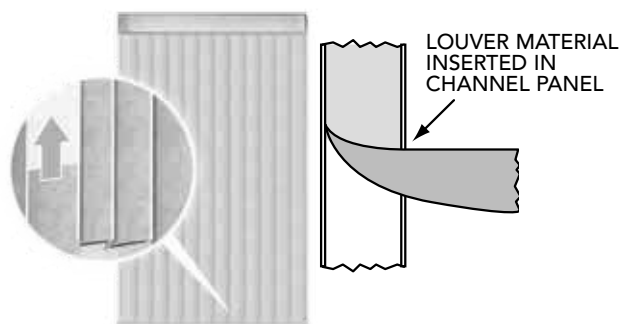

Back side
of louvers
shown

**BOTTOM CHAIN AND CLIP
FABRIC LOUVERS**
Free hang only.

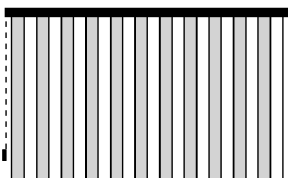

Blind Options

VERTICAL BLINDS: STAY CLEAR™ CHANNEL PANEL FOR FABRIC LOUVERS

- Use "Insert" (INS) pricing on price charts
- Replacement Channel Panel pricing, see Price Chart G
- Louver material inserted into extruded Channel Panel with clear edges; see Blind Features for fabric styles available
- Offers improved privacy, room darkening and a neutral color appearance from exterior of window
- Channel Panel colors are: Ivory (#7137) or White (#7136)
- Not available with bottom chain

VERTICAL BLINDS: MIXED LOUVERS

- For mixed colors of same louver material, add 10% to base price
- For mixed louver materials, add 10% to base price of highest price group
- Must indicate valance color at time of order

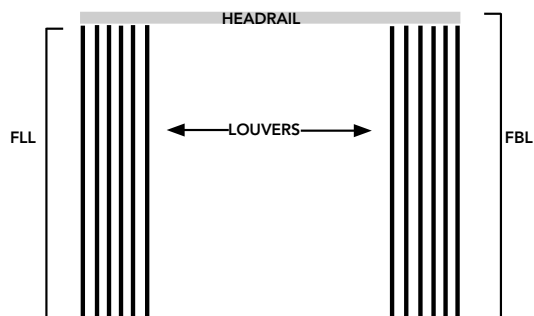

VERTICALS AND SHEER VERTICAL BLINDS: PAIRED BLINDS

- Price as two separate blinds
- The appearance of a Split Stack blind can be achieved by pairing blinds; the center opening point can be either on center or off center
- Paired Blinds can also be used when the required width is larger than the maximum width available for a single blind
- Specify Paired Blinds on your order
- Control locations must be same as stack
- Recommend ordered as left/left and right/right
- Square-corner Valance with dust cover only
- Available with one-way cord and chain only

VERTICALS AND SHEER VERTICAL BLINDS: REPLACEMENT LOUVER ORDERING

See the column at the far right of each price chart, for individual louver pricing based on material desired.

How to Price a Replacement Louver

- Use the Price Charts for individual louver pricing
- Determine which chart based on material desired
- Locate height of your louver on the left side of the chart
- Use the price on the right side of chart that coincides with the height of Louver desired

How to Measure a Replacement Existing Louver, No Changes

- Measure the louver(s) from tip to tip to determine the exact finished louver length/height (FLL)
- No additional deductions will be taken by manufacturing; louvers will be manufactured to the exact size you provide
- Submit the measurement as exact height

How to Measure a Replacement Existing Louver, Changing the Height of the Louvers

- Measure from top of mounted headrail to bottom of location to be covered
- Record this measurement; this is the Finished Blind Length/Height (FBL)
- Manufacturing will take appropriate deduction so Louvers will cover desired area

NOTE:

- Free hang fabric louvers include bottom weights
- Bottom chains for vinyl louvers are optional; must be specified at time of order

Blind Options

SHEER VERTICAL BLINDS: HEM STYLE

- 4" Drapery Hem is Standard

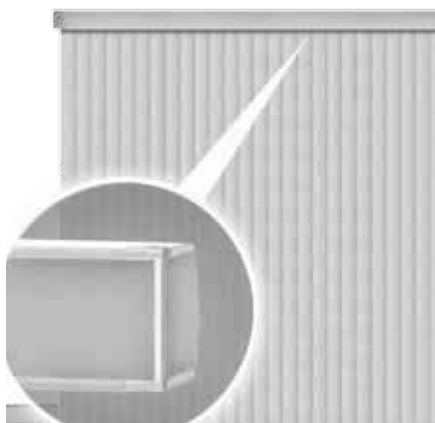

SHEER VERTICAL BLINDS: CUT YARDAGE

- **For pricing, see Options Pricing**
- Create matching soft window treatments, scarves, swags or toppers
- All fabrics are available by the yard (1 yard minimum) and are 117" wide
- Cut yardage fabric may not be an exact match due to dye lot variations
- Cut yardage fabric may need to be ironed when received using low temperature setting
- Cut yardage is provided as is; there is no warranty regarding suitability in desired application; not recommended for upholstery; edges are not finished

Blind Options

VERTICAL BLINDS: SQUARE-CORNER VALANCE

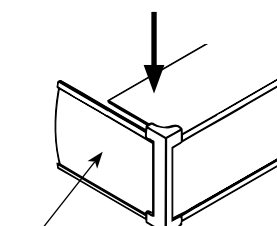

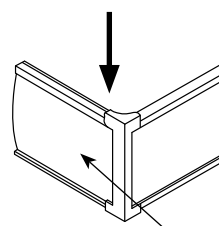

- **For surcharge, see Price Charts**

- The Square-corner Valance is an extruded vinyl Stay-Clear™ Channel Panel, which is sized to hold 3½" wide louver material; it includes two 5½" returns

- Valances greater than 192" must have a dust cover

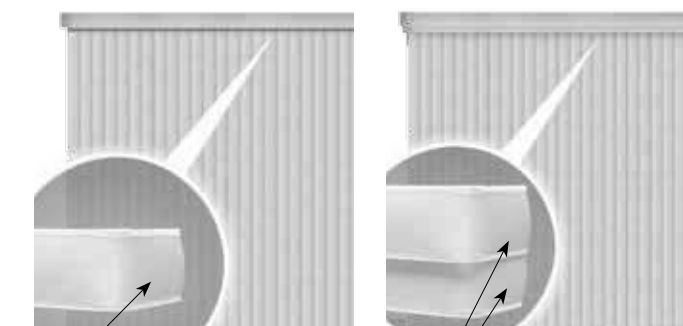

Square-corner Valance
without Dust Cover

Square-corner Valance
with Dust Cover

5½" Returns

VERTICAL BLINDS: ROUND-CORNER VALANCE

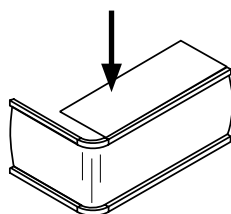

5½" RETURN

Round-corner
Valance

5½" RETURN
4½" RETURN

Double
Round-corner
Valance

Round-corner Valance
with Dust Cover

Outside Mount Only

- **For surcharge, see Price Charts**

- The Round-corner Valance system features the Stay-Clear™ Channel Panel is guaranteed not to yellow; accommodates vinyl and fabric louvers as inserts; S-shaped style louvers use matching crown profile for valance insert
- Create a layered look with a Double Round-corner Valance
- Round and Double Round-corner Valances include 5½" returns

Maximum Valance Size Limitations

	VALANCE		RETURNS	
	Max Vinyl	Max Fabric	Min	Max
Square-corner Valance	191"	191"	3"	8"
Round-corner Valance	175"			
Double Round Corner Valance	175"			

SHEER VERTICAL BLINDS: DAUPHINE® VALANCE

- **No charge**

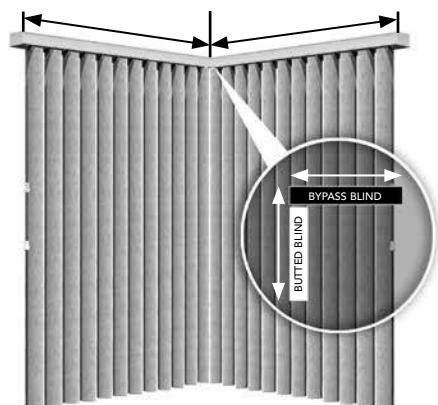

- Fabric is Shirred for a soft look
- Snap-in brackets for easy installation
- Threader cap provides no-snag shirring of sheer fabric
- Notched for minimum 2½" returns and will extend to 7½" using the additional return slides which are included

NOTE: Top hem of blind will be visible below the Dauphine Valance.

Also available are Wood Cornices and Valances; see Cornice and Valance Price List for more information.

Blind Options

VERTICAL AND SHEER VERTICAL BLINDS: BAY AND CORNER WINDOWS

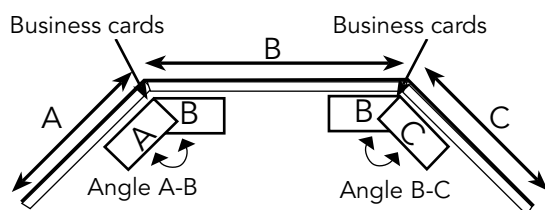

- **No charge**
- Minimal corner gaps
- Square-corner valance with dust cover only
- Chain and cord only
- Each blind is controlled separately
- List each track width and height on separate lines
- Price as separate blinds
- If no deductions are required, do not order as bay or corner

Measuring Information

Corner Window

Measure: Width of each window from corner to the point you would like to cover

Three-sided Bay Window

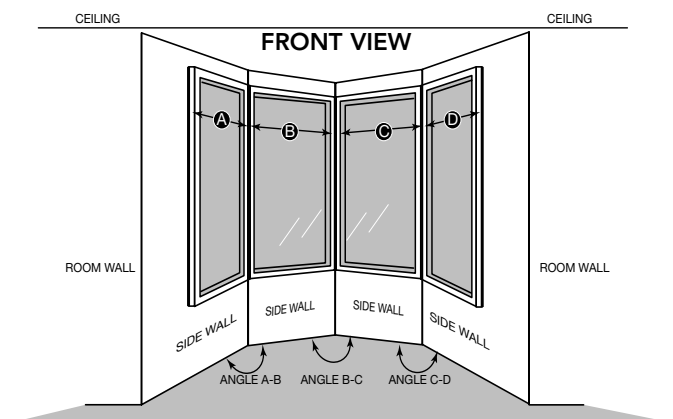

Measure:

A & C: Width of side windows from the corners to the point you would like the blind to cover.

B: Width of the center window from corner to corner.

Angle A-B: Angle between windows (A) and (B).

Angle B-C: Angle between windows (B) and (C).

Four-sided Bay Window

Measure:

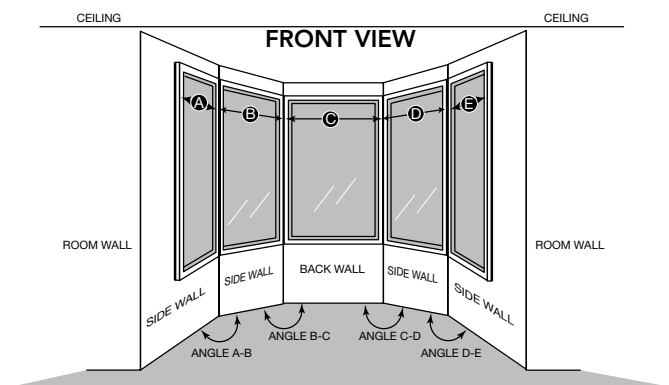

A & D: Width of side windows from the corners to the point you would like the blind to cover.

B & C: Width of each window from corner to corner.

Angle A-B: Angle between windows (A) and (B).

Angle B-C: Angle between windows (B) and (C).

Angle C-D: Angle between windows (C) and (D).

Five-sided Bay Window

Measure:

A & E: Width of side windows from the corners to the point you would like the blind to cover.

B, C & D: Width of each center window from corner to corner.

Angle A-B: Angle between windows (A) and (B).

Angle B-C: Angle between windows (B) and (C).

Angle C-D: Angle between windows (C) and (D).

Angle D-E: Angle between windows (D) and (E).

NOTE: Measure bay angle using protractor or angle finder, or use two business cards as illustrated above and fax to customer service.

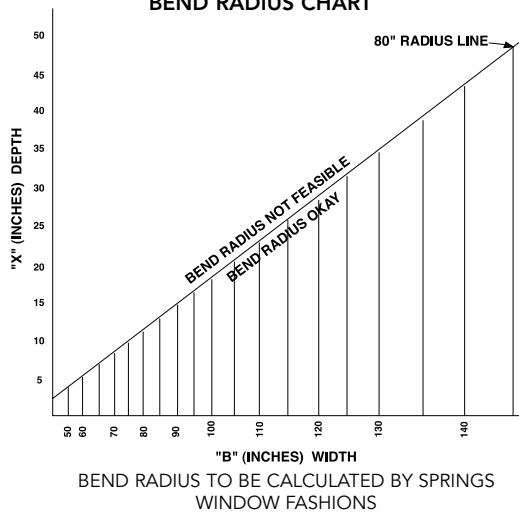

Blind Options

VERTICAL BLINDS: SPECIALTY SHAPES: CURVED HEADRAIL BLINDS

- For surcharges, see **Options Pricing**
- Minimum width 48" exact
- Maximum width 168"
- See chart for feasibility
- **NOT available with a Valance and Cornice**
- **One Touch® Control not available**

BEND RADIUS CHART

Curved Headrail Bend Radius Chart

Headrail cannot be bent to a radius tighter than 80".

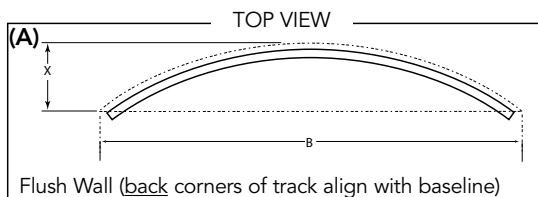

To check your application for bend radius:

1. Determine preferred application - A, B, or C (below).
2. Measure "B" and "X" for your application (diagrams below).
3. On the Bend Radius Chart, draw a line up from your "B" dimension and over from your "X" dimension.
4. If your two lines intersect below the 80" radius line, application is okay. If lines intersect above the 80" radius line, application is not feasible.
5. **Factory will make allowance for louver clearance.**

Note: Depending on bend, separate tracks may be recommended by factory.

CURVED HEADRAIL MEASURING GUIDE

See appropriate window drawing. To ensure a proper fit, fax a diagram to Customer Service.

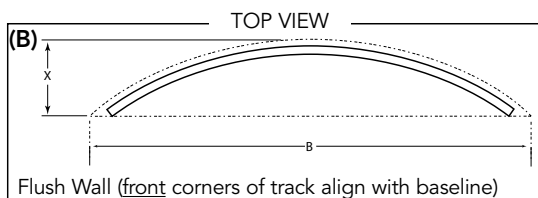

Factory will make allowance for louver clearance.

Measurements should be taken from wall to wall or window to window.

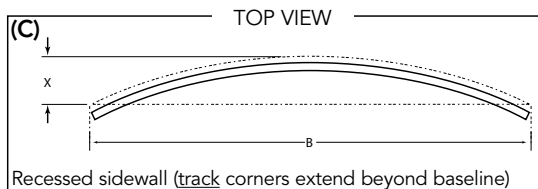

Standard Application (A)

Measure exact window baseline (B) and depth (X). Factory will make deduction for louver clearance. Diagram shows back corner of track sitting on the baseline. **This minimizes light gaps at ends of tracks.**

Optional Application (B)

Measure exact window baseline (B) and depth (X). Indicate that front corners of headrail should be flush with baseline. Factory will make appropriate deductions. Diagram shows front corners of track sitting on the baseline. **This application could leave light gaps at end of track giving visibility to outside.**

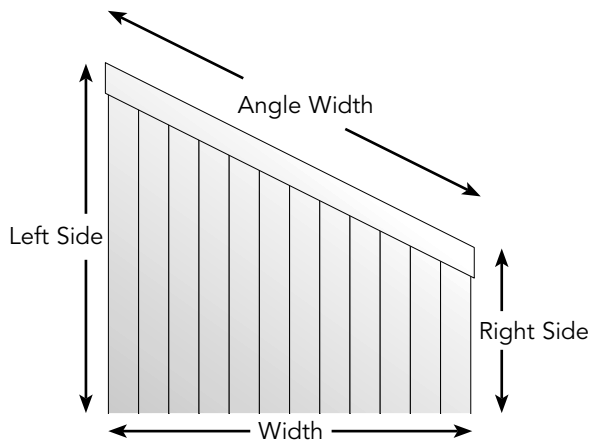

Optional Application (C)

Measure exact window baseline (B) and depth (X). Also indicate recessed wall measurement. Factory will take deductions for louver clearance. Diagram shows track extending beyond the baseline. **This will help cover the side walls to minimize any light gap.**

Blind Options

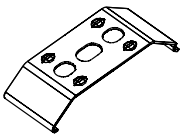

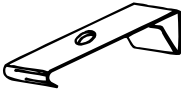

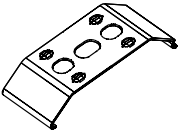

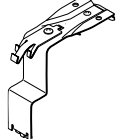

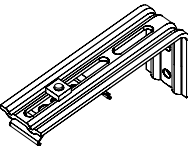

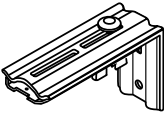

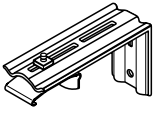

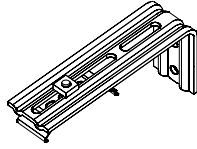

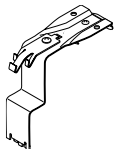

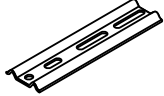

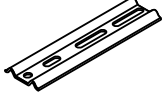

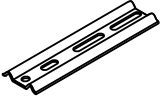

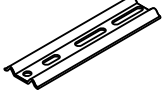

VERTICAL BLINDS: SPECIALTY SHAPES: ANGLED WINDOW HEADRAIL

- **For surcharges, see Options Pricing**
- Ideal for sloping, cathedral-type windows
- Only available in single stack cord control Vertical blinds
- Louver stack and cord control must be at the highest point of the window
- Exact dimensions must accompany orders to ensure proper fit
- Steepest slope possible is 55°
- Maximum size: 144" wide x 144" long, depending on angle
- Minimum low end is 6"
- Available on G71 Super-Vue® headrail only
- Square-corner valance with dust cover only; must be mitered at time of installation
- E-Z Open™ standard – No Charge
- Bottom Chains are not available

No. of Brackets	2	3	4	5	6

General Information

VERTICAL AND SHEER VERTICAL BLINDS: CLEAR OPENING: HOW TO MEASURE FOR UNCOVERED WINDOW

Stack Left Finished Blind Width (FBW)

Split Stack
(recommended for balanced appearance)
Finished Blind Width (FBW)

1. Determine headrail type and the clear opening width for split stack, stack right or stack left (See diagrams) - the additional 3" shown for privacy is recommended if ordering a right or left stack.
2. Match the clear opening width with dimension found under "CO" column below. For even spacing, round up width measurement to the next size in the stack chart. Split stack will have even number of vanes.
3. Order the corresponding dimension found in the "FBW" (Finished Blind Width) column below.

Example: Stack Left

If determined width for clear opening window view is 54¼", order width needed to provide full unobstructed view is 66¾".

NOTE: For stack right or stack left blinds add an additional 3" to the clear opening **before** calculating the finished blind width. For G-98 Ultra-View™ and G-85 Dura-View® headrails, and One Touch® Control, see appropriate Stacking Charts for single stack blinds only on the following pages.

General Information

G-71 SUPER-VUE® PRODUCT DETAIL

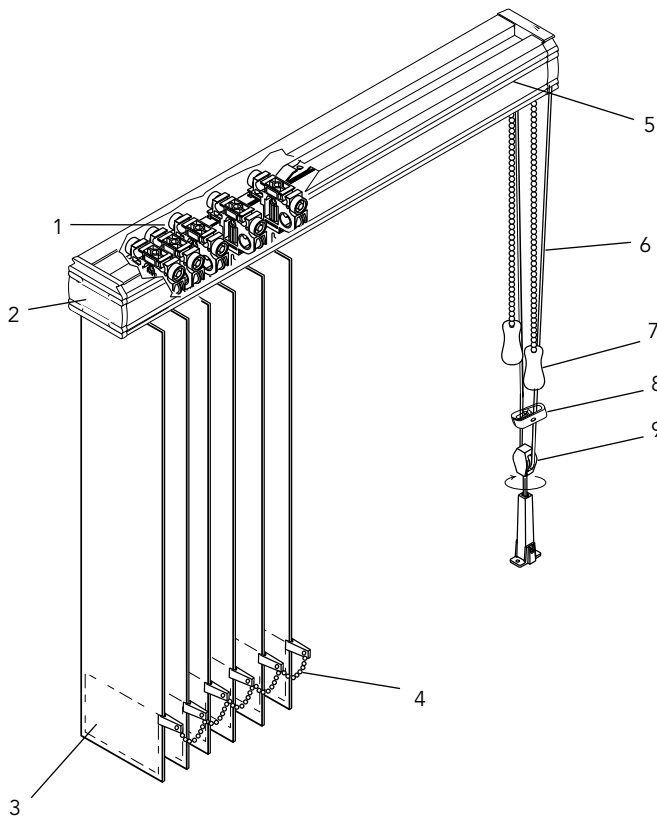

1. Pantograph Traversing System
 - Requires little draw force to open and close blinds
 - Louvers stay proportionately spaced when opening the blind
2. Fully Enclosed Drive End And Flush End Caps
 - Provide a secure fit and clean finish
3. Aluminum Headrail
 - Will not rust
 - Perfect for high humidity applications
4. Traverse cord
5. Rotation Chain with Tassels
6. Cord Safety Guide
7. Cord Weight
8. Louvers
9. Mounting Hardware

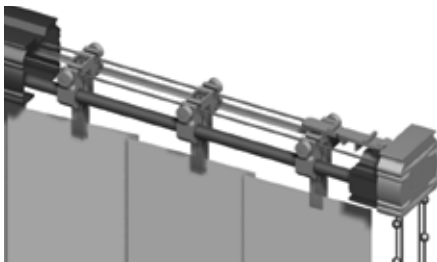

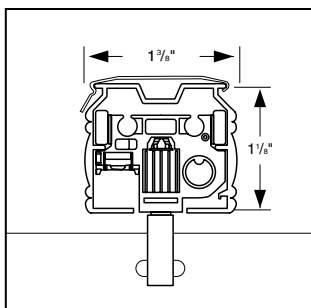

FEATURES	BENEFITS
Heavy-duty Anodized Aluminum Headrail	Will not rust; ideal for high-humidity applications
Rack and Pinion Gear System	Allows louvers to rotate smoothly and easily
Centrally Located Carrier Stems	Reversible headrail
Pantograph System	Requires very little draw force to open and close blinds; louvers stay proportionately spaced when opening the blind
Optional One Touch® Control	Safety and convenience
Removable Stems	Ability to repair instead of remaking – less invasive for the customer
E-Z Open™	Automatically rotates the louvers when the cord is pulled to traverse the blind; not available with cord tension pulley, One Touch®, and center, opposite or uneven stack
Clear Nylon Louver Stems	Nearly invisible, yet extremely strong

General Information

G-98 ULTRA-VUE™ PRODUCT DETAIL

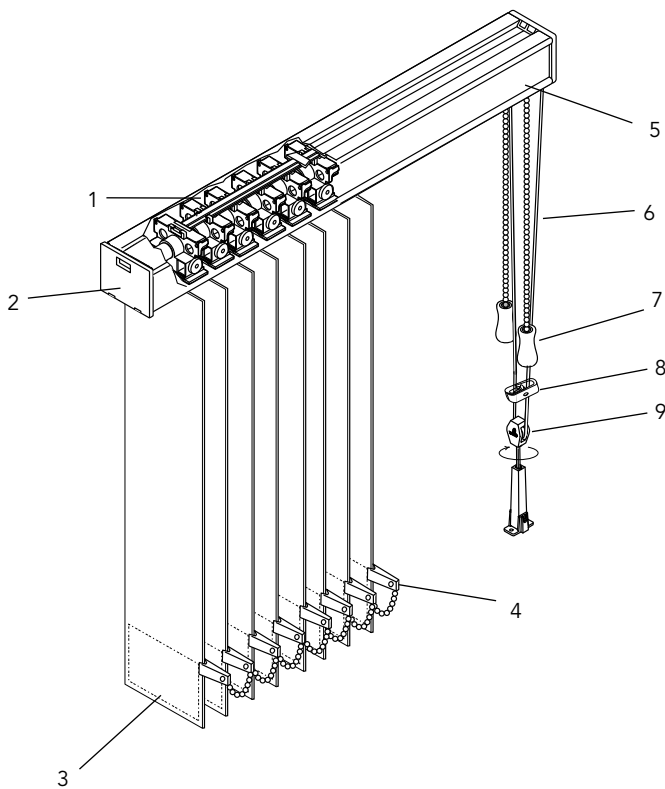

1. **Thin Profile Carrier System**
 - Narrow carrier width provides reduced louver stack
 - Self-aligning carriers for trouble-free operation
2. **Color-Coordinated End Caps**
 - Provide a clean, finished look
3. **Louver Weights**
 - Available on fabric louvers only
 - Allow fabric to hang straight
4. **Bottom Clip and Chain (Optional for fabric louvers)**
 - Stabilizes louvers in a moving air environment (i.e. screen door, heat register)
5. **Aluminum Headrail**
 - Will not rust
 - Perfect for high-humidity applications
6. **Traverse Cord**
7. **Rotation Chain with Tassels**
8. **Cord Safety Guide**
9. **Cord Tension Pulley**
 - Provides added safety and peace of mind

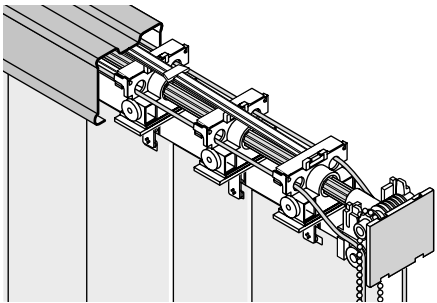

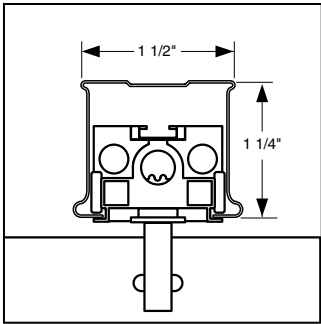

FEATURES	BENEFITS
Heavy-duty Anodized Aluminum Headrail	Will not rust; ideal for high-humidity applications
Thin Profile Carriers	Reduced stack
Self-aligning Carriers	Trouble-free operation
Fully Enclosed Drive and Flush End Caps	Provides a secure fit and clean, finished appearance
Low-friction Wheeled Carriers	Louvers traverse smoothly
Optional One Touch® Control	Safety and convenience
Centrally Located Carrier Stems and Symmetrical Cord and Chain control	Headrail reversible for right or left control installation
Clear Nylon Louver Stems	Nearly invisible, yet extremely strong
Removable Stems	Ability to repair instead of remaking; less invasive for customer

General Information

G-85 DURA-VUE® PRODUCT DETAIL

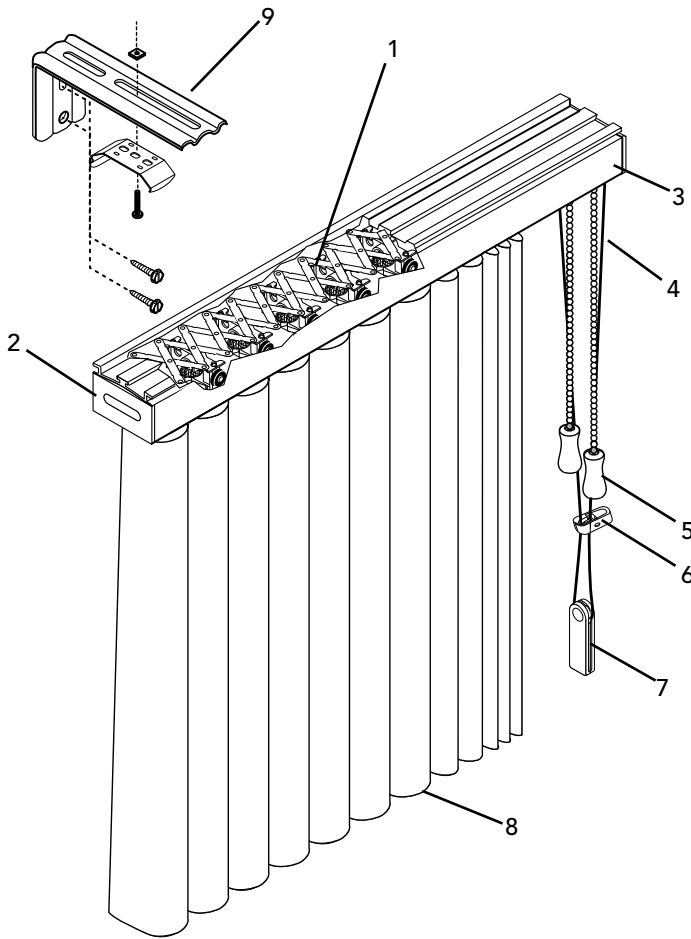

1. **Thermolastic Carrier Linkage System**
 - Provides smooth traversing of louvers
2. **Color-Coordinated End Caps**
 - Provide a clean, finished look
3. **Louver Weights**
 - Available on fabric louvers only
 - Allow fabric to hang straight
4. **Bottom Clip and Chain (Optional for fabric louvers)**
 - Stabilizes louvers in a moving air environment (i.e. screen door, heat register)
5. **Steel Headrail**
6. **Traverse Cord**
7. **Rotation Chain with Tassels**
8. **Cord Safety Guide**
9. **Cord Tension Pulley**
 - Provides added safety and peace of mind

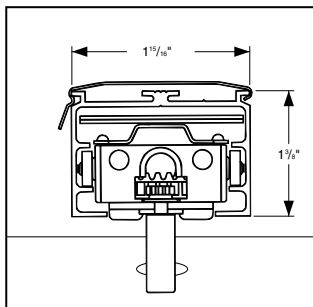

FEATURES	BENEFITS
Steel Headrail with Ivory Finish	Provides strength and durability
Wheeled Carriers	Louvers traverse smoothly and easily
Centrally Located Carrier Stems	Headrail is reversible for right or left control position
Clear Nylon Louver Stems	Nearly invisible, yet extremely strong
Optional Stack and Control Positions	Single stack, split stack, opposite stack are available
Optional One Touch® Control	Safety and convenience
Removable Stems	Ability to repair instead of remaking; less invasive for customer

General Information

SHEER VERTICAL G-71 SUPER-VUE® PRODUCT DETAIL

1. Zinc Plated Pantograph Traversing System
 - Louvers traverse smoothly and easily as one for a perfectly synchronized appearance
2. Fully Enclosed Drive End and Flush End Caps
 - Provide a secure fit and clean finish
3. Aluminum Headrail
 - Will not rust
 - Perfect for high humidity applications
4. Traverse cord
5. Rotation Chain with Tassels
6. Cord Safety Guide
7. Cord Weight
8. Sheer Fabric
9. Mounting Hardware

FEATURES	BENEFITS
• Easy install fabric	• Install fabric after headrail installation; to clean, no need to take down entire blind
• Skirt only option	• Change fabric style or color when changing room décor
• Washable fabric	• Remove fabric from blind to machine wash
• Fabric cut yardage	• Create a personal look with scarves or valance from same shade material
• Color coordinated thread	• For finished appearance
