**Surcharges & Guidelines:**

Maximum Cut-Down in Width: 4-1/2" (2-1/4" on each side); smaller size blinds may have additional cut-down limitations.

Minimum Cut-Down in Width: 1/4"

Inside Mount Deduction: 1/2"

If requested as Inside Mount, the factory will take a 1/2" deduction to the width

When requesting a cut-down of less than 1/2" in width, the blind will be trimmed on **1 side only**.

When requesting a cut-down of 1/2" or more, the blind will be trimmed on **both sides**.

When cutting a blind down on both sides, the factory will make every attempt to cut evenly from of each side ( $\pm 1/8$ ").

Cut down measurements must be ordered in 1/8" increments; cutting a blind down by less than 1/8" is not possible.

Valance Length: As a factory standard, Valances will be made 2 1/4" wider than the width of the blind.

**Common Valance available for a \$20.00 Net Surcharge.**

Maximum width for a single valance is 9' (108").

**Shipping and Handling charge is \$7 per unit.**
